

**PIHP/CMHSP ENCOUNTER REPORTING
HCPCS and REVENUE CODES**

This document now includes an appendix which details the decisions of the FY16 efforts of the Encounter Reporting and Financial Work Group, which is a subgroup of EDIT. The Appendix provides detailed guidance on reporting and costing for the following services:

- Community Living Support (H2016) and Personal Care (T1020)
- Community Living Support in an Unlicensed In-Home Setting (H2015)
- Community Living Support for Daytime Activity (H2015)
- Crisis Intervention (H2011) and Pre-Admission Screening (T1023)
- Psychiatric Inpatient in a Local Hospital
- Transportation for Day-Time Activity

The appendix also includes a section on reporting rules for *services that occur at the same time*.

**PIHP/CMHSP ENCOUNTER REPORTING
HCPCS and REVENUE CODES**

GENERAL RULES FOR REPORTING

1a. Rounding rules for HCPCS reporting:

“Up to 15 Minutes”	15 Minutes	30 Minutes	45 Minutes	60 Minutes
1-15 = 1 unit	1-14 minutes= 0*	0-29 minutes = 0*	0-44 minutes = 0*	1-59 minutes = 0*
16-30 = 2 units	15-29 = 1 unit	30-59 = 1 unit	45-89 = 1 unit	60-119 = 1 unit
31-45 = 3 units	30-44 = 2 units	60-89 = 2 units	90-134 = 2 units	120-179 = 2 units
46-60 = 4 units	45-59 = 3 units		135-179 = 3 units	180-239 = 3 units
61-75 = 5 units	60-74 = 4 units			240-299 = 4 units
76-90 = 6 units	75-89 = 5 units			300-359 = 5 units
91-105 = 7 units	90-104 = 6 units			360-419 = 6 units
106-120 = 8 units	105-119 = 7 units			420-479 = 7 units
	120-134 = 8 units			480-539 = 8 units

* Do not report if units equal zero.

1b. Rounding rules for CPT reporting:

Currently CPT Codes use mid-point rounding rules. If the code unit is for the “first hour” of service, then you must provide and document at least 31 minutes of services. Likewise, if the unit of service is 15 minutes then you must provide and document at least 8 minutes of service. Below is an example table for the 15-minute and 60-minute codes and how they would be counted when the rounding rule is applied. *Please refer to the AMA CPT Code book for additional information on the reporting of a timed service.*

15-minute Codes		60-Minute Codes	
Units	Time	Units	Time
0	0-7 minutes	0	0-30 minutes
1	8-22 minutes	1	31-60 minutes
2	23-37 minutes	2	91-120 minutes
3	38-52 minutes	3	151-180 minutes
4	53-67 minutes	4	211-240 minutes

1. Select the service (see CPT code descriptions).
2. Report a timed service based on face-to-face time on each date of service.
3. The CPT rule states that a unit of time is attained when the mid-point is passed.

Effective 10/1/2020 – revised July 19, 2021– E&M Code Changes effective 1/1/21

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements,
PIHP/CMHSP Reporting Cost Per Code and Code Chart

PIHP/CMHSP ENCOUNTER REPORTING HCPCS and REVENUE CODES

2. Encounters and contacts (face-to-face) that are interrupted during the day: report one encounter; encounters and contacts for evaluations, assessments and Behavior Management committee that are interrupted and span more than one day: report one encounter or contact

3. Face-to-face

All procedures are face-to-face with consumer, except ABA Family Behavior Treatment Guidance, Adaptive Equipment, Behavior Treatment Plan Review, Environmental Modifications, Fiscal Intermediary, Goods and Services, Housing Assistance and Substance Use Disorder Case Management (H0006). Family Training, Family Psycho-Education, and Family Therapy must be face-to-face with a family member. Prevention (Direct Models), Home-based, and Wraparound must be face-to-face with consumer or family member.

4. Modifiers:

95: ACT telepractice for psychiatric services only, effective 1/1/2018 per Jeffery Wiefelich memorandum; Pre Admission Screening (T1023) and Assessment by non-physician (H0031) both effective 10/1/2018 per Jeffery Wiefelich memorandum; additionally, post COVID for use in services in BHDDA telemedicine database. Note: Modifier 95 will be removed after the COVID-19 pandemic is deemed over. See additional details/instructions in the Telemedicine portion below starting on page 8.

AH: Clinical Psychologist provider (must be used for ABA services when a clinical psychologist provides the service)

AJ: Clinical Social Worker provider (must be used for ABA services when a clinical social worker provides the service)

AM: Family psycho-education provided as part of ACT activities

GN: Services delivered under an outpatient speech language pathology plan of care

GO: Services delivered under an outpatient occupational therapy plan of care

GP: Services delivered under an outpatient physical therapy plan of care

~~GT: Telemedicine was provided via video-conferencing face to face with the beneficiary. Place of Service = 02~~

~~—For ABA telepractice only for 0368T, 0369T, and 0370T pre-authorized by MDHHS. Note: Modifier GT will be removed after the COVID-19 pandemic is deemed over. See additional details/instructions in the Telemedicine portion below starting on page 8.~~

H9: Assisted Outpatient Treatment (AOT)

HA: Parent Management Training Oregon model with Home-based, Family Training, and Mental Health therapies (Evidence Based Practice only)

HA: Child – Adolescent Program (services designed for persons under the age of 18)

HA HV: Individuals receiving one of the MYTIE EBP 16-17 years of age

HB: Adult Program – Non-Geriatric (services designed for persons age 18-64)

HB HV: Individuals receiving one of the MYTIE EBP 18-21 years of age

HC: Geriatric Program (services designed for adults age 65 and older)

HD: Substance Use Disorder: Women’s Specialty Services – pregnant/parenting women program (services provided in a program that treats pregnant women or women with dependent children)

Effective 10/1/2020 – revised July 19, 2021– E&M Code Changes effective 1/1/21

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements,
PIHP/CMHSP Reporting Cost Per Code and Code Chart

PIHP/CMHSP ENCOUNTER REPORTING HCPCS and REVENUE CODES

HE*: Certified Peer Specialist provided or assisted with a covered service such as (but not limited to) ACT, CLS, skill-building, and supported employment

HF: With HCPCS or CPT code for any Substance Use Disorder Treatment service that has the same code as a Mental Health services

HG: Substance Use Disorder: Opioid Addiction Treatment Program

HH: Integrated service provided to an individual with co-occurring disorder (MH/SA) (See 2/16/07 Barrie/Allen memo for further instructions)

HH TG: SAMHSA-approved Evidence Based Practice for Co-occurring Disorders: Integrated Dual Disorder Treatment is provided.

HI*: Peer Mentor provided or assisted with a covered service such as (but not limited to) CLS, skill-building and supported employment

HM: With Family Training (S5111) when provided by a trained parent using the MDHHS endorsed curriculum

HJ: Substance Use Disorder: Employee Assistance Program

HK: Beneficiary is HSW enrolled and is receiving an HSW covered service

HN: Bachelor's degree level provider (For ABA services, only use modifier to identify a BCaBA professional) No modifier for aide-level/behavior technician (BT) providing ABA, even if a BT has a degree(s)

HO: Master's degree level provider (For ABA services, use modifier to identify a BCBA or other qualified ABA supervising professional)

HP: Doctoral degree level provider (For ABA services, use modifier to identify a BCBA-D or other qualified ABA supervising professional)

HQ: Substance Use Disorder: Group Setting (services provided to more than one client in a single treatment event, such that the clients have no particular relationship)

HR: Substance Use Disorder: Family/Couple with Client Present

HS: Family models when beneficiary is not present during the session but family is present

HW: With H0031 for Support Intensity Scale (SIS) face-to-face assessment

QJ: Beneficiary received a service while incarcerated

SE: With T1017 for Nursing Facility Mental Health Monitoring to distinguish from targeted case management

ST: With Home-based (H0036), mental health therapy, or trauma assessment when providing Trauma-focused Cognitive Behavioral Therapy or Child Parent Psychotherapy or family training using *Caring for Children Who Have Experienced Trauma: A Workshop for Resource Parents* Curriculum (pre-approved by MDHHS)

TD: Registered nurse provided Respite

TE: Licensed practical nurse provided Respite

TF: To be used in conjunction with either H0018:HF or H0019 to designated ASAM Level 3.5 Clinically Managed High-Intensity Residential Services.

Effective 10/1/2020 – revised July 19, 2021– E&M Code Changes effective 1/1/21

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements,
PIHP/CMHSP Reporting Cost Per Code and Code Chart

PIHP/CMHSP ENCOUNTER REPORTING HCPCS and REVENUE CODES

TG: With Supported Employment (H2023) to designate evidence-based practice model; with H0039 (ACT) when pre-admission screen is completed as part of an ACT service. Additionally, to be used in conjunction with either H0018:HF or H0019 to designated ASAM Level 3.7 Medically Monitored -Intensive Residential Services.

TG: With Supported Employment (H2023) to designate evidence-based practice model; with H0039 (ACT) when pre-admission screen is completed as part of an ACT service.

