The WIOA Manual, issued November 8, 2019

Background: The WIOA presents an extraordinary opportunity to improve job and career
options for our nation's workers and job seekers through an integrated,
job-driven public workforce system that links diverse talent to businesses.
The WIOA supports the development of strong, vibrant regional economies
where businesses thrive, and people want to live and work. This revitalized
workforce system will be characterized by three critical hallmarks of excellence:

- (1) The needs of business and workers drive workforce solutions.
- (2) One-Stop centers provide excellent customer service to workers, job
seekers, and employers, and focus on continuous improvement.
- (3) The workforce system supports strong regional economies and
plays an active role in community, economic, and workforce
development.

Per the WIOA Section 106(a), states are required to identify planning regions in their state plans. Further, Section 106(b) requires the Governor to designate local workforce development areas within the state. The WIOA Section 106(a)(2) states, a planning region may include one or more local areas. Planning regions provide an opportunity for local areas to collaborate more formally within the larger regional economy. Per the WIOA Final Regulations at Section 679.220, the purpose of identifying planning regions is to align workforce development activities and resources with larger regional economic development areas and available resources to provide coordinated and efficient services to both job seekers and employers. The WIOA Section 106(c) states local Workforce Development Boards (WDBs) and Chief Elected Officials (CEOs) are required to engage in a regional planning process that results in the development of a Regional Plan. Further, Section 108(a) states each local WDB is also responsible for developing a Local Plan in partnership with the CEOs.

The WIOA Final Regulations at Sections 679.530 and 679.580 state, Regional and Local Plans, at a minimum, must be modified at the end of the first two-year period of the four-year plans. This is known as the Mid-cycle Modification.

Policy:

All local areas are part of a planning region, and all local areas **must submit** both a **Regional and a Local Plan** in alignment with the requirements outlined in the WIOA Sections 106(c) and 108, and the WIOA Final Regulations. **Approval of the plans by both the CEOs and the local WDB(s), for all local areas within the planning region, must occur prior to submission of the Regional Plans to the Michigan Department of Labor and Economic Opportunity-Workforce Development (LEO-WD) for approval.**

The CEO(s) and local WDB must also approve modified Local Plans before submission to the WD for approval.

For planning regions encompassing multiple local areas, only one submission of the Regional Plan for approval is necessary. Further, in cases where a planning region includes only one local area, a combined Regional and Local Plan may be submitted for approval in lieu of the submission of a separate Regional and Local Plan **as long as the combined plan meets all regional and local planning requirements** specified in the WIOA, the WIOA Final Regulations, and this policy.

Regional Plans must be consistent with the requirements outlined in Section I of Attachment C to this policy while Local Plans must be consistent with the requirements outlined in Section II. Consistent with Section 107(e) of the WIOA, the local board must make information about Regional and Local Plans available to the public on a regular basis through electronic means and open meetings.

WIOA Planning Regions

Per Michigan's WIOA Unified State Plan, the State's WIOA Planning Regions are defined as follows:

Region 1	UPWARD Talent Council
Region 2	Networks Northwest/Northwest Michigan Works!
Region 3	Northeast Consortium, Region 7B
Region 4	West Central, West Michigan Works!
Region 5	Great Lakes Bay Michigan Works!
Region 6	Genesee-Shiawassee-Thumb (GST) Michigan Works!
Region 7	Capital Area Michigan Works!
Region 8	Berrien/Cass/Van Buren, Michigan Works! Southwest
Region 9	Michigan Works! Southeast
Region 10	Detroit Employment Solutions Corporation (DESC), Macomb/St. Clair, Oakland, Southeast Michigan Community Alliance (SEMCA) Michigan Works!

Plan Modifications

During the four-year lifecycle of the Regional and Local Plans, local areas **may be required to submit annual modifications** to the Plans as changes in regional and local conditions necessitate, and as the WD determines necessary. **At a minimum, modifications for both Regional and Local Plans will be required at the end of the first two-year period of the plans** (i.e., June 30, 2022).

Conditions which require a modification to the **Regional Plan** include:

- 1) Changes in regional labor market and economic conditions; and
- 2) Other factors affecting the implementation of the plan, including but not limited to, changes in the financing available regionally to support the WIOA Title I and partner-provided WIOA services.

Conditions which require a modification to the **Local Plan** include:

- 1) Changes in labor market and economic conditions; and
- 2) Other factors affecting the implementation of the plan, including but not limited to, significant changes in local economic conditions, the financing available to support the WIOA Title I and partner-provided WIOA services, and local WDB structure, and/or the need to revise strategies to meet local performance goals.

Public Comment

All Regional and Local Plans, and any modifications to such plans, are subject to a 30-day public review and comment period as described in the WIOA and the WIOA Final Regulations, and in Section III of the attachment to this policy.

Section 106(c)(1) (a) through (h) of the Workforce Innovation and Opportunity Act (WIOA) requires local boards and chief elected officials (CEOs) in each planning region to engage in a regional planning process that results in the preparation and submission of a single Regional Plan. Regional Plans must incorporate the Local Plans for each of the local areas within the planning region consistent with the requirements of the WIOA Final Regulations at Section 679.540(a). This shall include an analysis of existing and emerging in-demand industry sectors and occupations, and the employment needs of employers in those existing and emerging in-demand industry sectors and occupations. All core partners (WIOA Titles I-IV) should be involved in both providing and analyzing the data. The analysis shall include:

This analysis must include the strengths and weaknesses of workforce development activities in the region and the region's capacity to provide the workforce development activities necessary to address the education and skill needs of the workforce, including individuals with barriers to employment, and the employment needs of employers in the region.

