The purpose of the alliance is to promote workplace safety and health by leveraging the resources of MI-OSHA and the University of Michigan Center of Occupational Health and Safety Engineering (COHSE). The alliance will promote dialogue, develop resources, promote access to training, and share information with Michigan workers and employers.

Major Alliance Objectives:

- Alliance partners will speak, exhibit and participate at MIOSHA or U of M COHSE sponsored conferences, meetings, and events as requested and when possible.
- MIOSHA and U of M COHSE, will explore opportunities to develop introductory industrial health and case study information for use in MIOSHA Training Institute courses.
- Advertise workplace safety and health education and service opportunities through email blasts, Facebook, website listings, and other appropriate methods.
- Share needs assessment information to work towards and integrated plan to develop safety and health education and service opportunities that draw on each organization's strengths.
