It is the responsibility of the applicant to submit the online application form and confirm receipt at the Library of Michigan by the applicable deadlines.

APPLICATION INSTRUCTIONS: All questions are required.

A. PROJECT INFORMATION: Complete this section in its entirety. You may select one, two or three years for the duration of your project. Enter amount of funds requested for each year. Enter a zero (0) for each year that you are not requesting funds. The Total Project Cost should equal the value of LSTA Funds Requested plus Cash Match funds. Cash Match funds are not required, but if any will be used, please enter the dollar amount. Note that funds availability in year two and three of a grant depends on the Library of Michigan receiving federal LSTA funding.

B. APPLICANT INFORMATION: Complete this section in its entirety. For the eligibility checklist, check all that apply. For legislative districts, please use the district where the applicant organization is located. You must include a DUNS and EIN number.

C. PROJECT ADMINISTRATION: Complete this section in its entirety. If any person holds more than one of the positions listed, please enter information for each position. NOTE: A fiscal agency is an organization that handles funds for the applicant organization. For example, the municipality is typically the fiscal agent for a municipal library and a district library is typically its own fiscal agent. An applicant may NOT list a fiscal agent that is different from their legal fiscal agent, such as a Friends group.

D. PROJECT PARTNERS: Complete this section in its entirety. List all local or regional departments, agencies, or organizations ACTIVELY collaborating in and contributing to the project. Organizations that only provide a letter of support do not qualify as partners. Partners participate in the project by providing staff time and/or funding throughout the project. A one-page statement is required from each partner to document agreement to provide staff and/or funding for specific listed activities. Information on how to submit the partner statements is provided in this document in Section L – Partner Statements. For the purposes of this grant, vendors who provide services related to the grant project are not partners; if the applicant is a library system, branch libraries are not partners; if the applicant is a library cooperative, ISD, REMC or other non-profit group, member libraries or schools are not partners; and if the applicant is an academic library, departments within the same college or university are not partners. (Not required for sponsorship applications.)

E. PROJECT PROPOSAL: This section is used to provide a complete description of all components of the project. Emphasize the innovation of the project. Each online question notes the maximum character length allowed. Include a short description of each item listed in the budget. Please write for clarity and conciseness. Each question is a separate idea so there should be minimal overlap in the answers. Be as specific as possible in each section to demonstrate your capacity and readiness to do the project. NOTE: A complete project proposal will result in up to 10 pages of text.

Project Abstract: Briefly outline the project, using no more than 160 words. This abstract will be published for public viewing so be clear and concise in your description of the project and the desired outcome. Use language understandable to the public.

Project Purpose(s): Describe the project goals in detail, including what will be accomplished and for whom. Explain how the project goals meet the goals of the Library Services and Technology Act and the Grant Program Guidelines, both of which can be found in the LSTA Grant Program General Information document at www.michigan.gov/lsta. Explain the project capacity to become a regional or statewide resource or service.

Target Population's Need for Project: Describe how the need for this project was determined. Provide statistical data and demographic information. Describe the current level of service provided to the target population. Describe the impact should the project **not** receive funding. Cite sources for all data that is used.

Project Impact: Describe the objectives and outcomes of the project and clearly relate them to the identified needs and discuss how the project may result in regional or statewide impacts.

Project Design: List all project activities and the methods to be used in accomplishing them, including promotion to the target population and library stakeholders, use of budgeted items, etc. Include all activities by project partners. Partners must actively collaborate in and contribute to the project. Include grant administrative activities including required project

reports. Preference will be given to proposals with a detailed, thorough project design demonstrating the applicant's readiness to complete the project successfully.

Evaluation Plan: Explain the evaluation plan developed for the project including target outcomes, the selected methodology, and a plan to share and promote the evaluation results. The methodology may be a survey, review of administrative data, interviews or focus groups, participant observation or other. Project evaluation is a required activity, critical to assessing the impact of a project. Outcomes are a required element for the evaluation. Note that outcomes are not outputs. An example of an output is the number of attendees at a workshop, whereas an outcome is what the attendees learned at the workshop. An outcome is a change in skill, knowledge or attitude. ALA's Project Outcome (<http://www.ala.org/pla/initiatives/performance measurement>) and/or IMLS's OBE (Outcome Based Evaluation) information (<https://www.ims.gov/grants/outcome-based-evaluations>) may be helpful to review. You should consider using a logic model to plan your evaluation to ensure that you have considered all the necessary elements. Be aware that OBE evaluation may require pre- and post-testing.

NOTE: For projects that include training of library staff or trustees, library users, or purchase content, there are prescribed questions that **MUST** be included in the project evaluation. Refer to the LSTA Evaluation Questions document at www.michigan.gov/lsta. Preference will be given to proposals with an evaluation plan over those who will develop an evaluation plan during the grant period.

Sustainability: Describe the plans to continue the project beyond the grant period. Include plans for future funding, and if applicable, how the use of project evaluation data will be used to support or seek future funding. Preference will be given to proposals show the applicant is working on sustainability over those who will be working on sustainability during the grant period.

Project Timeline: Include a step-by-step chronological list of all project activities and target dates, e.g. "January 2020 – Complete evaluation pre-testing." Include partner activities in the timeline. Note that you must complete all grant expenditures by the last business day of August in order to request reimbursement by the last business day of September. All other grant activities may continue through the last business day of September.

Personnel: List all of the applicant's personnel who will be significant contributors to the project activities and include a short description of the qualifications of each person.

F. STATE GOAL: Identify one principal purpose from the Library of Michigan's Five-Year Plan that most closely fits the project.

G. FEDERAL LSTA INTENT: Identify one IMLS Intent that most closely fits the project.

H. FEDERAL LSTA SUBJECTS: Identify up to two IMLS subjects that most closely fit the project.

I. TARGET POPULATION: If the project has a specific population that is targeted for the proposed program or resource, select the ethnic, social, economic, age and geographic communities that most closely fit the project.

J. BUDGET: For each year of the project and each budget category, briefly list the activity or materials described in the proposal and enter the estimated funding amount and the funding source - either LSTA or cash match. You may enter a zero (0) for any budget category that will not be used. See Budget Category Definitions on the next page for instruction on which category to use with which expense.

Overall Budget: List the total budget information from each project objective by budget category and funds type. If no cash match is provided, enter a zero. For Total Project Cost, add the LSTA and any Cash Match Fund totals. The LSTA Total amount must be the same as the amount requested in section A. Project Information.

NOTE: All grant payments to funded applicants will be provided on a REIMBURSEMENT basis. Refer to the grant program general information document for more information.

Budget Category Definitions

Salaries/Wages/Benefits: This category includes salaries, wages, and fringe benefits paid to applicant or partner staff working directly on the project. List the position titles included. You should list only those staff working on activities listed in the proposal. **NOTE: If you request LSTA funding for staff, you will be required to document hours worked on the project by each staff member for each pay period to be reimbursed, as per federal regulations.**

Consultant Fees: This category includes all expenses related to acquiring **advice or planning assistance** from a consultant for a specific activity within the project. If using this budget category, make sure you describe the intended actions/contributions of the consultant in the project proposal. If known, include prospective consultant name. **NOTE:** Consultants typically provide advice during planning or evaluation of projects. See Services for other contractors.

Travel: This category includes all airfare, ground transportation, accommodation, etc. for **staff members** while working on project activities. If using this budget category, make sure you describe the travel needs in the project proposal. Travel not required to accomplish a grant activity is not an eligible cost. Only costs that meet federal travel expenditure standards will be reimbursed. See www.gsa.gov in the Travel section.

Supplies/Materials: This category includes all costs for supplies and materials purchased specifically for use in the grant project. If using this budget category, make sure you describe necessary supplies in the project proposal, including item types and estimates of quantities.

Equipment: This category includes all tangible personal property with a **per item** purchase price of \$5,000 or more. Items that qualify as equipment must be approved in writing by IMLS prior to purchase. If using this budget category, make sure you describe the equipment needs in the project proposal, including items and quantities. An example would be a Smartlocker. **NOTE:** When equipment purchased with grant funds is no longer needed for project purposes, it must be properly disposed of pursuant to Department of Education requirements.

Services: This category includes the cost of services provided by a contractor or vendor, for project activities, such as developing databases, conducting training, writing curriculum, etc. If using this budget category, make sure you describe the services in the project proposal. **NOTE:** Contractors or vendors typically provide programmatic, technical, or administrative work. See

Consultants for planning assistance and advice.

Indirect Costs: This category includes **allowable** indirect costs. Indirect costs represent the expenses of doing business that are necessary for the general operation of the organization, e.g. utility charges and are charged as a percentage of allowable direct costs. If you are requesting indirect costs, contact reishk@michigan.gov for the current IMLS documentation on indirect cost rates. NOTE: Indirect cost rates apply only to certain allowable costs, not the total grant award.

In general, if you have an approved indirect cost rate, use your current rate approved by a federal agency. Upload a copy of your federal indirect cost rate agreement in the online application in pdf format. The file name MUST be in this format: *Applicant Name–Indirect Agreement–LSTA Application.pdf*. If you do not have an approved federal indirect rate, you may request a de minimus indirect rate of 10% of the allowable requested grant funds. If using contracted services, the indirect rate may only be applied to the first \$25,000 for all contracted services, including consultants.

UNALLOWABLE COSTS – WHAT IS NOT ELIGIBLE FOR REIMBURSEMENT:

Some types of expenses are not allowable under federal rules (2 CFR 200), including:

- Performers or entertainers;
- food and beverages as part of programs or events;
- advertising not directly related to the LSTA project;
- collection development purchases not directly related to grant goals or integral to the grant program;
- construction, renovation, or repairs, including fixtures, for either buildings and vehicles;
- lobbying of any kind;
- transportation or travel for program participants or non-grant funded personnel;
- databases currently offered or similar to databases currently offered by the Library of Michigan;
- equipment or technology not specifically necessary for the grant activities;
- awards, honoraria, prizes or gifts;
- souvenirs or promotional items;
- costs incurred outside the grant period. Note that you may not request funds for planning that happens BEFORE the grant period or any activities AFTER the grant period.

This list is NOT comprehensive. If you have any questions about the allowability of a particular cost, contact Karren Reish (reishk@michigan.gov) at the Library of Michigan before budgeting or expending funds.

UNALLOWABLE COST RULES APPLY TO BOTH LSTA FUNDS AND LOCAL CASH MATCH FUNDS.

ALL federal funds and ALL local match funds may only be used for federally allowable costs. Grant recipients will NOT be reimbursed for unallowable costs and may not report unallowable costs as match. For more information see [Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards 2 CFR 200](#).
