

MiLearn

MICHIGAN LINKED EDUCATIONAL
ASSESSMENT REPORTING NETWORK

MiLearn is a free service provided by the Michigan Department of Education to local school districts that allows parents and students to view state assessment results electronically. Parents can directly access their child's assessment reports online through their school's Student Information System – the same system they use to view grades, classroom assignments, and pay for hot lunch.

If your school uses one of the following Student Information Systems then ask your principal about MiLearn:

- PowerSchool
- Skyward®
- MISTAR
- Synergy®
- Coming soon! Infinite Campus

Direct online access to state
assessment results for:
