1. CALL TO ORDER

Jill Gaus, Division on Deaf, DeafBlind and Hard of Hearing (the Division) Advisory Council Chair, called the meeting to order at 1:09PM and welcomed everyone. Roll call was taken by Director Annie Urasky and five Advisory Council Members were present and there was not a quorum to hold the meeting. Chair Gaus reviewed the Communication Policy and explained the hands-down rule for the interpreters and reminded everyone about protocol for public comments.

2. APPROVAL OF MEETING MINUTES AND AGENDA

Council Member Kobylak requested one correction to the January 2018 meeting minutes.

3. DIRECTOR'S REPORT

Director Urasky reported on the town hall forums to engage with community members and to learn more about current issues in specific areas of the state. Concerns ranged from not receiving individual accommodations, use of video remote interpreting, and lack of understanding on effective communication standards. The Division will be going to northern Michigan to host two town halls, in Escanaba on June 21 and in Traverse City on June 23. To increase awareness of effective communication, the Division will continue to provide trainings/workshops for providers and for community members. The goal is to advocate for successful interactive processes related to individual needs for accommodations and to enhance understanding of effective communication standards.

The Deaf, DeafBlind and Hard of Hearing Census and Needs Assessment project steering team meets regularly to provide recommendations about both the content and distribution of the needs assessment survey. The census portion has been completed and the needs assessment survey recommendations are undergoing a final review process by the project steering team. Once final, next steps include translation of the questions, and preparation for a media campaign before survey launch.

Director Urasky also reported that the Next Generation 911 legislation was signed by Governor Snyder on March 6, 2018. The law will upgrade 911 systems statewide. The Division was invited to participate in a Text to 911 Accessibility Panel at the State 911 Emerging Technology Forum in April 2018 and were also invited to participate in the MIReady Advisory panel to address outreach efforts related to all hazards within the state.

The BPL unit sent two email blasts; first in early February 2018 with information about the BPL unit and in April 2018 with additional information on the BEI Performance exam dates along with a sample copy of the new paper certificate for interpreters.
