overall

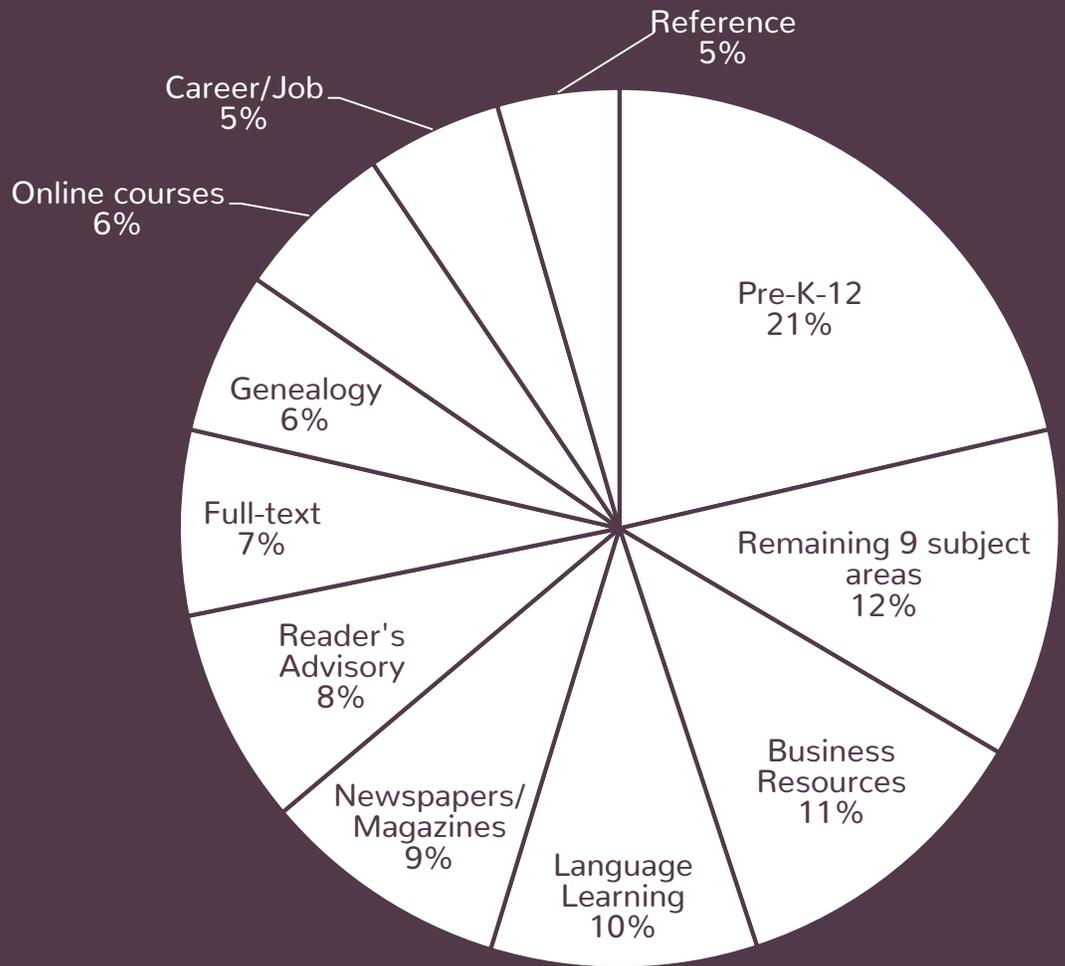

## Online Survey

257 responses over two weeks:

# Wish lists

Survey respondents were given free space to list as many desired databases as they liked. We received a total of 604 subscription requests over 148 total databases in 20 subject areas.

The Michigan eLibrary is made possible in part with funding from the Institute of Museum and Library Services

## Database training

We also surveyed how library staff would like to be trained on MeL databases. Some of the most popular subjects included refresher courses, business resource training, and overviews of K-12 resources.
