

Data on Risk Behaviors, HIV, other STDs, Teen Pregnancy and Births

Schools and communities have asked how to obtain the latest Michigan data pertaining to sexual risk behaviors and health outcomes such as HIV, other STDs, teen pregnancy and births. The Michigan Departments of Education and Community Health have statistics that can be used for program planning, implementation, evaluation, and grant writing on their websites. Below is quick information about how to access that data.

■ ■ Youth Risk Behavior Survey (YRBS)

www.michigan.gov/yrbs

Michigan data on unintentional injury and violence, tobacco use, alcohol and other drug use, sexual behaviors that contribute to unintended pregnancy or disease, dietary behaviors, and physical inactivity for Michigan students in grades 9-12.
