

1 MICHIGAN DEPARTMENT OF COMMUNITY HEALTH
2
3 CERTIFICATE OF NEED (CON) REVIEW STANDARDS FOR
4 OPEN HEART SURGERY (OHS) SERVICES
5

6 (By the authority conferred on the CON Commission by Section 22215 of Act No. 368 of the Public Acts
7 of 1978, as amended, and sections 7 and 8 of Act No. 306 of the Public Acts of 1969, as amended, being
8 sections 333.22215, 24.207, and 24.208 of the Michigan Compiled Laws.)
9

10 **Section 1. Applicability**
11

12 Sec. 1. (1) These standards are requirements for approval of the initiation or acquisition of OHS
13 services, and delivery of these services under Part 222 of the Code. Pursuant to Part 222 of the Code,
14 OHS is a covered clinical service. The Department shall use these standards in applying Section
15 22225(1) of the Code, being Section 333.22225(1) of the Michigan Compiled Laws and Section
16 22225(2)(c) of the Code, being Section 333.22225(2)(c) of the Michigan Compiled Laws.
17

18 **Section 2. Definitions**
19

20 Sec. 2. (1) For purposes of these standards:

21 (a) "Adult OHS" means OHS offered and provided to individuals age 15 and older as defined in
22 subsection (i).

23 (b) "Cardiac surgical team" means the designated specialists and support personnel who
24 consistently work together in the performance of OHS.

25 (c) "Certificate of Need Commission" or "Commission" means the Commission created pursuant to
26 Section 22211 of the Code, being Section 333.22211 of the Michigan Compiled Laws.

27 (d) "Code" means Act No. 368 of the Public Acts of 1978, as amended, being Section 333.1101 et
28 seq. of the Michigan Compiled Laws.

29 (e) "Department" means the Michigan Department of Community Health (MDCH).

30 (f) "Hospital" means a health facility licensed under Part 215 of the Code.

31 ~~(g) "ICD-9-CM code" means the disease codes and nomenclature found in the International~~
32 ~~Classification of Diseases - 9th Revision - Clinical Modification, prepared by the Commission on~~
33 ~~Professional and Hospital Activities for the U.S. National Center for Health Statistics.~~

34 (hg) "Medicaid" means title XIX of the social security act, chapter 531, 49 Stat. 620, 42 U.S.C. 1396
35 to 1396g and 1396i to 1396u.

36 (i) "Michigan inpatient data base" or "MIDB" means the data base compiled by the Michigan Health
37 and Hospital Association or successor organization. The data base consists of inpatient discharge
38 records from all Michigan hospitals and Michigan residents discharged from hospitals in border states for
39 a specific calendar year.

40 (j) "Open heart surgery" means any cardiac surgical procedure involving the heart and/or thoracic
41 great vessels (excluding organ transplantation) that is intended to correct congenital and acquired cardiac
42 and coronary artery disease and/or great vessels and often uses a heart-lung pump (pumps and
43 oxygenates the blood) or its equivalent to perform the functions of circulation during surgery. These
44 procedures may be performed off-pump (beating heart), although a heart-lung pump is still available
45 during the procedure.

46 (k) "Open heart surgical case" means a single visit to an operating room during which one or more
47 OHS procedures are performed. The list of OHS procedures shall be maintained by the Department.

48 (l) "OHS service" means a hospital program that is staffed with surgical teams and other support
49 staff for the performance of open heart surgical procedures. An OHS service performs OHS procedures
50 on an emergent, urgent and scheduled basis.

51 (m) "Pediatric OHS" means OHS offered and provided to infants and children age 14 and younger,
52 and to other individuals with congenital heart disease as defined by the ICD-9-CM codes of 745.0 through
53 747.99. **(SEE APPENDIX C FOR ICD-10-CM CODES).**

54 (n) "Planning area" means the groups of counties shown in Section 10.

