## **DESCRIPTION OF AGENCY**

The Kent County Health Department (Health Department) is governed under the Public Health Code, Act 368 of 1978. The Health Department is a Special Revenue Fund of Kent County, and the administrative office is located in Grand Rapids, Michigan. The Health Department operates under the legal supervision and control of the Board of Commissioners of Kent County. The Health Department provides community health program services to the residents of Kent County. These services include: Food Service Sanitation, On-Site Sewage, Drinking Water, Vision Screening, Hearing Screening, Immunizations, General Communicable Disease Control, Sexually Transmitted Disease Control, AIDS/HIV Prevention, Children's Special Health Care Services, Breast and Cervical Cancer Control, Maternal and Child Health, Childhood Lead, Medicaid Outreach, Bioterrorism/Emergency Preparedness/Pandemic Flu, and Women Infants and Children (WIC) Supplemental Food Program.

## **FUNDING METHODOLOGY**

The Health Department services are funded from local appropriations, fees and collections, and grant programs. The Michigan Department of Community Health (MDCH) provides the Health Department with grant funding monthly, based on Financial Status Reports, in accordance with the terms and conditions of each grant agreement and budget.

Grant funding from MDCH for the WIC Program is federal funding under federal catalog number 10.557, and is first source funding, subject to performance requirements. That is, reimbursement from MDCH is based upon the understanding that a certain level of performance (measured in caseload established by MDCH) must be met in order to receive full reimbursement of costs (net of program income and other earmarked sources) up to the contracted amount of grant funds prior to any utilization of local funds.

## **PURPOSE AND OBJECTIVES**

The purpose of this audit was to assess the WIC Program internal controls and financial reporting, and to determine the MDCH share of WIC Program costs. The following were the specific objectives of the audit:

1. To assess the Health Department's effectiveness in establishing and implementing internal controls over the WIC Program.
2. To assess the Health Department's effectiveness in reporting their WIC Program financial activity to MDCH in accordance with applicable MDCH requirements and agreements, applicable federal standards, and generally accepted accounting principles.
3. To determine the MDCH share of costs for the WIC Program in accordance with applicable MDCH requirements and agreements, and any balance due to or due from the Health Department.

## SCOPE AND METHODOLOGY

We examined the Health Department's records and activities for the fiscal period October 1, 2008 to September 30, 2009. Our review procedures included the following:

- Reviewed the most recent Kent County Single Audit report for any WIC Program concerns.
- Completed the internal control questionnaire.
- Reconciled the WIC Program Financial Status Report (FSR) to the accounting records.
- Reviewed payroll expenditures.
- Tested a sample of expenditures for program compliance, and policy and approval procedures.
- Reviewed indirect cost and other cost allocations for reasonableness, and an equitable methodology.

Our audit did not include a review of program content or quality of services provided.

## CONCLUSIONS, FINDINGS AND RECOMMENDATIONS
