20th Anniversary of Vaccines for Children (VFC) Program

CDC News Release September 09, 2013

- Created public-private partnership 20 years ago to improve public health
- National program helps provide vaccines for parents of children who cannot afford them
- CDC buys vaccines and distributes them to more than 44,000 VFC enrolled providers
- Improved childhood immunization coverage contributes to lowest vaccine-preventable disease incidence ever recorded

Novel Therapeutic Cancer Vaccine Goes to Human Clinical Trials

Dana-Farber Cancer Institute, ScienceDaily 9/2013

- Most cancer vaccines require removal of patients immune cells from body, reprogram and reintroduce back to body
- Wyss Institute uses small disk like sponge, size of fingernail to recruit and reprogram patient's own immune cells "on site" instructing to home in on cancer cells and kill them
- Designed to target melanoma in skin but showing promise with other cancers
- 50% if mice given two vaccines who would have died from melanoma within 25 days—showed complete tumor regression
- Phase 1 study to conclude in 2015 to assess safety in humans

Emergent BioSolutions New Michigan Facility to Expand Anthrax Production

Washington Post September 16, 2013

- Expanding operations to provide large-scale production of anthrax vaccine
- Lansing facility will help meet goal of protecting U.S. military personnel against biological weapons threat
- U.S. government ordered 44.8 million doses worth \$1.25 billion over five years
- Facility could take until 2014 or 2015 to complete certification by U.S. Food and Drug Administration

Influenza-Associated Pediatric Deaths in US, 2004-2012

Pediatrics, October 28, 2013

- Flu is fatal in children
- 830 deaths between 2004-2012
 - 167 last year
- Average age 7, 35% died before hospital admission
- 43% had NO high risk conditions
- These children were more likely to die before hospital admission and within 3 days of symptom onset

High Dose Flu Vaccine in Large Trial Proves More Effective

- Sanofi High Dose Fluzone 24% more effective in adults 65 and older
- Could result in changes in ACIP recommendations in next flu seasons

CIDRAP NEWS October 24, 2013

Parents' perceptions of pharmacists as providers of influenza vaccine to children

Journal of the American Pharmacists Association 53:5 Sep/Oct 2013

- Study in Wisconsin between Nov 2011 and April 2012:
 - To examine parents' experience with the process of obtaining the flu vaccine and their perceptions about pharmacists providing flu vaccine services to their children.
- Conclusions with response rate of 48%:
 - 98% parents didn't need an appointment
 - 51% visited pharmacy during hours of 3:05 pm to 6:00pm
 - 97% felt confident about the pharmacists providing influenza vaccinations to their children
 - Parents' positive and willing to accept pharmacists as an immunization resource for their children

Vaccine Shortages

- Anticipate Sanofi Pasteur to return with some supply of Pentacel® in mid-October, VFC and private vaccine supply affected
- CDC to continue with VFC allocations for ActHIB until the supply of Pentacel stabilizes as a precautionary measure
- Sanofi ActHIB® October allocations were approximately 15% higher than they were in September
- Sanofi Daptacel® (DTaP): Entire amount of vaccine was allocated and all that was expected to be received until mid-October, when new doses are expected to become available
- Sanofi Pentacel® (DTaP-IPV-Hib): CDC did not allocate additional doses for the month of August. This extended the time period during which no additional doses of Pentacel® were available to include the month of September and the first half of October
- Sanofi Adacel® (Tdap): Supplies for the remainder of August, September, and October were all allocated

The page also includes a search bar and various navigation options like 'Print Friendly', 'Text Version', and 'Text Size'.

Michigan Immunization Timely Tips (MITT) Newsletter

The screenshot shows two issues of the Michigan Immunization Timely Tips (MITT) Newsletter. The left issue is dated November 2013 and features articles such as 'New Vaccine Recommendations for Adults', 'Helping Adults Pay for Vaccines', and 'Hepatitis B Vaccination'. The right issue is dated May 2013 and features 'May is National Hepatitis Awareness Month'. Both newsletters include a search bar, a table of contents, and a list of links to various resources. The MDCH logo is visible in the bottom right corner of the newsletters.

Helping Adult Clients Pay for Vaccines

The screenshot shows a document titled 'Helping Your Adult Clients Pay for Vaccines'. The document is divided into several sections: 'MI VAP (Michigan Vaccine Replacement Program)', 'High Risk Hepatitis B and Hepatitis B Program', 'Adult Medicare (beginning at age 65 years)', and 'Medicaid Part D'. A central box contains the URL www.michigan.gov/immunize and www.aimtoolkit.org. The MDCH logo is visible in the bottom right corner.

Free Brochures

www.healthymichigan.com

The screenshot shows a brochure titled 'Free Brochures' with the website www.healthymichigan.com. The brochure features three main sections: 'Meningococcal (meningitis)', 'Human Papillomavirus (HPV)', and 'Paying for Vaccines'. Each section includes a brief description of the condition and a list of resources. A photo of a man is featured on the right side of the brochure. The MDCH logo is visible in the bottom right corner.

These slides were presented at the MDCH Fall Regional Immunization Conference on November 22, 2013, in Troy, Michigan. This information is valid as of 11/22/13.