TJ: Program Group, Child and/or Adolescent (group setting)

TS: Monitoring treatment plans with codes for Behavior Treatment Plan-Review (H2000) and Treatment Planning (H0032).

Monitoring of behavior treatment (H2000) does not need to be face-to-face with consumer, monitoring of other clinical treatment (H0032) does.

TT: Multiple people are served face-to-face simultaneously. DO NOT use with H2015 and T2027 – use the new UN, UP, UQ, UR, and US modifiers instead effective 10/1/20. Please Note: providers/payors that are successfully using new modifiers should continue to do so. Those that are not able to, may use TT until 9/30/21.

UB: Modifier to be used in conjunction with either H0018:HF or H0019 to designated ASAM Level 3.3 Clinically Managed Population-Specific High-Intensity Residential Services, this adult only level of care offers 24-hour care with trained counselors to stabilize multidimensional imminent danger along with less intense milieu and group treatment for those with cognitive or other impairments who are unable to utilize traditional group services.

UJ: Service provided at night – to be used with H2015 (effective 1/1/21)

UN: 2 patients served face to face simultaneously – to be used with H2015 and T2027

UP: 3 patients served face to face simultaneously - to be used with H2015 and T2027

UQ: 4 patients served face to face simultaneously - to be used with H2015 and T2027

UR: 5 patients served face to face simultaneously - to be used with H2015 and T2027

US: 6 or more patients served face to face simultaneously - to be used with H2015 and T2027

U5: Modifier for ABA must be reported on all encounters covered by the EPSDT Autism Benefit (i.e., ASD diagnostic evaluations, ABA eligibility assessments, ABA CPT codes, and ABA re-evaluations)

U7: Self-Directed Services (effective 10/1/20) - only to be attached to the services that were self-directed by the consumer – to be used with H2014 H2015, S5150, S5151 Respite, T1005, H0045, T2015, T2027, T2036, ~~T2037~~, T5999, S9123, S9124, T1000, 97153, 97154, S5111, S5116. There may be other services not listed that are self-directed with a treatment plan. We will monitor the list of codes with U7 in the future and modify the listing if there are other material services that are self-directed.

*HE and HI modifiers are used **only** when a certified peer specialist or peer mentor provides or assists with a covered service to a beneficiary. Do not use these modifiers with the procedure codes for the activities performed by a peer under the coverage “Peer-Delivered.”

Effective 10/1/2020 – revised July 19, 2021– E&M Code Changes effective 1/1/21

PIHP/CMHSP ENCOUNTER REPORTING HCPCS and REVENUE CODES

5. Add-On Codes: These codes may not be reported alone – they will be rejected. The add-on codes typically used by Michigan’s public mental health system are listed below with the procedure codes they should accompany.

- 90785 interactive complexity used with 90791 or 90792 psychiatric evaluation, *99202-99215, *99304-99310, *99324-99328, *99334-99337, *99341-99350 evaluation and management; 90832, 90834, 90837, 90853 mental health therapy; 90832 HF, 90834 HF, 90837 HF substance use disorder interactive individual psychotherapy, 90853 HF substance use disorder interactive group psychotherapy. *Note: do not use on Evaluation and Management (E&M) codes unless psychotherapy services were provided.
- 90833 (30 min), 90836 (45 min) and 90838 (60 min) with evaluation management and psychotherapy
- 90840 psychotherapy for crisis, each additional 30 min with 90839 crisis intervention

GENERAL COSTING CONSIDERATION RULES

First consult the Medicaid Provider Manual, Behavioral Health and Intellectual and Developmental Disability Supports and Services Chapter, when considering the activities to report and the activities that may be covered in the costs of a Medicaid service.

1. Reporting EPSDT (Early Periodic Screening, Diagnosis and Treatment) Services.

Effective October 1, 2010, the Centers for Medicare and Medicaid Services (CMS) instructed Michigan on services covered under EPSDT for individuals who were under 21 years of age on the date of service. Therefore, beginning with the FY’11 Medicaid Utilization and Net Cost Report, PIHPs must report these EPSDT services as unique units and costs in a separate column. This change does not impact reporting of encounters. On this chart, EPSDT services are noted in the column “Coverage.”

2. Allocating costs for indirect activities and collateral contacts:

The costs of other indirect and collateral activities performed by staff on behalf of the consumer are incorporated into the unit costs of the direct activities. The method(s) used to allocate indirect costs to the services should comply with the requirements of Office of Management and Budget Circular A-2 CFR 200 Subpart E Principles.

