Annual Career Authorization

Michigan Law
Michigan law requires schools to hire and employ properly certified and endorsed educators (MCL 380.1246, 380.1231 and 380.1233). In order to systematically address needed exceptions to law, the Michigan Department of Education (MDE) has established Administrative Rules in accordance with MCL to authorize permits, authorizations and approvals. A school district or nonpublic school shall obtain a substitute permit or Annual Career Authorization to employ an individual or teacher who does not hold the valid and appropriate endorsement or certificate, including an individual employed under MCL 380.1531, 380.1233b, 380.1233c, 380.1531f, 380.1246, and 380.505.

Administrative Rules
In accordance with newly revised law (MCL 380.1233b), the issuance of Annual Career Authorizations (formerly known as Annual CTE Authorizations) can be utilized for employing either of the following non-certified individuals:

1. Individuals from business and industry to instruct in a state-approved Career and Technical Education (CTE) program;
2. Individuals from business and industry to instruct in a 6-12 non-CTE industrial technology program (e.g. career pathway courses).

More information regarding staffing career pathway courses, can be found in the Industrial and Technology Education endorsement section of the Quick Reference: Courses that can be Taught document.

Districts may also use the authorization for paraprofessionals who substitute for the teacher of record in state approved CTE programs. CTE paraprofessionals are noncertified staff assigned to support teachers in state approved CTE programs. For more information refer to the CTE: Substitute Teacher guidance.

Application Requirements
Only the employing district may apply for an Annual Career Authorization through the Michigan Online Educator Certification System (MOECS).

First year issued authorizations must meet the following requirements:
- The individual must possess a high school diploma or GED.
- Confirm a properly certified and endorsed candidate is not available for the assignment.
- The district must verify the applicant’s work experience meets the recent and relevant requirements specified in the CTE: Recent and Relevant Experience Requirements guidance.
For teaching in a subject or field in which a **business or industry license or certification** is required, at least ONE of the following is required:

- Holds a professional license or certification in that same subject matter or field.
- Previously held a business or industry license or certification in that same subject matter or field that expired no more than two years before the non-certificated, non-endorsed teacher's initial employment under this section and was in good standing immediately before the license or certification expired.

- The individual must be assigned a mentor teacher.
- The Annual Career Authorization must be applied for, approved, and the fee paid prior to the individual entering the classroom.

A district may continue employing this individual if they meet all of the following renewal requirements:

- Verify the individual maintains hours of experience in accordance with the CTE: Recent and Relevant Experience Requirements.
- Continue with an assigned mentor teacher.
- Teacher has received a rating of effective or highly effective through his/her teacher evaluations.
- The authorization must be applied for, approved, and the fee paid prior to the individual entering the classroom for each school year.

The school district or nonpublic school may apply no more than nine (9) times for renewal of an Annual Career Authorization, unless the Superintendent of Public Instruction grants a waiver at the request by the school district or nonpublic school.

To become a CTE certified instructor, an instructor will need to work with one of the approved CTE educator preparation institutions to complete requirements and be recommended for a Standard CTE Certificate.
