Fall specific information – Health Care Statistics > Leading Hospitalizations > Injuries > Accidents > Accidental Falls. Sort by county under 'View Detailed Community Data'.

Rural Health Information Hub: On the home page is a tool '*Am I Rural?'* which allows you to locate an area on a map or enter an address. It will generate a report that addresses program/grant eligibility, health professional shortage areas, and medically underserved areas/populations. Also contains an online library, maps, other resources.

PROGRAM READINESS ASSESSMENT

The National Rural Health Resource Center has posted the Health Resources and Service Administration (HRSA) Community Paramedicine Evaluation Tool. This is the most recent version (2012) but please monitor the site for updates. This tool is useful for initiating new programs and evaluating existing programs.
