Webcast

12:00 Noon - 2:00 PM ET

This webcast will provide up-to-date information on the rapidly changing field of immunization. Anticipated topics include influenza and zoster vaccines, recently approved vaccines, and updates on vaccine supplies and vaccine safety. The 2 hour broadcast will occur from 12:00 noon to 2:00 pm Eastern Time.

Goal

To improve immunization practices in the United States.

Objectives

After this program, participants will be able to:

- List two recent immunization recommendations made by the Advisory Committee on Immunization Practices (ACIP).
- Describe two emerging immunization issues.
- Promote health improvement, wellness, and disease prevention in cooperation with patients, communities, at-risk populations, and other members of an inter-professional team of healthcare providers.

Intended Audience

Physicians, nurses, nurse practitioners, physician assistants, DoD paraprofessionals, pharmacists, health educators & their colleagues who either administer vaccines or set policy for their offices, clinics, communicable disease, or infection control programs. Both private & public healthcare providers, including pediatricians, family practice specialists, residents, medical assistants, and medical and nursing students.
