MSA Bulletin 11-04 established the Hospital EHR Incentive Program and outlined the data elements utilized to determine EHR incentive calculations. In response to recent guidance from the Centers for Medicare and Medicaid Services (CMS), the Michigan Department of Community Health (MDCH) has modified the data elements utilized to determine Eligible Hospital (EH) incentive calculations. Effective immediately, MDCH will not include distinct unit psych and rehabilitation days and discharges in the growth rate and Medicaid Share portion of the incentive calculation. Attached is a revised list of data elements utilized to calculate incentive payments.
