Assessment Integrity Guide

The image shows the cover of the 'Assessment Integrity Guide' for the 2020-21 school year. The cover features a green header with the title 'Assessment Integrity Guide' and the Michigan Department of Education logo. Below the title, it lists the 'MICHIGAN DEPARTMENT OF EDUCATION OFFICE OF EDUCATIONAL ASSESSMENT AND ACCOUNTABILITY' and 'Michigan Standards for Professional and Ethical Conduct in Test Administration and Reporting'. The year '2020-21' is prominently displayed in large white text on a blue background. To the left of the cover, three blue arrows point towards the table of contents. The table of contents is a detailed list of sections and their corresponding page numbers, including 'Introduction', 'Section 1 - Prevention of Testing Irregularities', 'Section 2 - Detection of Irregularities', and various appendices.

Required Test Security and Test Administration Training

All staff must be trained in test administration and test security practices.

Assessment Security Training Requirements:

Annual security training is a requirement for individuals who will take part in the administration of state assessments; these include ACT WorkKeys, Early Literacy and Mathematics Benchmark, MI-Access, M-STEP, PSAT 8/9, PSAT 10, SAT with Essay, WIDAACCESS for ELLs, and WIDA Alternate ACCESS for ELLs.

- **District and Building Assessment Coordinators:** Read the [Assessment Integrity Guide \(AIG\)](#) and take the Assessment Security Training course (or the Refresher Course) through the [Michigan Virtual \(MV\) Professional Learning Portal \(https://plp.mivu.org/\)](https://plp.mivu.org/).
- **Test Administrators and Proctors:** Take the [Assessment Security Training course](#) (or the Refresher Course) and/or read the AIG.

The Michigan Department of Education (MDE) recommends that District and Building Coordinators determine which training method is best for their testing staffs, and that the coordinators assume responsibility for ensuring that the training is delivered. This is not a new requirement, just a new way to meet the existing requirement.
- **Technology Coordinators and Other Staff (anyone who handles or has access to secure materials):** Read "Keeping Assessment Materials Secure" in [Appendix E](#) of the AIG. The previous requirement was to read "the relevant sections" of the AIG. MDE has collected those sections into this one-page document.

ASSESSMENT SECURITY TRAINING

This four-module training series can be used to train building staff on the importance of test security. By participating in this training staff will:

- review the importance of test security during all phases of test administration,
- know how to properly prepare for test administration, and
- understand what to do if something doesn't go as planned.

Each module is designed to be completed in 10-15 minutes. Learners who complete all four modules and demonstrate their knowledge on a short test will be able to print a Certificate of Completion at the end of the training. After successful completion of this training, the refresher course is available for training in subsequent years. See the module descriptions below.

Module 1: An Introduction to Test Security and Planning
This module covers why test security is important and discusses how staff can plan for testing.

Module 2: Getting Ready for Testing
This module covers steps to take before testing, such as staff training and preparing the testing environment. These steps will help you avoid common security problems.

Module 3: Test Administration
This module covers security concerns and considerations during testing. Certain practices used during testing can help to avoid or minimize problems.