- Examples of indirect or collateral activities are: writing progress notes, telephoning community resources, talking to family members, telephone contact with consumer, case review with other treatment staff, travel time to visit consumer, etc.
- Special consideration needs to be given to the indirect activities associated with occupational and physical therapy, health services, and treatment planning. Refer to those services within this document for additional guidance.

Other costs to consider including in the cost of the service, where allowed:

Professional and support staff, facility, equipment, staff travel, consumer transportation, contract services, supplies and materials (unless otherwise noted)

PIHP/CMHSP ENCOUNTER REPORTING HCPCS and REVENUE CODES

3. Medicaid coverage rules for Child Caring Institutions (CCIs): Services provided to children with serious emotional disturbance (SED) in general Child Caring Institutions (CCIs) many not be funded by Medicaid, unless it is for the purpose of transitioning a child out of an institutional setting (CCI). Children enrolled in, and receiving services funded by, the Habilitation Supports Waiver, Children’s Waiver Program and the SED Waiver may not reside in a CCI. However, other children with developmental disabilities and children with substance use disorders may receive Medicaid-funded services in CCIs; and children with SED may receive Medicaid-funded services in Children’s Therapeutic Group Homes, a sub-category of CCI licensure.

DUPLICATE THRESHOLDS

MDHHS has established expected thresholds for the maximum number of units that could be provided to a beneficiary for a procedure code on a date of service. When the reported number of units exceeds the threshold, it is interpreted as evidence of an error of duplicated entry of units. The duplicate threshold is noted in this chart as “DT” and refers to the maximum number of units expected to be provided in one day. Not all procedure codes have DTs.

EVALUATION AND MANAGEMENT CHANGES FOR 2021

- Effective December 31, 2020, 99201 has been deleted from the E&M available codes.
- Effective for dates of service on and after January 1, 2021, Michigan Medicaid will align with the 2021 American Medical Association (AMA) CPT coding guidelines for the selection of level of office or other outpatient Evaluation and Management Services (E/M) as represented by CPTs 99202-99215. Practitioners may select the appropriate level of E/M service based on the following:
 - The level of the medical decision making as defined for each service; or
 - The total time for E/M services performed on the date of the encounter.

The process for determining the level of service in the remaining categories of E/M services remains unchanged.

- The time limit changes for these codes are as follows:

New Patient:

99201 – deleted
99202 now 15-29 minutes
99203 now 30-44 minutes
99204 now 45-59 minutes
99205 now 60-74 minutes

Established Patient:

99211 no time frame
99212 now 10-19 minutes
99213 now 20-29 minutes
99214 now 30-39 minutes
99215 now 40-54 minutes

ABA SAME TIME REPORTING

Autism Follow-up Behavioral Assessment (0362T) can be reported at the same as ABA Adaptive Behavior Treatment (0373T).

CURRENT ALLOWABLE TELEMEDICINE SERVICES

During the COVID-19 Emergency BHDDA put together a database of allowable telemedicine codes. This database can be found here: www.Michigan.gov/BHDDA / Reporting Requirements / COVID-19 Encounter Code Chart

Additionally, once the COVID-19 Emergency is over, BHDDA has developed a new database of allowable telemedicine services which will go into effect once the COVID-19 Encounter Chart is no longer in effect. This database can be found here: www.Michigan.gov/BHDDA / Reporting Requirements / BHDDA Telemedicine Database

Please note BHDDA is moving away from using the modifiers GT and 95 to denote telemedicine and will just be using the Place of Service of 02 once the COVID-19 Emergency is over. During the pandemic, the GT modifier and POS of 02 should continue to be used. Once the pandemic is over, we will require just the POS 02 be used on all allowable telemedicine services listed in the BHDDA Telemedicine Database.

All telemedicine services must include the Place of Service Code of 02. See database of allowable services for listing. These services shall occur through real-time interactions between beneficiaries and the designated staff person responsible for completing the service. MDHHS requires a secure, real time interactive video system at both the originating and distant site, allowing an instantaneous, synchronous interaction between the patient and health care professional via the telecommunication system. Please refer to the telemedicine section within the Medicaid Provider Manual and all applicable bulletins for additional requirements.

The Health Insurance Portability and Accountability Act (HIPAA) compliance requirements and other confidentiality requirements related to the provision of behavioral health services must be followed when engaged in telemedicine services. Providers must ensure the privacy of the beneficiary and the security of any information shared via telemedicine. The technology used must meet the needs for audio and visual compliance in accordance with current regulations and industry standards.

PLACE OF SERVICE CODES

MDHHS requires that beginning with dates of service that occurred October 1, 2012 and thereafter, place of service codes are reported along with encounters. Below is a chart of place of service codes and the typical Medicaid covered services that are likely to be delivered in each place.

Code	Place of Service	<i>Typical Covered Specialty Services & Supports (list is not exclusive)</i>
02	Telehealth	The location where health services and health related services are provided or received, through a telecommunication system. (Effective January 1, 2017). Note: Do not use this POS with the Q3014 site facility fee code. Also note that according to CMS this should not be used for the originating/ hub site; it should be used at the distant site only.
03	School; Early Care & Education Setting	Prevention, case management/supports coordination, + co-located services, home-based, wraparound facilitation, and non-educational therapy.
04	Homeless shelter	Assessments, case management/supports coordination, mental health therapy, + co-located services
05	Indian Health Services	Co-located services
06	Indian Health Service provider-based facility	Co-located services
07	Tribal 638 freestanding facility	Co-located services
08	Tribal 638 Provider-based facility	Co-located services
09	Prison/correctional facility	General fund services only
11	Office	Any outpatient service (including ACT)
12	Home	CLS, Skill-building, case management/supports coordination, family training, respite
14	Group home (specialized residential AFC)	CLS, personal care, respite care, skill-building, case

Effective 10/1/2020 – revised July 19, 2021– E&M Code Changes effective 1/1/21

**PIHP/CMHSP ENCOUNTER REPORTING
HCPCS and REVENUE CODES**

Code	Place of Service	Typical Covered Specialty Services & Supports (list is not exclusive)
		management/supports coordination
15	Mobile unit	Some ACT teams, some crisis teams Note: this is rarely used
16	Temporary lodging	CLS,
21	Inpatient hospital (primary care)	Case management provided as part of discharge planning
23	Emergency room - hospital	Co-located services
31	Skilled nursing facility	Nursing home mental health monitoring
32	Nursing facility	Nursing home mental health monitoring
33	Custodial care facility (General AFC)	Case management/supports coordination,
34	Hospice	Case management/supports coordination, mental health therapy
41	Ambulance – land	Transportation
42	Ambulance – air or water	Transportation
49	Independent clinic (primary care)	Co-located services
50	Federally qualified health center	Co-located services
51	Inpatient psychiatric facility	Mental Health inpatient services, case management provided as part of discharge planning
52	Psychiatric facility-partial hospitalization	Partial hospitalization service
55	Residential substance use disorder (SUD) treatment facility	Residential SUD treatment
56	Psychiatric residential treatment center	Crisis residential services
57	Non-residential SUD treatment facility	Outpatient SUD services
58	Non-residential Opioid Treatment Facility	A location that provides treatment for opioid use disorder on an ambulatory basis. Services include methadone and other forms of Medication Assisted Treatment (MAT). (Effective January 1, 2020)
61	Comprehensive inpatient rehabilitation facility	Co-located services
71	State or local public health clinic	Co-located services
72	Rural health clinic	Co-located services
99	Other place of service not identified above	CLS, skill-building, ACT, supported employment provided in community settings (e.g. homeless shelter)

Note: Co-located services do not require the full set of Quality Improvement BH-TEDS data. Please refer to MDCH/PIHP and CMHSP contract for more details

Reporting of Community Living Support, per diem (H2016) and Personal Care, per diem (T1020) in Licensed and Certified Residential Settings

TOPIC:

Reporting of State Plan Personal Care (T1020) and EPSDT/B3/HSW Community Living Supports (H2016) in a licensed/certified home. These services are also covered under Healthy Michigan as of October 1, 2014.

PURPOSE OF THIS DOCUMENT:

To provide a succinct but comprehensive description of the use and reporting of residential services/supports - namely Personal Care (PC) and Community Living Support services (CLS) in licensed and certified settings.

The CMH system encounter reporting has evolved over the past few decades, with a major shift in 2004 with the advent of federally defined codes, and again in 2013 with the federal requirement to include financial data on price/cost in the encounter. Over the years, descriptions and requirements have been somewhat scattered, plus there have been a number of workgroups that have looked at reporting of Personal Care (PC) and Community Living Support (CLS) in these specialized mental health residential settings. The intent here is to pull together all of this into one go-to place for CMH staff involved with reporting and costing in order to drive a more consistent reporting of these services (high volume - i.e., a large percentage of PIHP/CMHSP spend - approximately 27%) across the state.

GENERAL INSTRUCTIONS

The system should no longer be thinking about this as a "specialized residential day". That does not exist as a Medicaid benefit. There are TWO services the person may receive in these locations from "residential" staff, i.e., Personal Care (T1020) and Community Living Supports (H2016). Staffing requirements for the home are dictated by licensing rules and take into account to some degree the level of severity of the consumers residing in the home as well as the fire/safety evacuation scores for the residents. When purchasing PC and CLS the PIHP/CMHSP/purchasing entity should in general take into account the overall staffing of the facility to ensure they can adequately meet the needs of consumers as determined by their needs assessment and plan of service – but ultimately staffing is the responsibility of the licensee. The amount

Community Living Supports (H2016) and Personal Care (T1020)

of PC and/or CLS paid to the provider via the per diem code is based on the assessed needs of the individual.

The contracts and billing/claims and encounter reporting for these services must comport with Medicaid requirements and reflect the two services. Contracting for one 'day' and then behind the scenes re-stating as two encounters by the purchasing entity should not occur as that is not consistent with Medicaid coverage - and thus jeopardizes the use of Medicaid funds. Therefore separate encounters/claims are submitted for CLS/H2016 and for Personal Care/T1020. Thus these two encounters reflect that the consumer received two different services which are consistent with their assessed needs and their Individual Plan of Service.

Use of local procedure codes should not occur. That practice is not consistent with HIPAA. The procedure codes that should be used are T1020 and H2016.

The purchaser is expected to monitor the quality of these services and to monitor that the consumer is receiving activities that meet their needs. Changes in the consumer's needs (beyond a temporary change) should result in a re-assessment and redetermination of the level of hours/activity needed by the consumer, and the cost per unit rates for PC and CLS for the individual.

These services are also subject to Medicaid claims verification process.

DEFINITION OF LIVING ARRANGEMENT WHERE THESE MEDICAID BENEFITS/CODES CAN BE PURCHASED/PROVIDED

- A group home that is licensed as an adult foster care and certified as a mental health residential service provider where the PIHP system is purchasing CLS and/or Personal Care on behalf of a consumer.
- H2016/T1020 may continue to be reported if the residents of the home have to be temporarily housed elsewhere, as long as these residential services are still provided by the licensed provider.
- A CMHSP/PIHP may purchase CLS/PC in a General AFC, i.e. only some of the capacity - but the home must still have been certified as specialized mental health residential program, and thus Place of Service is still 14.
- **Place of service = 14 (Specialized Residential AFC)**
No other place of service codes to be used.

Community Living Supports (H2016) and Personal Care (T1020)

Reporting for BH-TEDS

Living Arrangement data element:

Field A052, all should use value 22

Field A053, value 221

Medicaid does not cover residential services provided to children with serious emotional disturbance in Child Caring Institutions (CCI) unless it is licensed as a "children's therapeutic group home" as defined in Section 722.111 Sec.1(f) under Act No.116 of the Public Acts of 1973, as amended.

Medicaid does cover services provided to children with developmental disabilities in a CCI that exclusively serves children with developmental disabilities, and has an enforced policy of prohibiting staff use of seclusion and restraint. They may use physical management as defined by MDCH policy and PA 116. (DCH memo from Liz Knisely dated April 16, 2014).

Includes child foster care if certified as a mental health residential program and may be licensed as a Therapeutic Home, which is a sub-category of CCI licensure.

Personal Care (T1020) and Community Living Supports (H2016) are **not** provided in the following residential settings:

- General AFC residential settings where the home/bed receives no specialized services (PC and/or CLS) from the PIHP/CMHSP system. These homes may provide personal care to a resident, which is billed by the AFC home to the state (ASAP) **but ONLY if the PIHP/CMHSP system has not purchased CLS or Personal Care for that resident;**
- Child caring institutions (CCIs) when used by a child with SED due to seclusion/restraint limitation. In these instances the S5145 code should be used and is only funded by GF;
- If a home serving adults is not certified as a mental health residential service or does not meet Medicaid requirements, then S5140 code should be used and charged all to GF

Community Living Supports (H2016) and Personal Care (T1020)

PIHP SERVICES COVERED:

There are two Medicaid covered services provided in these settings: Personal Care (T1020) and CLS (H2016). A beneficiary receives at least one of these two services in this setting. They may not need both.

Persons with more medical needs will likely get more PC.

Persons with more behavioral needs may only receive CLS.

EXCLUDES Room and Board - as ongoing housing costs are not a covered Medicaid benefit.

All other services provided in the home MUST be separately billed, e.g., professional services such as case management, supports coordination, OT, PT, speech, nutrition, and/or health services.

Licensing rules require levels of staffing based on the needs/severity of the residents and 24/7 supervision.

The licensing standards require the home to provide transportation, including for school, day activity services, and/or community activity. These costs can be rolled up into the CLS rates.

Note: This does create a dissonance for the rates for the daytime activity codes but will have only a minimal impact on the CLS and PC rates in general (there will be exceptions at an individual basis where the person needs a lot of transport - e.g. medical conditions - where this has not been covered by DHHS or Medicaid Health Plans). Thus it is best, but **NOT** required to cover these transportation costs via a separate contract and payment so that those costs can be attributed to the services for which the person is being transported

Personal Care: Services that assist the beneficiary in performing personal daily activities (hands on services/supports) including

- Assistance with for preparation, clothing, laundry, housekeeping
- Eating/feeding
- Toileting
- Bathing

Effective 10-1-2016– revised August 2020

Community Living Supports (H2016) and Personal Care (T1020)

- Grooming
- Dressing
- Transferring
- Ambulation
- Medications

Community Living Supports: Services used to increase or maintain personal self-sufficiency with a goal of community inclusion/participation, independence and productivity.

- Assisting, reminding, observing, guiding and/or training
 - Meal prep
 - laundry
 - routine household care and maintenance
 - activities of daily living
 - shopping
- Assistance, support and/or training
 - money management
 - non-medical care
 - socialization and relationship building
 - transportation
 - participation in community activities and recreation opportunities
 - attendance at medical appointments
- Reminding, observing and/or monitoring of medication administration
- Staff assistance with preserving the health and safety of the beneficiary

ASSESSMENT

Through the person-centered planning and IPOS development the person is assessed for each of these two services. This assessment should occur at least annually. For transitional placements, this should be done every quarter.

The assessment should result in an identification of the level of need (average/typical hours/day) for each of these services.

Note - Do not based costs on twenty-four hours of service per day unless the person's needs dictate twenty-four hours of care. Note - the hours are also assumed to be an average over time as there will be daily fluctuations in the actual time.

Effective 10-1-2016– revised August 2020

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements,
Community Living Supports (H2016) and Personal Care (T1020)

Community Living Supports (H2016) and Personal Care (T1020)

Note: there should be consistency between criteria used by PIHPs and DHS (Home Help), especially for Personal care. Other DCH guidelines for CLS in other DCH programs (e.g., CW) also provides a guide.

The assessment of need and delivery of services is overseen by a variety of monitoring activities, including case management visits, Medicaid verification, quality monitoring and other on-site monitoring. If the needs appear to have changed or the home is providing a level that is not consistent with the assessment/plan, then a re-assessment is warranted.

REPORTING

Personal Care (T1020) and Community Living Support (H2016) are per diem codes.

The beneficiary must receive at least one activity within the service for that day to be reported and the activity must relate to the goals as specified in the IPOS. If the beneficiary receives NO service on a day (i.e, midnight to midnight), this day cannot be counted/reported/billed.

The preferred documentation is "time spent" in each activity described in plan of service, rather than a check mark.

The Medicaid rule regarding not reporting/billing day of discharge is assumed to be a primary rule governing which provider can report/bill that day. The CMHSP/PIHP cannot report the day of exit when the consumer is going to another per diem setting.

The same day may **NOT** be reported by two homes (transfers); **NOR** if the person is moving from a certified/licensed setting to a non-licensed setting **NOR** if persons have a hospitalization or nursing home stay; **NOR** as persons terminate the licensed/certified CLS/PC services, including leaving the CMH system. The discharge day or the day the person "moves" to the other setting is not reportable as a CLS/PC per diem by the home for the person is who "leaving".

The "day" of attendance/service is based on the beneficiary receiving at least one activity in Personal Care and/or CLS, and as noted above is not moving that day to another setting (permanently or in the case of hospitalization on a temporary basis).

Community Living Supports (H2016) and Personal Care (T1020)

However, the beneficiary may be absent from the home for other leaves, e.g., visits with family/friends. For both the day they leave and the day they return, IF they receive at least one activity in Personal Care and/or CLS, then that day may be reported. If the person is out of the home on leave for an entire 24-hour day, that day is not reportable.

NOTE: In the past DCH had allowed the concurrent use of H2015 for 1-1 staffing needed on a temporary/emergency basis for an individual consumer. **As of 10/1/16 this is no longer allowed. THIS IS A CHANGE FROM PAST PRACTICE:** See below in pricing section.

The use of modifiers was removed for FY16. These 3-level modifiers have been a challenge to the system and have created a high degree of inconsistency in application and thus appear to no longer be of use. Plus, these homes are very regulated and requirements dictate the staffing and levels of needs of the residents. These services are more stable and have little impact from the use of natural supports that impacts services in non-licensed settings.

