

An Informative Full-Day Instructor-Led Virtual Seminar:

Parts 6, 33, and 433 Personal Protective Equipment Standards for General Industry and Construction

1 Who Should Attend . . .

This live online seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This course will provide the participant an overview of MIOSHA personal protective equipment (PPE) requirements contained in MIOSHA General Industry Parts 33 and 433, as well as MIOSHA Construction Part 6. Methods for conducting and documenting hazard surveys, PPE selection and maintenance criteria, and PPE training requirements are described. Sample PPE photos and scenarios will be included and discussed in the program. Tools for PPE hazard surveys will be provided to assist students in conducting and documenting hazard surveys in the workplace. **Virtual classroom with an in-person instructor. This training format can be taken from the office, home, or remotely.**

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

Participants will be able to:

- ▶ Differentiate between the MIOSHA construction, general industry and occupational health standards for personal protective equipment (PPE).
- ▶ Perform and document a simple PPE hazard survey.
- ▶ Provide PPE training according to the MIOSHA Standards.
- ▶ Discuss how to select and use the appropriate PPE in the workplace.
- ▶ Analyze some hazards found in the workplace.

This course has been approved for both residential builders pre-licensure and continuing safety training requirements.

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

Facilitator

Audrey Carlstrom joined MIOSHA's Consultation Education and Training (CET) Division in April 2019. She serves as an Industrial Hygienist in the Training and Consultation Program for the Western Counties in Lower Michigan.

Prior to joining MIOSHA's CET Division, Audrey worked as a Wastewater Laboratory Technician. As a lab tech, Audrey performed analysis on water samples throughout the treatment process to ensure compliance with the required National Pollutant Discharge Elimination System (NPDES) Permit. Additionally, Audrey served over eight years as a Bioenvironmental Engineering Technician in the Air Force, both in Active Duty and in the Michigan Air National Guard. Her duties and responsibilities primarily included occupational health surveys for over 24,000 personnel in industrial work centers. Audrey also performed environmental sampling and monitoring and was a member of the base HAZMAT emergency response team.

Audrey has a Bachelor of Science degree in Ecology and Evolutionary Biology from the University of Michigan.

Presenters: Audrey Carlstrom, Industrial Hygienist; and Chris Johnson, Senior Occupational Safety Consultant; MIOSHA-CET Division
