

# Michigan Department of Community Health At A Glance

**Mission:** The Michigan Department of Community Health (MDCH) will **protect, preserve, and promote** the health and safety of the people of Michigan with particular attention to providing for the needs of vulnerable and under-served populations.

MDCH is one of the largest of the executive branch departments. MDCH is responsible for health policy and management of the state's health, mental health, and substance use care systems. Services provided by the department include:

*Michigan Department  
of Community Health*

Rick Snyder, Governor  
James K. Haveman, Director

## Chief Deputy Director

The Chief Deputy Director is responsible for directing the activities of all employees and programs within the Department, as well as responsible for assisting the Director in the formulation and implementation of policies and programs that are critical to the mission of the Department.

The Chief Deputy Director has direct supervision of the Department's Deputy Directors as well as the Bureau of Legal and Policy Affairs. This includes the day-to-day operations of the Department. This position takes a lead role in the Department's infrastructure development and for assuring appropriate outcomes for Department-wide committees and work groups related to the infrastructure.

## Public Health Administration (PHA)

The Public Health Administration is responsible for many aspects of public health policy, including communicable disease surveillance and outbreak investigation; control and prevention of chronic diseases, including cancer, cardiovascular disease, diabetes, and injuries; health statistics compilation and dissemination; HIV/AIDS and sexually transmitted disease prevention and care; and tobacco cessation, immunizations, lead abatement, newborn screenings, and vital records collection and maintenance. The administration also coordinates this work through contracts with 45 local public health departments that serve all the jurisdictions in Michigan.

The Office of Public Health Preparedness (OPHP), the state's frontline response to bioterrorism activity, coordinates the state's bioterrorism response and all hazards emergency planning with the Michigan State Police and State Emergency Operations Center. This office also coordinates emergency planning with all other state agencies.

The Bureau of Family, Maternal, and Child Health serves Michigan residents with the Women, Infants, and Children (WIC) program, Family and Community Health initiatives, and Children's Special Health Care Services Plan programming.

The Public Health Administration also houses the Bureau of Laboratories, which manages one of the nation's best public health laboratories.

## **Behavioral Health and Developmental Disabilities Administration (BHDDA)**

The public mental health system in Michigan operates under the authority of the Michigan Mental Health Code (MCL 330.1001 et seq.). The Behavioral Health and Developmental Disabilities Administration provides services to people who have a mental illness, developmental disability, or substance use problem. Under contracts with the Michigan Department of Community Health, the direct delivery of almost all publicly funded mental health services is undertaken through a system of 46 county-based Community Mental Health Services Programs (CMHSPs), operating under contracts with the Michigan Department of Community Health. The CMHSPs provide a single point of entry for accessing the full array of mental health services provided by the public system, including 24-hour emergency services.

This administration directly operates five inpatient psychiatric hospitals and centers to supplement the current 59 primary inpatient hospital programs that are part of the CMHSP service network.

The Bureau of Substance Abuse and Addiction Services (BSAAS) administers the state's public substance use disorder network of prevention, treatment, and recovery services. BSAAS provides funds to 16 regional coordinating agencies, which in turn contract with 400 local agencies. Annually, there are 70,000 treatment admissions statewide, and 600,000 people receive primary prevention services statewide. Major sources of revenue include the federal Substance Abuse Prevention and Treatment Block Grant, Medicaid, and state General Funds. In addition, BSAAS administers the problem gambling program, which includes education, prevention and treatment services and a 24-hour help line. Approximately 600 persons statewide receive problem gambling treatment annually.

## **Medical Services Administration (MSA)**

MSA's primary responsibility is oversight of Michigan's Medicaid program. Medicaid provides medical assistance for low-income residents who meet certain eligibility criteria. The program pays for a broad range of services, such as inpatient and outpatient hospital care, physician visits, drugs, nursing home care, durable medical equipment, and mental health services.

The current Medicaid caseload is over 1.7 million people—the highest ever for the program. Approximately two-thirds of Medicaid beneficiaries are enrolled in managed care.

Medicaid comprises more than two-thirds of MDCH's budget. More than half of the Medicaid beneficiaries receiving services are children.

MSA also administers the MICHild program—a comprehensive benefits package for the children of Michigan's eligible working families.

## **Operations Administration**

The Operations Administration is comprised of the Bureau of Budget and Audit, the Office of Accounting, and the Office of Medicaid and Main Support, and is responsible for the overall administration of the department's financial activities.

## **Policy and Planning Administration**

The Policy and Planning Administration is responsible for many components of DCH's health policy and regulatory responsibilities. It is comprised of the Office of Nurse Policy and the Health Planning and Organizational Support Division.

The Health Planning and Organizational Support Division oversees primary care and access to care initiatives as well as program and policy analysis for the Certificate of Need (CON) program. In addition, the Workforce Engagement and Transformation Section plans events, meetings and trainings internally for MDCH employees.

## **Developmental Disabilities Council (DD Council)**

The DD Council is established by Executive Order 2006-12 and operates under the authority of the Developmental Disabilities and Assistance Bill of Rights Act of 2000 (DD Act). The fundamental goal of the DD Council is to ensure that people with developmental disabilities have the opportunities and support to achieve their full potential. The council consists of 21 Michigan residents appointed by the governor. It is funded with federal funds and a 25 percent match, mostly at the local level. The federal grant requires that a minimum of 70 percent of those funds be used for advocacy, capacity building, and systemic change activities on behalf of people with developmental disabilities and their families. The council funds pilot or demonstration project grants in communities around the state to promote systemic change.

The program goals include enhancing self determination, independence, and community inclusion of people with developmental disabilities. The council provides funding and leadership to the statewide regional interagency consumer committees (RICCs), which are the local/community-based advocacy groups empowered to promote local advocacy, community capacity building, and systemic change. This local advocacy assists the council in carrying out its fundamental mandates of the DD Act.

## **Office of Services to the Aging (OSA)**

OSA promotes and enhances the dignity and independence of older persons in Michigan. This office is state government's focal point for issues important to our state's 1.8 million older adults and their caregivers. It allocates and monitors state and federal funds for all Older Americans Act services, including nutrition, community services, a legal hot line, emergency prescriptions, heating assistance, senior education, and care management. The governor appoints the OSA director and members of the Commission on Services to the Aging.

## **Office of Recipient Rights (ORR)**

The Office of Recipient Rights provides direct rights protection and advocacy services to individuals admitted to state psychiatric hospitals and centers for developmental disabilities and assesses and monitors the quality and effectiveness of the rights protection systems in community mental health services programs and licensed private psychiatric hospitals/units.
