

## Michigan's Produce Safety Risk Assessment **Available Now!**

Department of  
**AGRICULTURE**  
& Rural Development

MICHIGAN  
CONSERVATION DISTRICTS

- The Produce Safety Risk Assessment is a tool to help you evaluate your on-farm produce safety practices relating to pre-harvest, harvest and post-harvest, as well as holding and packing of fresh fruits and vegetables.
- The PSRA is a scale-appropriate voluntary program designed to educate fresh fruit and vegetable producers about food safety and Produce Safety Rule standards.
- A certificate can be obtained from the State of Michigan upon completion of the program.
- Produce Safety Technicians are available throughout the state to provide technical assistance and answer questions regarding produce safety.

***Call or email to schedule an on-farm review of your farming practices!***

# Does FSMA Affect Me or My Business?

- The Food Safety Modernization Act took effect in January 2011.
- FSMA's Produce Safety Rule took effect November 2015. This rule provided new safety guidelines for produce typically eaten raw, with a focus on the prevention of foodborne illness.
- The compliance dates vary based on the amount of business food sales.

Compliance Dates	
Business food sales per year, averaged over 3 years	Date of Compliance
\$500,000+	January 2018
\$250,000 - \$500,000	January 2019
\$25,000 - \$250,000	January 2020

**Farms that grow produce covered under the Produce Safety Rule are encouraged to register their farm with the Michigan Department of Agriculture and Rural Development at:**
