W.A.R.N. Act

General Motors Corporation
North American Operations
Casting Operations
PO Box 9077
Saginaw, Michigan 48605-9077

Mr. John Palmer
Governor's Office of Job Training
201 North Washington
Lansing, Michigan 48909

Dear Mr. Palmer:

Subject: Notice of Plant Closing Pursuant to the W.A.R.N. Act

Pursuant to the "Worker Adjustment and Retraining Act" (W.A.R.N.), you are hereby notified of a planned employment loss in the form of a plant closing as defined by the W.A.R.N. Act at the General Motors Powertrain (GMPT) Saginaw Malleable Iron Plant located at 77 West Center Street, Saginaw, Michigan. The plant closing date is currently planned to take effect on June 1, 2007. Some employees, particularly the temporary employees, may be released before June 1, 2007. The plant closing will result in the retirement, permanent layoff, placement of employees into a contractual status known as a JOBS Bank which provides regular wages for a minimum of 40 hours per week, and/or placement of employees at other General Motors' facilities, of up to 86 regular employees and 28 temporary employees represented by the UAW International Union, Ron Gettelfinger, President, 8000 East Jefferson Avenue, Detroit, Michigan 48214. The Saginaw Malleable Iron Plant has also been operating with fifteen (15) hourly employees borrowed from GMPT Saginaw Metal Casting Operations. These employees will be returned to their home plant for job placement. In addition to the hourly employees, 21 salaried employees are currently employed at the closing plant. Of these, nine employees will voluntarily retire when the plant closes. Salaried employees have no bumping rights. GM expects to be able to find employment at other GM locations for most of the salaried employees affected by the plant closing.

Contractors are currently providing the services of 112 contract employees at the plant. The services of these non-GM contract house employees will be terminated upon the plant's closing or earlier.

Attached hereto, are the job titles of positions and the number of affected employees in each job classification.

Any questions regarding this matter may be directed to:
