

Family Center for Children and Youth with Special Health Care Needs

Parent Connect Call

Conversations with parents of children with special needs!

Please join us as Marcia Franks from Children's Special Health Care Services discusses Telehealth!

With the closing of clinics and eliminating home visits, providers are using telehealth to help children with special needs access therapeutic and developmental services - and give their families some comfort. During this call, Marcia Franks from Children's Special Health Care Services will explain the importance of telehealth, offer guidance and open up to a Q & A.
