

MICHIGAN
STATE BOARD OF EDUCATION

RESOLUTION

**Support for Investment and Reforms
in Michigan Schools**

Whereas, the State Board of Education is charged under Michigan's Constitution with general supervision of public education and the financial requirements thereof; and

WHEREAS, the State Board of Education is further persuaded that Michigan's economic strength and vitality is a direct function of affording a high quality education to all citizens present and future; now, therefore be it

RESOLVED that, given the state of Michigan's current economic and fiscal situation, the State Board of Education endorses proposals that:

- enhance the state's revenue base in line with the changing nature of the Michigan and national economy;
- pursue needed reforms, efficiencies, consolidations and changes to the structure of education program delivery to make it more effective and efficient;
- provide a stable and strong base of funding necessary for the investments in Michigan's people that can make them and the state competitive in today's economy.

Adopted February 13, 2007
