

**MDCH FY14/15 Bi-Annual Narrative Progress Report**

Please use the space provided to reply to the following questions:

- Other than what is already reported as updates to the work plan, what successes and challenges has the program experienced during this reporting period?

Narrative:

- During this reporting period, what methods or instruments did the program use to request input regarding services from people infected and affected with HIV? In this process, what did you learn about your program? How did you use the information gathered to make positive changes to the program? Were there ideas that you would like to implement but did not have the capacity to do? If so, what were they?

Narrative:

- The status of current quality indicators. (data must be reconciled with CAREWare reports)

Narrative:
