

An Informative Full-Day Seminar:

Parts 35, 90, and 490

Confined Space in Construction and Permit Required Confined Spaces in General Industry

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This course will provide an overview of both the construction and general industry rules related to confined spaces and permit-required confined spaces. Examples of actual spaces will be used to clarify the definition and facilitate proper identification of confined spaces versus permit-required confined spaces. The three means of entering a permit-required confined space are described in Part 35, 90, and 490. These will be discussed along with their correct implementation. This course also includes an introduction to the principles of air monitoring and ventilation of confined and permit-required confined spaces.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Define and apply the definition of a confined space and a permit-required confined space.
- ▶ Describe the requirements of MIOSHA Part 35 Confined Space in Construction and Part 90 and 490 Permit-Required Confined Spaces.
- ▶ Identify and apply the three methods to enter a permit space:
 - permit entry,
 - alternate entry,
 - reclassification
- ▶ Apply the basic principles of air sampling and confined space ventilation.

**Required Class For
Occupational Health
Level Two
MTI Certificate**

The meeting site and parking is accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

MIOSHA Education Training Materials

The student training manual and course reference materials will be provided in electronic format via email for students to download and print before class if they wish.

No hard copy textbook will be provided at the class. Upon arrival at class, each student will also receive a flash drive containing these materials which is theirs to keep. If you wish to bring a copy to class, you have the option to **download and/or print** the course materials in advance.

Important: When registering for this class, please provide your complete email address.

Remember to download your course handouts ahead of time!

Frequently Asked Questions

Q: Will I be able to print my materials at the seminar or workshop?

A: No printing services will be available. Print or download the presentation slides before you arrive for the class.

Q: Will I be able to charge my device at the seminar or workshop?

A: We recommend that your device is fully charged before you arrive. Charging stations may not be available in the classroom.

Q: What happens if I do not receive an email?

A: In the unlikely event that you do not receive the link via email, please call the contact number listed under Program Details on the next page for assistance.

Facilitator

John Bodnar comes to the CET Division from MIOSHA's General Industry Enforcement Division where he covered Michigan's Upper Peninsula as a Senior Safety Officer. John has a background of over 25 years in Occupational Safety, Health, and Emergency Services and Operations.

Prior to working for MIOSHA, John worked in the private sector as a consultant and trainer to the Natural Gas and Oil Industry. Among many disciplines, his background includes certifications and experiences as an EMT- paramedic, hazardous materials response team - team medic and trainer, confined space technical rescue and response - team medic and trainer. John has been certified as a mine safety and health administration trainer, breath alcohol technician, traffic accident and criminal investigator, OSHA 10 and 30-Hour authorized trainer for General Industry and Construction, and occupational hearing conservationist. John continues to serve the employers and employees of Michigan's Upper Peninsula as a MIOSHA Consultant.

Presenters: John Bodnar, Senior Occupational Safety Consultant; and
Aaron Gundrum, Industrial Hygienist; MIOSHA-CET Division
