Dear LHD Partners,

Colleagues from the Michigan Department of Education are asking for feedback. State CSHCS staff recommend you discuss the resources with families and encourage them to provide feedback.

Here is the link to the most current information from MDE and Memo's pertaining to the Covid-19 pandemic: <u>MDE COVID-19 Education Information and Resources</u>. MDE has created a document to capture concerns and recommendations (see below):

## GIVE US YOUR FEEDBACK

The OSE would like to hear from you regarding COVID-19 related topics ISDs, districts, parents, and students are facing and experiencing out in the field. The best way to stay ahead of potential issues is to stay informed of the topics, which is why we are asking stakeholders to ask clarifying questions about existing COVID-19 related guidance and to provide suggestions for new topics for which you'd like to receive guidance about.

If you have questions about the current guidance or suggestions for future updates to the guidance, please complete our feedback form:

Ask the MDE Office of Special Education

Best,

Craig Boyce
