Hello Colleagues,

An important role of the Family Center is to provide support, information, and connections to educational opportunities and community resources available to families who are navigating systems of care and services for their children and youth with special needs. The Parent Consultants will participate in meetings, site visits, conferences, and community forums, as well as plan, develop, and conduct trainings, including training materials, for CSHCS staff, families, local health departments, Managed Health Plans, health providers, systems, and practices, on family-centered care, family perspectives, family/professional partnerships, and other topics as needed.

Please join me in welcoming Lenn and Amanda to their new roles!
