

An Informative Three-Day Instructor-Led Virtual Seminar:

MIOSHA General Industry 10-Hour +

1 Who Should Attend . . .

This three-day online seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

In today's challenging business climate, many employers are faced with the need to have their employees be capable of performing new or multiple job functions. As personnel shift to accommodate business needs, it is essential to have staff understand the importance of safety and health management and the underlying effect it has on business. In three days this fundamentals course offers the resources and tools to create or enhance an effective safety and health management system, a review of the MIO SHA Act, and highlights of many key General Industry Safety and Health Standards.

Topics include elements of a comprehensive safety and health system, recordkeeping, accident investigations, inspections and citations, written program requirements, introduction to industrial hygiene, respiratory protection, hearing conservation, bloodborne infectious diseases (BIDs), eyewash and first aid requirements, ergonomics, hazard recognition, and machine guarding. **Virtual classroom with an in-person instructor. This training format can be taken from the office, home, or remotely.**

Required Class for
General Industry
Level One
MTI Certificate

Agenda

- ▶ Incident Investigation
- ▶ Ergonomics
- ▶ First Aid, Eye Wash, and Bloodborne Infectious Diseases

Facilitator

John Bodnar comes to the CET Division from MIOSHA's General Industry Enforcement Division where he covered Michigan's Upper Peninsula as a Senior Safety Officer. John has a background of over 25 years in Occupational Safety, Health, and Emergency Services and Operations.

Prior to working for MIOSHA, John worked in the private sector as a consultant and trainer to the Natural Gas and Oil Industry. Among many disciplines, his background includes certifications and experiences as an EMT- paramedic, hazardous materials response team - team medic and trainer, confined space technical rescue and response - team medic and trainer. John has been certified as a mine safety and health administration trainer, breath alcohol technician, traffic accident and criminal investigator, OSHA 10 and 30-Hour authorized trainer for General Industry and Construction, and occupational hearing conservationist. John continues to serve the employers and employees of Michigan's Upper Peninsula as a MIOSHA Consultant.

Presenters: John Bodnar and Brian Kellogg, Senior Occupational Safety Consultants; Aaron Gundrum and Robert Atkins, Occupational Safety Consultants; MIOSHA, CET Division
