SUMMER FOOD SERVICE PROGRAM

**OPERATIONAL MEMORANDUM #3
FISCAL YEAR 2015**

SUBJECT: Food Safety Inspections in the Summer Food Service Program

DATE: May 1, 2015

On October 1, 2012, the Michigan Department of Agriculture and Rural Development (MDARD) adopted a new Food Law and Food Code for the State of Michigan. These requirements apply to all institutions participating in the Summer Food Service Program (SFSP). As a result, the Michigan Department of Education (MDE) clarifies the obligations of SFSP sponsors, as outlined by the United States Department of Agriculture (USDA).

Sponsor Responsibility

- Ensure that in storing, preparing, and serving food, proper sanitation and health standards, which comply with all applicable state and local laws and regulations, are met.
- When contracting with a vendor, require a copy of the vendor's most recent food safety inspection report along with a copy of their State of Michigan food service license. Maintain copies in SFSP administrative files.
- Prior to MDE approval, sponsors must notify the local health department's Environmental Health Sanitarian Supervisor of sites intending to sponsor the SFSP and dates of operation. Upload a copy of this notification to the Michigan Electronic Grants System Plus (MEGS+) application or mail to the MDE's School Nutrition Programs unit. To find the local health department's environmental health sanitarian supervisor, visit www.malph.org/directory.
- Sites located in schools that participate in the National School Lunch Program (NSLP) and/or the School Breakfast Program (SBP) must be in compliance with NSLP and SBP food safety inspection requirements.
- Comply with the Michigan Food Law and the currently adopted Food Code for all sites and relevant facilities in the SFSP.

MDE Responsibility

- Site reviewers will verify that inspection records are kept with administrative files for the SFSP for three years plus the current year.
- In the case of vended meals, MDE site reviewers will verify the SFSP administrative files contain a copy of the vendor's most recent food safety inspection report and copy of the vendor's current State of Michigan food service license.

Local Health Department Responsibility under the Michigan Food Law

- The local health department determines an evaluation schedule for each facility based on Food Law Requirements or a written risk-based inspection schedule (Food Code 8-401.10). In the event that the SFSP vendor or food service management company has received a food safety inspection within the previous 12 months per their Michigan Food License and Food Law criteria, the local health department is encouraged to conduct a second inspection specific to the SFSP but is not obligated under the law to do so. These inspections may be conducted as a courtesy or under a contractual or other similar arrangement.

Under the Michigan Food Law, SFSP vendors or food service management companies are not exempt from paying state and local fees unless the county specifically exempts the facility from fees associated with these activities.
