

MIOSHA Recordkeeping and Cost of Injuries

1 Who Should Attend . . .

This online seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This MIOSHA program is designed to help employers ensure that their organization complies with MIOSHA recordkeeping requirements as contained in MIOSHA Administrative Rules Part 11, Recording and Reporting of Occupational Injuries and Illnesses. In addition to learning and understanding the "recordability" of work related injuries and illnesses, attendees will actively participate in a group exercise to complete the MIOSHA 300 log. Using this data, participants calculate injury and illness rates and learn how to compare these rates to other companies with their North American Industrial Classification System (NAICS). **Virtual classroom with an in-person instructor. This training format can be taken from the office, home, or remotely.**
