

**Standardized EMS
Continuing Education
Credits Guidebook
Effective April 13, 2020**

Executive Summary

Purpose

The purpose of this standardized guidebook is to identify approved continuing education credits for a wide variety of certification courses completed by EMS providers during their licensure period.

Changes

The following certification courses were added to this guidebook in 2020:

- Fire Officer 1: Certificate provided by MFFTC
- Highway Safety for Emergency Services: Certificate provided by VFIS
- National Child Passenger Safety Course: Certificate provided by NHTSA & NCPSB

The following courses were removed from this guidebook:

- Advanced HazMat: Michigan State Police no longer offers this course
- CBRNE/WMD Defense Operations: Michigan State Police no longer offers this course
- CBRNE/WMD Defense for Health Care Train the Trainer: Michigan State Police no longer offers this course
- CBRNE Technician Technical Response Training: Michigan State Police no longer offers this course
- BLS and HazMat Responder: Michigan State Police no longer offers this course
- HazMat for EMT Part 1 and Part 2: Michigan State Police no longer offers this course
- MUSAR Training: Michigan State Police no longer offers this course
- Unified Incident Command: Michigan State Police no longer offers this course
- Safe Delivery of Newborns: MDHHS no longer offers this course

Conclusion

This standardized guidebook is reviewed for current content and is updated frequently. A certificate of completion must be obtained from the approved vendor to qualify for these continuing education credits. To qualify for standardized credits, please see page 3 of this guidebook.

Instructor/Coordinator Guide to Standardized Continuing Education Credits

Each of the following standardized courses have been pre-approved by MDHHS-BETP for EMS continuing education credits. Instructor/Coordinators do not need to complete a Notification of Intent to Conduct Continuing Education Program Form for the courses listed in this guidebook.

To be included in this guidebook, a program must be presented frequently in Michigan, be presented consistently every time from a published curriculum and have a state or national organization which sponsors it, provides oversight, and issues a standardized certificate or card.

If audited for continuing education credits at the time of license renewal, EMS providers must submit to MDHHS-BETP a copy of the course certificate, card, or other attendance documentation which includes course date and instructor signature.

Any courses completed at the Center for Domestic Preparedness can be reviewed by the EMS Education Coordinator for conversion to MI CEs with submission of the FEMA Certificate.
