

MICHIGAN'S VISION

Every learner in Michigan's public schools will have an inspiring, engaging, and caring learning environment that fosters creative and critical thinkers who believe in their ability to positively influence Michigan and the world beyond.

MICHIGAN'S MISSION

VALUES/GUIDING PRINCIPLES

In order for Michigan to become a Top 10 education state within 10 years:

- Michigan must develop a coherent and cohesive strategy for the children, and implement that plan with continuity for multiple years. Education reform takes time; we must implement, use evidence and data to correct course, and continue with progress on key goals.
- A "Can-Do Culture" that focuses on student-directed learning and student outcomes and the work on instruction must take priority.
- Data and accountability must be used to help drive resources and focus improvement activities for students and educators. Attention will be on transparency in support of key goals for the entire system to make Michigan a Top 10 state for education.
- Poverty matters, not to be used as an excuse, but as a purpose to design a Michigan system of education that motivates and excites all children about learning, keeps them in school, and provides them with hope and knowledge for a successful future. Michigan must design its supports and systems in a way that recognizes and appropriately addresses the needs of students in poverty.

TOP 10 IN 10 GOALS

Michigan's Strategic Plan for becoming a Top 10 education state in 10 years contains the following seven goals:

- 1** Provide every child access to an aligned, high-quality P-20 system from early childhood to post-secondary attainment - through a multi-stakeholder collaboration with business and industry, labor, and higher education - to maximize lifetime learning and success.
- 2** Implement, with strong district and building leadership, high-quality instruction in every classroom through a highly coherent, child-centered instructional model where students meet their self-determined academic and personal goals to their highest potential.
- 3** Develop, support, and sustain a high-quality, prepared, and collaborative education workforce.
- 4** Reduce the impact of high-risk factors, including poverty, and provide equitable resources to meet the needs of all students to ensure that they have access to quality educational opportunities.
- 5** Ensure that parents/guardians are engaged and supported partners in their child's education.
- 6** Create a strong alignment and partnership with job providers, community colleges, and higher education to assure a prepared and quality future workforce, and informed and responsible citizens.
- 7** Further develop an innovative and cohesive state education agency that supports an aligned, coherent education system at all levels (state, ISD, district, and school).
