### Legally Justified

**Course Title:** Legally Justified  
**Course ID:**  
**Description:** The 1989 Graham v. Connor case established that the moment an officer uses force is all that matters when determining if it was reasonable. It determined the moment could not be judged with the 20/20 vision of hindsight. How that moment came to be matters not, only what was happening during it. We should look backward from the moment force was used and assess whether the officer, by action or lack of action, contributed to its ultimate need.

Course Title: Making a Difference - Dispatchers
Course ID: PBSV-5789
Description: Newspapers and other media outlets have stories almost daily on the heroic acts performed by first responders, and often the title of 'hero' is thrown out there and in most cases justifiably so.

But often overlooked in their efforts are the people who stand as the very foundation for most of those heroic deeds, those in our 9-1-1 Centers, aka, 'The Silent Heroes.'

Chief Lasky points out the commitment and selflessness of those who protect so many from behind the console.
