

Target Analysis Report Handout

1. What do these symbols on the Target Analysis report mean?

2. The Target Analysis report is not a proficiency report. Describe what data is provided in the Target Analysis report.

3. What is an Aggregate Report?

4. Considerations for the use of data for your identified aggregate group:

Which targets are relative strengths for your aggregate group?

What targets are relative weaknesses for your aggregate group?

What are the components of these targets that should be addressed?

How can your school or district address the identified weaknesses to build achievement for all students?
