

## List of Required MI Health Link Services

Each MI Health Link health plan must offer the same Medicare and Medicaid services. All services are provided based on medical need. MI Health Link health plans can offer additional plan covered services. Services marked with \* are available to enrollees who meet levels of care requirements, so these services are not available to every enrollee.

Hearing aids are not currently covered by Medicaid and are not a required benefit of MI Health Link. Hospice services are excluded from MI Health Link.

Adult Day Program	Dental: Preventive and Comprehensive Exams, cleaning, x-rays, restorations, limited surgical extractions, and partial and full dentures are covered services. Endodontics and crowns are not covered services. Under certain cases, dental services can be provided in the hospital setting if medically necessary.
Ambulatory Surgical Centers	
Anesthesia
