## Michigan Department of Education Office of Health and Nutrition Services School Nutrition Programs

## Schools Required to use Standard Sample Size For Verification of Household Income School Year 2018-2019 Sponsors Over 20% of Non-Response Rate

The School Food Authorities (SFAs) listed in the table below are required to use *Standard Sampling for Verification of Income for Household Applications for School Year 2018-2019.* This is a more rigorous method of sample selection based on the SFA not meeting the required 80% threshold for households responding to the request for addition income information.

When households do not respond to the verification request, this affects, response rate. If the SFA is aware that some households would be unable to respond to the verification request, up to 5% of the applications selected for verification can be replaced. This decision is made on a case by case basis and must be the same type of application (income based or case number) as the application being replaced.

The directions for using the Standard Sample Size for Verification of Income for Household Application are attached.
