

An Informative Full-Day Seminar:

Conveyors: Hidden Hazards

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIO SHA).

2 MIO SHA Training Institute

MIO SHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIO SHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This dynamic one-day seminar is intended for employers committed to ensuring their facility meets or exceeds the requirements for employee safety contained in MIO SHA General Industry Safety Standard, Part 14 Conveyors. Attendees will recognize, from multiple examples, the types of conveyors commonly found in the workplace. Detect the associated hazards that employees are potentially exposed to, identify the appropriate guarding and worker protection for those hazards. Review the safety related design, electrical, and specific provisions for the identified conveyors. During group activity, evaluate and analyze fatality case studies for contributing factors and rule violations.

Agenda

We offer a flexible program agenda to emphasize the health and safety topics you want most.

- ▶ Recognize the types of conveyors and hazards associated.
- ▶ Identify and apply with MIO SHA standards safety practices.
- ▶ Review industry best practices for guarding conveyors.

The meeting site and parking is accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

MIOSHA Education Training Materials

The student training manual and course reference materials will be provided in electronic format via email for students to download and print before class if they wish.

No hard copy textbook will be provided at the class. Upon arrival at class, each student will also receive a flash drive containing these materials which is theirs to keep. If you wish to bring a copy to class, you have the option to **download and/or print** the course materials in advance.

Important: When registering for this class, please provide your complete email address.

Remember to download your course handouts ahead of time!

Frequently Asked Questions

Q: Will I be able to print my materials at the seminar or workshop?

A: No printing services will be available. Print or download the presentation slides before you arrive for the class.

Q: Will I be able to charge my device at the seminar or workshop?

A: We recommend that your device is fully charged before you arrive. Charging stations may not be available in the classroom.

Q: What happens if I do not receive an email?

A: In the unlikely event that you do not receive the link via email, please call the contact number listed under Program Details on the next page for assistance.

Facilitator

Augustine Syrový joined MIOSHA in 2018. He serves in the Consultation Education and Training Division as an occupational safety advisor and consultant to businesses, industry, unions, employee groups, schools, colleges, municipalities, counties, and other state agencies. He assists these groups in collecting, organizing and reviewing information in workplaces to determine what types of occupational hazards may be present and likely to affect workers. He works with management and employees alike to prevent, control and eliminate known or potential hazards. In addition, Augustine develops and delivers occupational safety training seminars to his constituents. He covers Washtenaw, Jackson, Eaton, Ingham, Livingston and southwest Oakland counties.

Prior to joining MIOSHA, Augustine was a fire service Captain and member of a county technical rescue team which responded to high angle rope, confined space, trench and structural collapse rescues. He has a Bachelor of Applied Science in Fire Technology from Siena Heights University.

Presenters: Augustine Syrový, Occupational Safety Consultant and Deborah Ziel, Senior Occupational Safety Consultant; MIOSHA, CET Division