55
56 (2) The definitions in Part 222 shall apply to these standards.
57

58 **Section 3. Requirements to initiate OHS services** 59

60 Sec. 3. (1) An applicant proposing to initiate either adult or pediatric OHS as a new service shall be a
61 hospital and operating or approved to operate a diagnostic and therapeutic adult or pediatric cardiac
62 catheterization service, respectively.
63

64 (2) A hospital proposing to initiate OHS as a new service shall have a written consulting agreement
65 with a hospital which has an existing active OHS service performing a minimum of 400 open heart
66 surgical cases per year for 3 consecutive years. The agreement must specify that the existing service
67 shall, for the first 3 years of operation of the new service, provide the following services to the applicant
68 hospital:

69 (a) Receive and make recommendations on the proposed design of surgical and support areas that
70 may be required;

71 (b) Provide staff training recommendations for all personnel associated with the new proposed
72 service;

73 (c) Provide recommendations on staffing needs for the proposed service; and

74 (d) Work with the medical staff and governing body to design and implement a process that will
75 annually measure, evaluate, and report to the medical staff and governing body the clinical outcomes of
76 the new service, including: (i) Mortality rates, (ii) Complication rates, (iii) Success rates, and (iv) Infection
77 rates.
78

79 (3) An applicant proposing to initiate adult OHS as a new service shall demonstrate 300 adult open
80 heart surgical cases based on the methodology set forth in Section 8.
81

82 (4) An applicant proposing to initiate pediatric OHS as a new service shall demonstrate 100 pediatric
83 open heart surgical cases based on the methodology set forth in Section 9.
84

85 **Section 4. Requirements to acquire an existing open heart surgery service** 86

87 Sec. 4. An applicant proposing to acquire a hospital that has been approved to perform OHS services
88 may also acquire the existing OHS service if it can demonstrate that the proposed project meets all of the
89 following:
90

91 (1) An application for the first acquisition of an existing OHS service after February 25, 2008 shall not
92 be required to be in compliance with the applicable volume requirements on the date of acquisition. The
93 OHS service shall be operating at the applicable volume requirements set forth in Section 7 of these
94 standards in the second 12 months after the date the service is acquired, and annually thereafter.
95

96 (2) Except as provided for in subsection (1), an application for the acquisition of an existing OHS
97 service after February 25, 2008 shall be required to be in compliance with the applicable volume
98 requirements, as set forth in the project delivery requirements, on the date an application is submitted to the
99 Department.
100

101 (3) The applicant agrees to operate the OHS service in accordance with all applicable project
102 delivery requirements set forth in Section 7 of these standards.
103
104

105 **Section 5. Requirements for Medicaid participation**

106
107 Sec 5. An applicant shall provide verification of Medicaid participation. An applicant that is a new
108 provider not currently enrolled in Medicaid shall certify that proof of Medicaid participation will be provided
109 to the Department within six (6) months from the offering of services if a CON is approved.
110

111 **Section 6. Requirements for MIDB data commitments**

112
113 Sec. 6. In order to use MIDB data in support of an application for either adult or pediatric OHS
114 services, an applicant shall demonstrate or agree, as applicable, to all of the following:
115

116 (1) A hospital(s) whose adult MIDB data is used in support of a CON application for adult OHS
117 services shall not use any of its adult MIDB data in support of any other application for adult OHS
118 services prior to 7 years after the initiation of the OHS service for which MIDB data were used to support.
119 After the 7-year period, a hospital(s) may only commit its adult MIDB data in support of another
120 application for adult OHS services if they have experienced an increase from the previously committed
121 MIDB data. Only that additional increase in MIDB data can be committed to another applicant to initiate
122 OHS services.
123

124 (2) A hospital(s) whose pediatric MIDB data is used in support of a CON application for pediatric
125 OHS services shall not use any of its pediatric MIDB data in support of any other application for pediatric
126 OHS services prior to 7 years after the initiation of the OHS service for which MIDB data were used to
127 support. After the 7-year period, a hospital(s) may only commit its pediatric MIDB data in support of
128 another application for pediatric OHS services if they have experienced an increase from the previously
129 committed MIDB data. Only that additional increase in MIDB data can be committed to another applicant
130 to initiate OHS services.
131

132 (3) The hospital(s) committing MIDB data does not currently operate an adult or pediatric OHS
133 service or have a valid CON issued under Part 222 to operate an adult or pediatric OHS service.
134

