

Please mark your calendars for a webinar:

“Injection Safety: Preventing Viral Hepatitis Infections”

Thursday, October 17th, 2013

1:00pm – 2:30pm

Purpose:

The Michigan Department of Community Health Viral Hepatitis Unit will be hosting a webinar on preventing healthcare-associated viral hepatitis infections via injection safety. This webinar will provide resources and recommendations for safe injection and assisted blood glucose monitoring practices.

Intended Audience:

Anyone who may prepare or administer injectable medications or utilize diabetes management devices (i.e., provide assisted blood glucose monitoring) or those who train staff on infection control and patient safety are encouraged to attend.

Please share this “Save the Date” notice with your networks of colleagues, including nurses, clinicians and technicians.

To join webinar:

1. [Click Here](http://breeze.mdch.train.org/hepatitisunit) or copy and paste the following link to a browser: <http://breeze.mdch.train.org/hepatitisunit>
2. Enter as Guest

For Audio*:

1. Dial (877) 810-9415
2. Enter Access Code: 1406953

Prior to the event:

To reduce technical difficulties, please test your system prior to the webinar by clicking on this link: http://breeze.mdch.train.org/common/help/en/support/meeting_test.htm

*To hear the audio you must dial in via the phone number above and enter access code.

If you have any questions, please contact Chardé Fisher at FisherC6@michigan.gov or Emily Goerge at GoergeE@michigan.gov.

We look forward to having you join us!
