**ADMINISTRATIVE MEMO NO. 7  
SCHOOL YEAR 2017-2018**

**SUBJECT:** School Food Authority Self-Monitoring for the National School Lunch Program, School Breakfast Program, and Afterschool Snack Program

**DATE:** September 22, 2017

School Food Authority (SFA) Self-Monitoring is completed to ensure child nutrition programs are in compliance with the National School Lunch Program (NSLP), School Breakfast Program (SBP), and Afterschool Snack Program regulations.

National School Lunch Program regulations 7 CFR 210.8(a)(1) require SFAs with more than one building, including Residential Child Care Institutions (RCCIs) with day programs, to conduct an annual Self-Monitoring Review in each building before February 1. In addition, the USDA published the final rule, Administrative Reviews in the School Nutrition Programs effective September 26, 2016. This rule adds a review requirement for the School Breakfast Program (SBP) at 7 CFR Part 220.11 (d)(1). Annually, SFAs are required to complete a Breakfast Self-Monitoring Review at 50% of the schools approved to participate in the SBP. Each school approved to participate must be reviewed at least once every two years.

SFAs with only one school are not required to conduct on-site reviews for their approved school. However, as a best practice, the Michigan Department of Education (MDE) School Nutrition Programs encourages SFAs with only one building to conduct a self-monitoring review.

If the SFA participates in the Afterschool Snack Program, reviews must be completed two times per year [7 CFR 210.9(c)(7)]. The first review must be during the first four weeks that the snack program is in operation. The second review must be conducted during the second half of the school year.

MDE has developed four documents that should be used to conduct self-monitoring reviews.

- SFA Level Self-Monitoring Review (One per SFA)
- School Lunch Program Self-Monitoring Review (One per Site)
- School Breakfast Program Self-Monitoring Review (50% of Breakfast Sites)
- Afterschool Snack Self-Monitoring Review (Two per Site) Administrative Policy No. 7.

NSLP and SBP Self-Monitoring Reviews must assess:

- Application Approval/Direct Certification/Benefit Issuance – SFAs must review all free, reduced-price, and denied applications to ensure they have been accurately certified and students are receiving the correct benefits in compliance with the Eligibility Manual for School Meals.
- Meal Count Systems – Monthly claims for reimbursement must be supported by an accurate counting system for free, reduced-price, and paid meals in each building. Systems that are not allowable include tray counts, attendance counts, and “back out” counts (i.e., dividing cash box total by lunch price to arrive at paid count, and subtracting that number from daily total of meals served to arrive at the free count). Overt identification of students is not permitted. An actual count of meals served at the point of service is acceptable.
- Edit Checks – Daily count of free, reduced-price, and paid meals for each school are checked against: (1) the number of children in school currently eligible for free, reduced-price, and paid meals, and (2) the number of attendance adjusted eligible.

The annual SFA Self-Monitoring Reviews must include a review of the claim forms for one month. The claims for the review month must be checked for the following:

- Meals claimed by category (free, reduced-price, and paid) that exceed the number of approved free, reduced-price, and paid eligible students.
- Any day during the review month that the number of meals claimed by category (free, reduced-price, and paid) exceeds the number of attendance adjusted eligible.
- Evaluation, explanation, and documentation of any days during the review period that exceed attendance adjusted eligible or total number of eligible students (free, reduced-price, and paid).
- Records of accurately totaled daily meal counts.
- Internal controls for monitoring and edit checks to ensure claims for reimbursement are based on accurate daily meal count consolidation for all schools.
- Meal Planning/Food Production
  - Menus and meals served must be checked at each site for availability of all meal components, offer versus serve, and required portion sizes.
  - Signage that identifies components that make up a reimbursable meal is located near or at the beginning of the meal service lines for both breakfast and lunch.
  - Free potable water is available to all students for lunch in each location where lunches are served, and for breakfast when breakfast is served in the cafeteria. The location of the free potable water must be in the meal service area or immediately adjacent to the meal service area.
- Food Safety Practices
  - The most recent food safety inspection report is posted in a publicly visible location.
  - Temperature logs are being used and available for review.
  - A copy of the SFA food safety plan is available at each meal service site. Administrative Policy No. 7.

- Compliance with Civil Rights requirements
  - The “And Justice for All” poster is posted in a prominent location and visible to all program participants.

More information is available at the Michigan Department of Education School Nutrition Programs website<sup>i</sup> and the United States Department of Agriculture Food and Nutrition school-meals/child-nutrition programs website.<sup>ii</sup>

Afterschool Snack Program SFA Self-Monitoring Review must assess

- Area Eligibility Meal Count System – A site is “area eligible” if it is located at a school or in the attendance area of a school where at least 50% of enrolled children are eligible for free or reduced-price meals. The site must record and report total number of snacks served each day.
- Non-Area Eligibility Meal Count System - Monthly claim for reimbursement must be supported by an accurate counting system that provides an accurate count of free, reduced-price, and paid snacks.
- General Operations - Eligible programs must include education or enrichment activities in organized, structured, and supervised environments. Program must operate at the end of the normal school day.
- Meal Patterns/Food Production - Menus and meals served must be checked at each site for availability of all meal components and required portion sizes.
- Compliance with Civil Rights requirements:
  - The “And Justice for All” poster is posted in a prominent location and visible to all program participants.

Review findings discovered during the SFA Self-Monitoring Review for National School Lunch, School Breakfast, and/or Afterschool Snack Programs must be discussed with the person overseeing meal service at the school building. A corrective action plan must be developed and implemented for the school building by the SFA.

Any building requiring corrective action must have a SFA Self-Monitoring Follow-up Review within 45 calendar days of the initial review. The SFA must identify and document that all finding(s) has/have been corrected.

All SFA Self-Monitoring Review forms must be maintained by the SFA. Forms will be reviewed as part of the Administrative Review. United States Department of Agriculture (USDA) regulations require SFAs to retain all records for three years plus the current year or until a pending audit is closed.

Food Service Management Company (FSMC) personnel *may not* perform SFA Self-Monitoring Reviews. Only SFA employees may perform SFA Self-Monitoring Reviews.

Questions regarding this Administrative Policy should be directed to the School Nutrition Programs Unit by e-mail to MDE-SchoolNutrition@michigan.gov.