135 (4) The hospital(s) committing MIDB data is located in the same planning area as the hospital to
136 which MIDB data is being proposed to be committed.
137

138 (5) The hospital(s) committing MIDB data to a CON application has completed the departmental
139 form(s) which (i) authorizes the Department to verify the MIDB data, (ii) agrees to pay all charges
140 associated with verifying the MIDB data, and (iii) acknowledges and agrees that the commitment of the
141 MIDB data is for the period of time specified in subsection (1) or (2), as applicable.
142

143 (6) The hospital(s) committing MIDB data to an application is regularly admitting patients as of the
144 date the Director makes the final decision on that application, under Section 22231 of the Code, being
145 Section 333.22231 of the Michigan Compiled Laws.
146

147 **Section 7. Project delivery requirements and terms of approval for all applicants**

148
149 Sec. 7. An applicant shall agree that, if approved, the OHS services shall be delivered in compliance
150 with the following terms of CON approval:
151

152 (1) Compliance with these standards.
153

154 (2) Compliance with the following quality assurance standards:

155 (a) Each physician credentialed by the hospital to perform adult OHS cases, as the attending
156 surgeon, shall perform a minimum of 50 adult OHS cases per year. The annual case load for a physician
157 means adult OHS cases performed by that physician, as the attending surgeon, in any hospital or
158 combination of hospitals.

159 (b) The service shall have the cardiac surgical team available on call for emergency cases 24 hours
160 a day, 7 days a week.

161 (c) The applicant hospital shall participate with the Society of Thoracic Surgeons (STS) National
162 Database and the Michigan Society of Thoracic and Cardiovascular Surgeons (MSTCVS) Quality
163 Collaborative and Database or a designee of the Department that monitors quality and risk adjusted
164 outcomes.

165

166 (3) Compliance with the following access to care requirements:

167 (a) The service shall accept referrals for OHS from all appropriately licensed practitioners.

168 (b) The applicant hospital shall participate in Medicaid at least 12 consecutive months within the first
169 two years of operation and annually thereafter.

170 (c) The applicant hospital shall not deny OHS services to any individual based on the ability to pay or
171 source of payment.

172 Compliance with selective contracting requirements shall not be construed as a violation of this term.

173 (d) The operation of and referral of patients to the OHS services shall be in conformance with 1978
174 PA 368, Sec. 16221, as amended by 1986 PA 319; MCL 333.1621; MSA 14.15 (16221).

175

176 (4) Compliance with the following monitoring and reporting requirements:

177 (a) The OHS service shall be operating at an annual level of 150 adult open heart surgical cases or
178 100 pediatric open heart surgical cases, as applicable, as submitted to the STS Database, by the end of
179 the third 12 full months of operation, and annually thereafter.

180 (b) The applicant hospital shall prepare and present to the medical staff and governing body reports
181 describing activities in the OHS service including complication rates and other morbidity and mortality
182 data.

183 (c) The applicant hospital shall participate in a data collection network established and administered
184 by the Department or its designee. The data may include but is not limited to annual budget and cost
185 information, operating schedules, patient demographics, diagnostic, morbidity and mortality information,
186 and the volume of care provided to patients from all payor sources. The applicant hospital shall provide
187 the required data in a format established by the Department and in a mutually agreed upon media. The
188 Department may elect to verify the data through on-site review of appropriate records.

189 (d) The applicant hospital shall participate in a data registry administered by the Department or its
190 designee as a means to measure quality and risk adjusted outcomes within OHS programs. The
191 Department shall use the STS Composite Star Rating System which currently includes coronary artery
192 bypass graft composite (CABG), aortic valve replacement composite, and plans to add additional cardiac
193 surgical composites each year. The Department or its designee shall require that the applicant hospital
194 submit a summary report as specified by the Department. The applicant hospital shall provide the
195 required data in a format established by the Department or its designee. The applicant hospital shall be
196 liable for the cost of data submission and on-site reviews in order for the Department to verify and monitor
197 volumes and assure quality. The applicant hospital shall become a member of the data registry specified
198 by the Department upon initiation of the service and continue to participate annually thereafter for the life
199 of that service. The outcomes database must undergo statewide auditing.

