

3

OBJECTIVE THREE

By 2030, reduce the percent of **breast cancer** diagnosed at a **late stage**.

Data Target

Reduce late stage diagnoses from 25.9% to **22.4%**.

Strategies

- Address barriers to screening (e.g., transportation, mobile screening units).
- Increase patient education platforms (i.e., social media).
- Utilize current USPSTF guidelines and other nationally recognized guidelines.
- Use Quality Improvement to analyze and improve current screening policies and procedures.