The analysis may include:

- An assessment of what sectors/industries are considered mature but still important to the regional economy, current and in-demand, and which are considered emerging in the regional economy.

Note: All requirements denoted as “shall include” are also required as part of the Local Plan.

SECTION II

LOCAL PLAN REQUIREMENTS

Local Plans serve as four-year action plans to develop, align, and integrate service delivery strategies and to support the state's vision and strategic and operational goals. The Local Plan sets forth the strategy to:

 28. A description of the local priority of service requirements.
 29. A description of how the local board will coordinate workforce investment activities carried out in the local area with statewide Rapid Response (RR) activities.

The RR activities encompass activities necessary to plan and deliver services to dislocated workers to facilitate a relatively quick and unencumbered transition to employment or training, following either a permanent closure or mass layoff or a natural (or other) disaster resulting in a mass job dislocation. The state is responsible for providing RR activities.

The state staff is assigned a geographic territory with the responsibility for the coordination of RR activities between the state and the local area. A Worker Adjustment Retraining Notification (WARN) Act notice typically activates the RR intervention in plant closings and mass layoffs. The WARN Act requires employers with more than 100 employees to provide at least 60 days advance notice of a covered plant closing or mass layoff at a site where the plant closing/mass layoff will affect at least one-third of the workforce and a minimum of 50 employees.

The state monitors media reports and uses a network of local contacts, such as the MWAs, state and local economic development officials, the Michigan Economic Development Corporation, union officials, United Way, and other partners to identify plant closings or layoffs.

- Services included as part of the RR process include:
 - a. Initial RR meeting with the company and union officers (if applicable).
 - b. Worker orientation meetings for employees. These meetings include presentations by MWA service providers and provide information on employment services; WIOA-funded career services (basic and individualized) and training services; Trade Adjustment Assistance, if applicable; special population services (Michigan Rehabilitation Services, Veterans' services), and local/community services (United Way, local community colleges, credit union counseling, etc.). Collaboration with other state agencies (e.g., Office of Retirement Services, Friend of the Court) are planned as needed. Michigan Unemployment Insurance Agency representatives may also participate in worker orientation

meetings and provide information on how to file/claim unemployment insurance benefits. Establishment and organization of a Joint Adjustment Committee (JAC). A JAC is an ad hoc group of workers and managers who organize to provide adjustment services on behalf of the employees who are about to lose their jobs due to a plant closure or a mass layoff. The purpose of a JAC is to help displaced workers make a successful transition to a satisfactory job or training in the shortest possible time (reference Policy Issuance (PI) 06-12, "Establishment of Labor Management Committees, also known as JACs at Sites of Facility Closures and Mass Layoffs," issued September 26, 2006).

- c. Layoff Aversion IWT, which includes an assessment of the potential for averting layoffs in consultation with the state or local economic development agencies, including private sector economic development entities and other key partners, up to a year in advance of an actual or potential dislocation event. Special attention and reference should be given to the timeframes and activities charted in the USDOL Training Employment Notice (TEN) 9-12. An IWT is the actual employment and training instrument to upgrade and alter skills to maintain employment or transition to similar employment, a preventative measure, to save jobs, increase economic productivity, and decrease the negative impacts of unemployment. Reference the USDOL Training and Employment Guidance Letter (TEGL) 30-09, the USDOL TEN 9-12, and the PI 12-02.
- d. State Adjustment Grants (SAGs) are additional increments to a local area's Dislocated Worker formula funding award to meet documented funding deficits. The MWAs may request additional funding for a single or multiple dislocation event(s) via a SAG, following the application process outlined in the SAG PI 12-32. The process includes review of the application and supporting documents and negotiation with the MWA to finalize the award. The WD reserves the right to award SAGs with specific terms and conditions, including demonstration that the SAG aligns with the Michigan Industry Cluster Approach, an obligation to spend all or part of the SAG by the end of the Program Year (PY) in which it was granted, or other time period as determined by the WD.
- e. National Dislocated Worker Grants (NDWGs) are another form of assistance provided to dislocated workers. The NDWGs are discretionary grants awarded by the Secretary of Labor to provide employment-related services for dislocated workers in specific circumstances. The WD and local MWAs work together to develop the application and project design for an NDWG, in response to a specific dislocation event.
- f. The MWAs shall develop a policy describing how the local WDB will coordinate workforce investment activities carried out in the local area with the aforementioned statewide RR activities provided by the WD to address actual or potential dislocation events, in accordance with the WIOA, Section 134(2)(A) and 20 CFR 682.300 to 682.330. In addition to the general RR elements listed under the subsections above, the policy must include, but is not limited to the following actions:

- i. A listing of the name of the person, title, mailing address, email address, and telephone number primarily responsible for (1) JACs, (2) SAGs, and (3) NDWGs.
- ii. The steps taken to include layoff aversion as a component of RR, whether realized as a policy or a set of procedures in conformity with the USDOL TEGL 30-09, the USDOL TEN 9-12, and the PI 12-02.
- iii. A description of the coordination of layoff aversion with IWT.
- iv. A description of the MWA's role in the function of JACs.
- v. A description of the local circumstances which would activate a request for a SAG (for example, specific level or percent of local dislocated worker formula funding expended, obligated and/or unobligated; specific level or percent of local and/or regional unemployment; the size of an actual or potential dislocation event; the time period between local dislocation events, etc.).
