RAPID RESPONSE
WORKFORCE PROGRAMS

Dear Ms. Hennessey:

Due to sudden, dramatic and unexpected business circumstances and economic conditions, the management of Lapeer Metal Stamping Companies, Inc. has determined to permanently close its operations and facility located at 130 N. Groesbeck Highway, Mt. Clemens, MI 48046.

It is anticipated that the Company's facility at 130 N. Groesbeck Highway, Mt. Clemens, MI 48046 will be closed on or before January of 2008 and that, as a result approximately 46 employees will be permanently separated from employment. It is our understanding this may well constitute a plant closing or mass layoff under the Worker Adjustment and Retraining Notification Act (WARN). Less than 60 days notice of such layoffs may be provided due to the sudden, dramatic and unexpected business circumstances and economic conditions the Company is experiencing, i.e., unexpected reduction in customer orders.

Initial permanent layoffs and/or terminations commenced on October 10, 2007 and will continue through January of 2008. Attached is a list of the job titles of positions and the names of the workers currently holding affected jobs. Although no bumping rights exist beyond 130 N. Groesbeck Highway, transfers to positions at the Company's facility located at 8111 Tireman, Dearborn MI 48126 may be available.

For further information, please contact me at (810) 664-8588.

Very truly yours,

[Handwritten signature of Pete Martz]

Dear Ms. Hennessey:

On October 16, 2007 Lapeer Metal Stamping Companies, Inc. forwarded to you correspondence regarding its determination permanently to close its facility located at 130 N. Groesbeck Highway, Mt. Clemens, MI 48046.

At the time of mailing of that correspondence we anticipated that the facility would be closed on or before January of 2008 and that initial permanent separations/terminations would commence on or about October of 2007 and continue through on or about January of 2008. Please be advised that the dates of permanent separations/terminations have been extended. They commenced on October 10, 2007 and we anticipate permanent separations/terminations may continue through on or about March of 2008. Changes in timing of the permanent separations/terminations resulted from customer needs and logistic and financial issues related to the Company's reorganization.

As a result, it is anticipated that approximately 50 employees overall will be permanently separated/terminated from employment at the Company's Mt. Clemens facility. It is our understanding that this may constitute a plant closing or mass layoff under the Worker Adjustment and Retraining Notification Act ("WARN"). Attached is a list of the job titles of positions and the names of the workers currently holding affected jobs.

Although no bumping rights exist beyond 130 N. Groesbeck Highway, transfers to positions at the Company's facility located at 8111 Tireman, Dearborn MI 48126 may be available.

For further information, please contact me at (810) 664-8588.
