On Monday, June 24th the following DMP enhancements will be deployed to production:

1. Additional Characters for Messaging: Users will now be able to send messages with a maximum of 1,000 characters- including spaces. Message capacity was previously 250 characters.
2. Archived Messages:

Users will now be able to search through messages that they have archived in the Messages tab. Selecting the Archived Messages button will display your archived messages.

3. Beneficiary Date of Birth and County Code Fields in Message screen: Both the County Code and Beneficiary Date of Birth fields will show in the User Message screen when a message is open.
