Effective Date: 6/1/09

6.03 Immunizations

Exhibit A

Selected Text from Michigan Care Improvement Registry Law

MCL 540.9206

Section 9206 (1) The health care provider administering an immunizing agent to a child shall present the person accompanying the child with a written certificate of immunization, or make an entry of the immunization on a certificate in the person's possession. The certificate shall be in a form prescribed by the department and shall indicate the diseases or infections for which the child has been immunized, the number of doses given, the dates when administered, and whether further immunizations are indicated.

Section 9206 (2) Before administering an immunizing agent to a child, a health care provider shall notify the parent, guardian, or person in loco parentis of the child, on a form provided by the department, of the right to object to the reporting requirement of subsection (3).

Section 9206 (3) Unless the parent, guardian, or person in loco parentis of the child who received the immunizing agent objects by written notice received by the health care provider prior to reporting, a health care provider shall report to the department each immunization administered by the health care provider, pursuant to rules promulgated under section 9227. If the parent, guardian, or person in loco parentis of the child who was immunized objects to the reporting requirement of this subsection by written notice received by the health care provider prior to notification, the health care provider shall not report the immunization.

MCL 91.9207

Section 9207 (3) Upon receipt of a written request from an individual who is 20 years of age or older, the department shall make any immunization information in the registry pertaining to that individual inaccessible. The written request shall be in a form prescribed or otherwise authorized by the department.
