

Belmont/Rockford Area Community Member Quotes about MiPEHS

MiPEHS is **vital** to help not only our community, but the entire country to have information about how this class of chemicals affects human health and development. It is a **positive** event that can be found in what has been a difficult experience for many.

- Sandy, resident of Belmont

This study can help us **understand** health impacts that can assist our medical providers. It can also serve to **reduce fears**, and often fear is a result of not having information.

- Sandy, resident of Belmont

I'm hoping that this study can help us get **more information** about the long-term effects of this contamination on us, and how different amounts, duration of exposure and types of chemicals affect us.

- Sandy, resident of Belmont

One outcome of this study could be to learn more about this class of chemicals so that future generations understand potential health risk and develop better ways to use and manage these chemicals. **This is a huge win for all of us.**

- Sandy, resident of Belmont