200 (e) The applicant hospital shall utilize and report the STS Composite Star Rating System for all
201 procedures as follows:

202 (i) If the program receives a one-star rating in any composite metric, they shall submit a report to the
203 Department explaining the reason(s) for the unsatisfactory rating.

204 (ii) If the program receives two one-star ratings in a row in the same composite metric, they shall
205 submit an action plan to the Department detailing specific actions to rectify the program deficiencies.

206 (iii) If the program receives two one-star ratings within the same composite metric, the program may
207 have two years to obtain a minimum two-star rating within that composite metric. Upon receipt of a two-
208 star or higher rating, the program may be considered in compliance.

209 (f) The applicant hospital shall provide the Department with timely notice of the proposed project
210 implementation consistent with applicable statute and promulgated rules.

211

212 (5) Nothing in this section prohibits the Department from taking compliance action under MCL
213 333.22247.

214
215 (6) The agreements and assurances required by this section shall be in the form of a certification
216 agreed to by the applicant or its authorized agent.

217
218 **Section 8. Methodology for computing the number of adult open heart surgical cases**
219

220 Sec. 8. (1) The weights for the adult principal and non-principal diagnoses tables found in Appendix
221 A are calculated using the following methodology. For these two tables, only the MIDB data from
222 licensed hospitals that have operational OHS programs in Michigan will be used. Using the hospitals'
223 actual inpatient discharge data, as specified by the most recent MIDB data available to the Department,
224 the discharges that were from patients aged 15 years and older shall be identified. These discharges
225 shall be known as the "adult discharges."

226 (a) To calculate the weights for the principal diagnosis, the following steps shall be taken:

227 (i) For each diagnostic group in the principal weight table, the discharges having a primary diagnosis
228 matching any diagnosis in the diagnostic group are identified. The number of discharges is counted.

229 (ii) For the discharges identified in subsection 8(1)(a)(i), any occurrence of an open heart procedure
230 code will be considered as a single OHS case. For each diagnostic group, the number of OHS cases is
231 counted.

232 (iii) The number of OHS cases for each diagnosis category identified in subsection 8(1)(a)(ii) will be
233 divided by the number of discharges identified in subsection 8(1)(a)(i). This will be the weight for that
234 diagnostic group. This number should show six decimal positions.

235 (iv) All discharges utilized for the computation of the principal weight table are to be removed from
236 subsequent analyses.

237 (b) To calculate the weights for the non-principal diagnosis table, the following steps shall be taken,
238 separately, in the sequence of the group order found in the non-principal diagnosis table:

239 (i) Each remaining discharge will be examined for any mention of the diagnostic codes from that
240 group. If a match is found, that discharge is assigned to that diagnostic group and removed from
241 subsequent analyses. The number of discharges in each diagnostic group is counted.

242 (ii) For each diagnostic group taken separately, in the sequence shown, any occurrence of an open
243 heart procedure code for each discharge will be counted as a single OHS case. If a match is found, the
244 discharge will be considered as an open heart surgical case for that diagnostic group and removed from
245 subsequent analyses. The number of open heart surgical cases in each diagnostic group is counted.

246 (iii) The number of OHS cases for each non-principal diagnosis category identified in subsection
247 8(1)(b)(ii) will be divided by the number of discharges identified in subsection 8(1)(b)(i). This will result in
248 the non-principal weight for that diagnostic group. This number should show six decimal positions.

249
250 (2) An applicant shall apply the methodology set forth in this section for computing the projected
251 number of adult open heart surgical cases using both the principal and non-principal diagnosis tables.
252 The following steps shall be taken in sequence:

253 (a) For each diagnostic group in the principal weight table in Appendix A, identify the corresponding
254 number of discharges.

255 (b) Multiply the number of discharges for each diagnostic group by their respective group weight to
256 obtain the projected number of OHS cases for that group. All discharges identified in subsection 8(2)(a)
257 are removed from subsequent analysis.