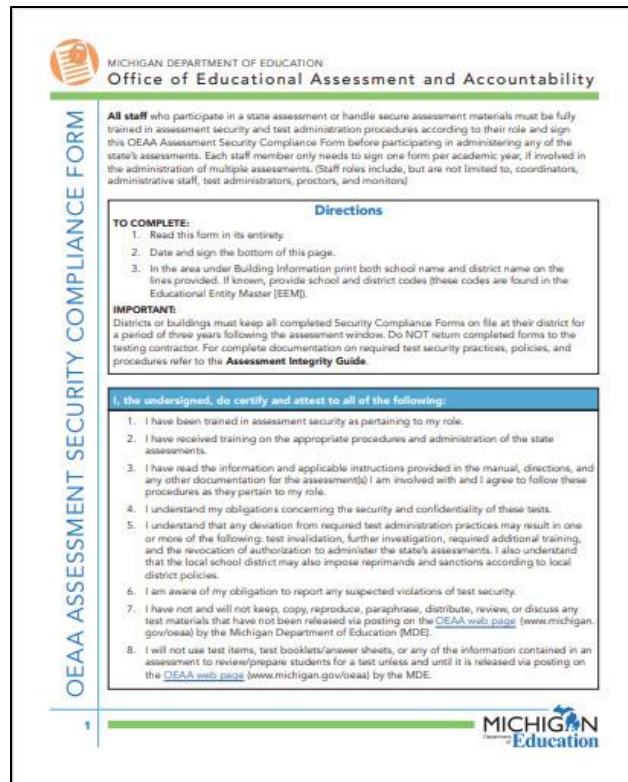

Module 4: Incident Response
This module covers what to do if something goes wrong. Most problems can be prevented with preparation and monitoring and most can be mitigated with a quick and careful response.
This course is available free of charge through Michigan Virtual's Professional Learning Portal. Select the link below to register.

TEST ADMINISTRATION | SEQUENCE AND TIMING OF THE TESTS

Sequence and Timing of the Tests

Sequence of Tests
The tests must be administered in the order listed: Test 1—*Writing* Documents (first), Test 2—*Applied Math* (second), Test 3—*Graphic Literacy* (third) if this order is altered, tests will not be scored.

Start Time
Verbal instructions may begin as soon as all examinees have been identified and seated. It is recommended that the verbal instructions start no later than 9:00 a.m. in all rooms to ensure adequate testing time.

Late Start—Standard Time
If you are able to begin the standard time test administration before 10:30 a.m., you may test as planned.

- Do not alter the sequence or timing of tests.
- Administer all breaks as outlined in the verbal instructions.
 - Do not shorten or skip any breaks to make up for the late start.
 - Do not lengthen the 15-minute break after Test 2 to accommodate lunch service.
- Submit an Irregularity Report that includes the reason for the late start.

If you will not be able to complete the tests in accordance with the outlined timing and break requirements, do not begin testing. Instead, follow the If You Did Not Test procedures. These are found in the Test Coordinator Information Manual.

Time Allowed for Each Test
Each test has a set time allowance based on the timing guidelines it is being administered under. The times specified in the verbal instructions for each test must be followed exactly as stated.

Timing the Tests
Each room supervisor is responsible for timing the tests in his or her own room. Timing or reading the verbal instructions is not to be controlled from a central location for multiple rooms (for example, using bells, a PA system, or loudspeakers). Each room supervisor must be able to react to any problems or questions that occur in a particular room and adjust timing if necessary. This procedure also minimizes the effects of any mistimings.

For standard time administrations, the full time for each test must be given, regardless of the number of examinees in the room. Take extreme care to ensure the exact time is allowed for each test.

Off-site Testing

Off-site Test Administration Requests

ACT WorkKeys, MI-Access, M-STEP, and WIDA requests must be submitted through the OEAA Secure Site.

PSAT 8/9 & 10 and SAT with Essay must be submitted through the College Board.

Material Security

All materials must be inventoried upon receipt and kept in a secure, limited access, location.

Role of Assessment Coordinator During Testing

Monitoring Test Administration

The test coordinator should monitor all active test sessions to ensure procedures are being followed according to the TAM. The test administrator should monitor all testers.

Supporting Staff

Be sure to have a plan in place to allow for staff breaks, student emergencies, and hall monitoring.

Purpose of this form: This form is used by room supervisors to report any irregularities that occur in their test rooms on test day.
Instructions for the test coordinator: If you receive an Irregularity Report from a room supervisor, ensure that the appropriate procedures for reporting the irregularity were followed. Check the form for completeness; be sure that voided answer documents, if applicable, are attached; for group irregularities, be sure that a list or roster of examinees in that room is attached. Make a copy of the completed forms for your records and return the originals to ACT.
Instructions for room supervisors: If an irregularity occurs in your test room, complete all appropriate fields on this form and return the completed form to the test coordinator.

All materials must remain secure during distribution, use, and return.

District and Building Coordinators should continue to monitor test administrators and students to ensure that all materials were returned.

Ensure all materials are kept securely stored until returned to vendors. Districts/schools are responsible for returning all materials. Each assessment has specific requirements on how materials are to be boxed and returned. Reference the test coordinator manuals for more information.
