

MARCH PAYMENT INFORMATION

The March state school aid payment is the sixth regular payment of the 2017 fiscal year. The payment will be electronically transmitted to the districts' accounts on Monday, March 20, 2017.

Taxable value figures used in the calculation of the Section 20 and Section 22a state per pupil amounts are the initial tax year 2016 figures provided by the county treasurers via the web based reporting system. These data can be viewed by school district personnel on the Department's website. The [URL](https://mdoe.state.mi.us/taxablevalue) is <https://mdoe.state.mi.us/taxablevalue>. To view your data, click on "Public Access" and then choose your district code and the applicable tax year from the drop down menu. **Questions concerning the taxable value figures should first be directed to the appropriate county treasurer.**

Pupil Membership – October 2016 pupil count data (audited for most districts) and audited February 2016 counts were used in the calculation of the blended membership count for the March payment used to calculate **Section 20 Foundation** allowances.

LABOR DAY START WAIVERS

Pursuant to Section 1284b of the Revised School Code (MCL 380.1284b), public schools in the state of Michigan are barred from starting school before Labor Day (the first Monday in September). Exceptions are granted for schools or programs that are bona fide year-round schools or programs established for educational reasons. Bona fide year-round schools or programs may apply for a waiver from this requirement. According to the statute, the Superintendent of Public Instruction shall establish standards for determining a bona fide year-round school or program and shall grant the waiver to those schools or programs that meet the standards established by the Superintendent of Public Instruction.

Currently, the Department has the following standards for determining a bona fide year-round school or program.

- A school or program that operates according to a school calendar that includes a summer break no greater than six weeks in length.
- A school or program that operates on the same calendar as a college or university and is affiliated with the college or university through a program such as a middle college (schools that simply have dually enrolled pupils do not qualify under this standard).
- A persistently low achieving school that has selected an intervention model that requires increased learning time as a condition of reform.

Other applications will be considered if they include such things as the goals and objectives of the school/program, the measures that will be considered to gauge the success of meeting the goals/objectives, and an explanation of how the waiver will assist in efforts to mitigate summer learning loss. FY 2016 SCHOOL AID SHORT TERM ADJUSTMENTS

The Department has nearly completed its review of the 2015-2016 Days and Hours of Instruction Reports. As a result, some districts will be receiving school aid adjustments for that year based on not meeting the required number of days or hours of instruction. Districts will be notified of the pending adjustments by April 30, 2017. The adjustments will be processed in the April payment. They will appear on the April State Aid Financial Status Report in the "Prior Year Adjustment" section on a line labeled "2016 Short Term." If you have any questions or concerns related to these adjustments, please contact Brian Ciloski, 517-373-3352, or CiloskiB@Michigan.gov.

SECTION 64b DUAL ENROLLMENT INCENTIVE FUNDS

Incentive payments for supporting postsecondary opportunities for students remain available in 2016-17. A maximum of \$60 per course can be claimed by coding eligible courses as "10" in the TSDL collection upon completion of a course (a separate submission of an Excel form is no longer required to claim these incentives). Incentive payments will be included in districts' state school aid payments following claim processing and course verification.