258 (c) The non-principal weight table identifies the sequence that must be followed to count the
259 discharges for the appropriate group. An applicant shall start with the first diagnostic group and shall
260 count the number of discharges with any mention of a non-principal diagnosis corresponding to that
261 specific diagnostic group. When a discharge that belongs in the specific non-principal diagnostic group is
262 identified, it is assigned to that group. This discharge is then removed from the data before counting
263 discharges for the next diagnostic group. The discharges counted for each group will be used only with
264 the non-principal diagnosis weight table in Appendix A and will be entered into its respective diagnostic

265 group. Multiply the number of discharges for each diagnostic group by their respective group weight to
266 obtain the projected number of OHS cases for that group.

267 (d) The total number of projected open heart cases is then calculated by summing the projected
268 number of open heart cases from both principal and non-principal weight tables.

269
270 (3) The major ICD-9-CM groupings **(SEE APPENDIX D FOR ICD-10-CM CODES)** and Open Heart
271 utilization weights in Appendix A are based on the work of the Bureau of Policy and Planning, Michigan
272 Department of Community Health, utilizing the most current MIDB data available to the Department.

273 (a) The Department shall update the open heart utilization weights every 3 years, beginning with the
274 year 2007, according to the methodology described in subsection (1) above, utilizing the most current
275 MIDB data available to the Department.

276 (b) Updates to the utilization weights made pursuant to this subsection shall not require standard
277 advisory committee action, a public hearing, or submittal of the standard to the legislature and governor in
278 order to become effective.

279 (c) The Department shall notify the Commission when the updates are made and the effective date
280 of the updated utilization weights.

281 (d) The updated open heart utilization weights established pursuant to this subsection shall
282 supercede the weights shown in Appendix A and shall be included as an amended appendix to these
283 standards.

284
285 (4) Each applicant shall provide access to verifiable hospital-specific data and documentation using a
286 format established by the Department and a mutually agreed upon media.

287 **Section 9. Methodology for computing the number of pediatric open heart surgical cases**

288
289 Sec. 9. (1) The weights for the pediatric diagnosis table found in Appendix B are calculated using
290 the following methodology. Only the MIDB data from licensed hospitals that have operational OHS
291 programs in Michigan will be used.

292
293 (a) Using the hospitals' actual inpatient discharge data, as specified by the most recent MIDB data
294 available to the Department, the discharges that were from patients of any age that have a diagnosis (any
295 mention) of the ICD-9-CM codes **(SEE APPENDIX E FOR ICD-10-CM CODES)** listed in the "Congenital
296 Anomalies" category in Appendix B shall be counted. Each identified record shall be counted only once
297 so that no record is counted twice. An applicant shall remove these cases from subsequent analyses.

298 (b) For those discharges identified in subsection 9(1)(a), any occurrence of an open heart procedure
299 code will be considered as a single OHS case. The number of open heart surgical cases is counted.

300 (c) The number of OHS cases for the "Congenital Anomalies" category identified in subsection
301 9(1)(b) will be divided by the number of discharges identified in subsection 9(1)(a). This will be the weight
302 for the "Congenital Anomalies" diagnostic group. This number should show six decimal positions.

303 (d) Using the hospitals' remaining inpatient discharges, the discharges that were from patients aged
304 14 years and younger shall be identified. These discharges shall be known as the "pediatric discharges."

305 (e) Using the "pediatric discharges" identified in subsection 9(1)(d), the number of discharges that
306 have a diagnosis (any mention) of the ICD-9-CM codes **(SEE APPENDIX E FOR ICD-10-CM CODES)**
307 listed in the "All Other Heart Conditions" category in Appendix B shall be counted. Discharge records
308 which do not have one or more of the "All Other Heart Conditions" codes listed in Appendix B shall not be
309 used. Each identified record shall be counted only once so that no record is counted twice.

310 (f) For those discharges identified in subsection 9(1)(e), any occurrence of an open heart procedure
311 code will be considered as a single OHS case. The number of open heart surgical cases is counted.

312 (g) The number of OHS cases for the "All Other Heart Conditions" category identified in subsection
313 9(1)(f) will be divided by the number of discharges identified in subsection 9(1)(e). This will be the weight
314 for the "All Other Heart Conditions" diagnostic group. This number should show six decimal positions.

315
316 (2) An applicant shall apply the methodology set forth in this section for computing the projected
317 number of pediatric open heart surgical cases. In applying discharge data in the methodology, each
318 applicable inpatient record is used only once. This methodology shall utilize only those inpatient

319 discharges that have one or more of the cardiac diagnoses listed in Appendix B. In applying this
320 methodology, the following steps shall be taken in sequence:

321 (a) Using a hospital's actual inpatient discharge data, as specified by the most recent MIDB data
322 available to the Department, an applicant shall count the discharges that were from patients of any age
323 that have a principal diagnosis or any of the first four non-principal diagnoses of the ICD-9-CM codes
324 | (SEE APPENDIX E FOR ICD-10-CM CODES) listed in the "Congenital Anomalies" category in Appendix
325 B. Each identified record shall be counted only once so that no record is counted twice. An applicant
326 shall remove these cases from the discharge data.

327 (b) Using a hospital's remaining inpatient discharges, an applicant shall identify the discharges that
328 were from patients aged 14 years and younger. These discharges shall be known as the "pediatric
329 discharges."

330 (c) Using the "pediatric discharges" identified in Subdivision (b), an applicant shall count the number
331 of discharges with a principal diagnosis or any of the first four non-principal diagnoses of the ICD-9-CM
332 | codes (SEE APPENDIX E FOR ICD-10-CM CODES) listed in the "All Other Heart Conditions" category in
333 Appendix B. Discharge records which do not have one or more of the "All Other Heart Conditions" codes
334 listed in Appendix B shall not be used. Each identified record shall be counted only once so that no
335 record is counted twice.

336 (d) An applicant shall multiply the count for the "Congenital" and "All Other Heart Conditions"
337 categories by the corresponding Pediatric Open Heart Utilization Weight and add the products together to
338 produce the number of pediatric open heart surgical cases for the applicant.

339
340 | (3) The major ICD-9-CM groupings (SEE APPENDIX E FOR ICD-10-CM CODES) and Pediatric
341 Open Heart Utilization Weights in Appendix B are based on the work of the Bureau of Policy and
342 Planning, Michigan Department of Community Health, utilizing the most current MIDB data available to
343 the Department.

344 (a) The Department shall update the open heart utilization weights every 3 years, beginning with the
345 year 2007, according to the methodology described in subsection (1) above, utilizing the most current
346 MIDB data available to the Department.

347 (b) Updates to the utilization weights made pursuant to this subsection shall not require standard
348 advisory committee action, a public hearing, or submittal of the standard to the legislature and governor in
349 order to become effective.

350 (c) The Department shall notify the Commission when the updates are made and the effective date
351 of the updated utilization weights.

352 (d) The updated open heart utilization weights established pursuant to this subsection shall
353 supercede the weights shown in Appendix B and shall be included as an amended appendix to these
354 standards.

355
356 (4) Each applicant must provide access to verifiable hospital-specific data and documentation using
357 a format established by the Department and in a mutually agreed upon media.

358
359 **Section 10. Planning Areas**

360
361 Sec. 10. Counties assigned to each planning area are as follows:

362
363
364 |

	<u>PLANNING AREA</u>		<u>COUNTIES</u>	
365				
366				
367	1	LIVINGSTON	MONROE	ST. CLAIR
368		MACOMB	OAKLAND	WASHTENAW
369		WAYNE		
370				
371	2	CLINTON	HILLSDALE	JACKSON
372		EATON	INGHAM	LENAWEE
373				
374	3	BARRY	CALHOUN	ST. JOSEPH
375		BERRIEN	CASS	VAN BUREN
376		BRANCH	KALAMAZOO	
377				
378	4	ALLEGAN	MASON	NEWAYGO
379		IONIA	MECOSTA	OCEANA
380		KENT	MONTCALM	OSCEOLA
381		LAKE	MUSKEGON	OTTAWA

Section 11. Effect on prior planning policies; comparative reviews

Sec. 11. (1) These CON Review Standards supersede and replace the CON Review Standards for OHS Services approved by the CON Commission on ~~December 11, 2007~~SEPTEMBER 17, 2013 and effective on ~~February 25, 2008~~NOVEMBER 15, 2015.

