

State of Michigan
Schedule of Annual Reporting Requirements (Table)
For the Medicaid State Plan Year Ending September 30, 2016

Definition of Uncompensated Care: The definition of uncompensated care was based on guidance published by CMS in the 73 Fed. Reg. 77904 dated December 19, 2008, the 79 Fed. Reg. 71679 dated December 3, 2014, and the withdrawal of FAQs 33 and 34 by CMS on December 31, 2018. The calculated uncompensated care costs (UCC) represent the net uncompensated costs of providing inpatient and outpatient hospital services to Medicaid eligible individuals and individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The UCC for these patient groups was calculated using Medicare cost reporting methods, and utilized the most recent CMS 2552 cost report, Medicaid paid claims summaries, and hospital-provided data. Total UCC represents the net uncompensated care costs of providing inpatient and outpatient hospital services to patients that fall into one of the following Medicaid in-state and out-of-state payment categories: Fee-for-Service Medicaid primary, Fee-for-Service cross-over, Managed Care Medicaid primary, Managed Care Medicaid cross-over, and uninsured individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The cost categories for each of these payment categories was calculated using the appropriate per diem or cost-to-charge ratios from each hospital's most recent CMS 2552 cost report. These costs were then reduced by the total payments received for the services provided except for Medicare and private insurance payments, including any supplemental Medicaid payments and Section 1011 payments where applicable.

State of Michigan
Schedule of Annual Reporting Requirements (Table)
For the Medicaid State Plan Year Ending September 30, 2016

Definition of Uncompensated Care: The definition of uncompensated care was based on guidance published by CMS in the 73 Fed. Reg. 77904 dated December 19, 2008, the 79 Fed. Reg. 71679 dated December 3, 2014, and the amendments of FAQs 33 and 34 by CMS on December 31, 2018. The calculated uncompensated care costs (UCC) represent the net uncompensated costs of providing inpatient and outpatient hospital services to Medicaid eligible individuals and individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The UCC for these patient groups was calculated using Medicare cost reporting methods, and utilized the most recent CMS 2552 cost report, Medicaid paid claims summaries, and hospital-provided data. Total UCC represents the net uncompensated care costs of providing inpatient and outpatient hospital services to patients that fall into one of the following Medicaid in-state and out-of-state payment categories: Fee-for-Service Medicaid primary, Fee-for-Service cross-over, Managed Care Medicaid primary, Managed Care Medicaid cross-over, and uninsured individuals with no source of third party coverage for the inpatient and outpatient hospital services received. The cost categories for each of these payment categories calculated using the appropriate per diem or cost-to-charge ratios from each hospital's most recent CMS 2552 cost report. These costs were then reduced by the total payments received for the services provided except for Medicare and private insurance payments, including any supplemental Medicaid payments and Section 1011 payments where applicable.
