Total:**	13388	2628

Flu-like illness* reported into MDSS statewide for December 21-27, 2008: 1821
Flu-like illness* reported into MDSS statewide for December 23-29, 2007: 2137

Flu-like illness* reported into MDSS statewide for Jan. 1-Dec. 26, 2009: 692,986
Flu-like illness* reported into MDSS statewide for Jan. 1-Dec. 31, 2008: 416,972
Flu-like illness* reported into MDSS statewide for Jan. 1-Dec. 31,2007: 404,476

DATA REPORTED ON A DAILY BASIS (Monday-Friday as of 12:00pm)

This report is current as of Wednesday, December 30 at 12:00pm

Cumulative hospitalizations associated with any influenza strain since Sept 1, 2009:** 2009
Cumulative deaths associated with any influenza strain since Sept 1, 2009: 64

*Data source: Michigan Disease Surveillance System (MDSS) aggregate reports of influenza-like illness and individual case reports of influenza (including 2009 influenza A (H1N1)).

**The data in this report are provisional, based on current reports to MDCH by local health departments. The MDSS is a dynamic, continually active system: counts of disease are constantly changing as cases are investigated, confirmed as cases, or ruled out as not meeting the case definition. This report reflects this constant activity as the numbers slightly fluctuate each week. Therefore, it should be kept in mind that numbers in this report are NOT final and should be used only to generally monitor trends over time.