(2) Projects reviewed under these standards shall not be subject to comparative review.

**DIAGNOSIS GROUPINGS FOR ADULT OPEN HEART SURGICAL CASES
PRINCIPAL DIAGNOSIS**

ICD-9-CM TO ICD-10-CM CODE TRANSLATION FOR CONGENITAL HEART DISEASE

ICD-9 CODE	DESCRIPTION	ICD-10 CODE	DESCRIPTION
745.0 THROUGH 747.99	CONGENITAL HEART DISEASE	P29.3	PERSISTENT FETAL CIRCULATION
		Q20.0-Q28.9	CONGENITAL MALFORMATIONS OF THE CIRCULATORY SYSTEM

"ICD-9-CM CODE" MEANS THE DISEASE CODES AND NOMENCLATURE FOUND IN THE INTERNATIONAL CLASSIFICATION OF DISEASES - 9TH REVISION - CLINICAL MODIFICATION, PREPARED BY THE COMMISSION ON PROFESSIONAL AND HOSPITAL ACTIVITIES FOR THE U.S. NATIONAL CENTER FOR HEALTH STATISTICS.

"ICD-10-CM CODE" MEANS THE DISEASE CODES AND NOMENCLATURE FOUND IN THE INTERNATIONAL CLASSIFICATION OF DISEASES - 10TH REVISION - CLINICAL MODIFICATION, NATIONAL CENTER FOR HEALTH STATISTICS.

ICD-9-CM TO ICD-10-CM CODE TRANSLATION FOR APPENDIX A

ICD-9 CODE	DESCRIPTION	ICD-10 CODE	DESCRIPTION
394 – 397.9	VALVES	I05.0-I08.9	RHEUMATIC VALVE DISEASES
		I09.0-I09.89	OTHER RHEUMATIC HEART DISEASES
421 – 421.9	VALVES	A01.02	TYPHOID FEVER WITH HEART INVOLVEMENT
		I33.0-I33.9	ACUTE AND SUBACUTE ENDOCARDITIS
		I39	ENDOCARDITIS AND HEART VALVE DISORDERS IN DISEASES CLASSIFIED ELSEWHERE
424 – 424.99	VALVES	A18.84	TUBERCULOSIS OF HEART
		I34.0-I37.9	NONRHEUMATIC VALVE DISORDERS
		I38	ENDOCARDITIS, VALVE UNSPECIFIED
		I39	ENDOCARDITIS AND HEART VALVE DISORDERS IN DISEASES CLASSIFIED ELSEWHERE
		I42.0-I43	CARDIOMYOPATHIES
		M32.11	ENDOCARDITIS IN SYSTEMIC LUPUS ERYTHEMATOSUS
441.01, 441.03	AORTIC ANEURYSM	I71.01, I71.03	DISSECTION OF THORACIC/THORACOABDOMINAL AORTA
441.1, 441.2	AORTIC ANEURYSM	I71.1, I71.2	THORACIC AORTIC ANEURYSM, RUPTURED/WITHOUT RUPTURE
441.6, 441.7	AORTIC ANEURYSM	I71.5, I71.6	THORACOABDOMINAL AORTIC ANEURYSM, RUPTURED/WITHOUT RUPTURE
745 – 747.99	CONGENITAL ANOMALIES	P29.3	PERSISTENT FETAL CIRCULATION
		Q20.0-Q28.9	CONGENITAL MALFORMATIONS OF THE CIRCULATORY SYSTEM
414 – 414.99	OTHER CHRONIC ISCHEMIC	I25.10-I25.9 (EXCLUDING I25.2 OLD MI)	CHRONIC ISCHEMIC HEART DISEASE
410 – 410.99	ACUTE MYOCARDIAL INFARCT	I21.01-I22.9	STEMI AND NSTEMI MI
212.7	ALL OTHER HEART CONDITIONS	D15.1	BENIGN NEOPLASM OF HEART
398 – 398.99	ALL OTHER HEART CONDITIONS	I09.0	RHEUMATIC MYOCARDITIS