The encounter data is now reported to the state with actual individualized rates - and thus more reflective of need, especially with the costing/pricing rules delineated below.

It is also hoped that assessment data (CAFAS, LOCUS, SIS) will further illuminate need variance in per diem "rates".

RELATIONSHIP TO DAY-TIME ACTIVITIES

In most circumstances the consumer will also have week-day, day-time activity to complement their licensed/certified residential services (CLS, Personal Care). This allows the resident to get out into their community and receive additional services that support their inclusion in their community. When the day-program services were unbundled in 2004, along with state plan benefit (clubhouse/PSR) there were a number of services added as an alternative (B3) service – including consumer-run drop-ins, skill-building and supported employment, as well as community living supports (CLS) as a non-vocational activity.

For FY17, DHHS will continue to allow the reporting of CLS as a per diem (H2016) and as a CLS day-time activity using H2015. This is allowed if a) the daytime activity is from a

Community Living Supports (H2016) and Personal Care (T1020)

different provider (the two encounters reporting the H2016 and the H2015 must have either a different Billing Provider NPI or Billing Provider Name (2010AA in the NM1 segment (or REF segment for an atypical provider)) b) there are appropriate separate daytime activity goals, and c) the place of service code is not one reflecting living arrangement – primarily it will be code 99. Note – this use of H2015 will likely change in the future.

PRICING

While the system started with a bundled day concept for these services, those days are long gone.

The PIHP/CMH/MCPN/Core Provider is responsible for purchasing the two services separately.

These services do not include room and board (R&B) costs. Those expenses are expected to be covered by other funding sources collected by the home provider (e.g., SSI/SSD, Bridge card/food).

Note there is a personal allowance component to the funds received by the consumer that is deducted before applying the rest of these funds to R&B. SSI only personal allowance rate (2015 at \$44) and other/non-SSI personal allowance rate (2015 at \$64). It is important to note that if these other fund sources (SSI, SSD, 1st party payment, Bridge card) are not sufficient to cover the cost of housing and food, then any residual room/board expense MUST be charged to GF.

The use of S9976 is not intended to be used to report costs that were netted out and thus submission of an encounter for that code is unnecessary. This code was primarily added as a GF-only code to capture GF costs in crisis residential programs.

The pricing of each service (PC and CLS) is expected to be done at the individual beneficiary level and be based on the assessment of need/hour. This is consistent with individual budgets and self-determination. It is recognized that there may have been a history of capacity based contracts - it is expected that the purchasing system (i.e., PIHPs, CMHSPs, MCPNs, core providers) will move away from such contracts by the end of FY16.

Community Living Supports (H2016) and Personal Care (T1020)

An example of when staffing patterns may impact the rates for an individual would be when the overall evacuation scores for the residents are such that additional staff are needed to ensure the health and safety of everyone in the home.

The pricing is derived from an average cost per staff hour which should take into account such "staffing" costs as salary, fringes, home administration, CSS/M, transport, overhead, etc. Staff time is driven primarily by the needs of the consumers in the home. As noted above - pricing should NOT include facility costs (lease, utilities, maintenance, food) as these are to be covered by other fund sources. It is not intended that each home have a different cost of a staff person per hour - in fact the purchaser should move to a more consistent rate across their network - where the variance is attributable to the complexity of the consumer and their needs (staffing intensity, transportation).

For personal care the hours would be in general based on 1-1 staffing, but may also need to account more for activities when more than one staff is required.

For CLS, the calculation should take into account that some of the activity may be provided by staff to more than one consumer at the same time.

The assessment for each service (i.e., time needed by each consumer) thus drives the individualized per diem rate for each service.

NOT acceptable reporting/pricing

- PC is 4 hours thus 1/6 of day and thus 1/6 of total per diem
- The total cost to run the home is \$285,000 and there are six people living there with different level of needs:
 - 6 people times 365 days = 2,190 total days for a total per diem of \$130.14
 - With PC as 1/6 reporting PC as \$21.69 and CLS as \$108.45, **These rate calculations are NOT acceptable**

EFFECTIVE October 2016

Community Living Supports in Non-licensed In-Home Settings: H2015 (15 minute) (Updated August 2020)

BACKGROUND

Community Living Supports (CLS) first appeared in Michigan as a new coverage under the Habilitation C-waiver in the 1990s. At that time, it was all about additional supports in the home (both licensed and non-licensed). With the advent of the B3 coverage for alternative services in 2004, and limiting skill-building to a vocational emphasis, the use of CLS was expanded to include its use as a community inclusion service. Thus, currently CLS is used for a number of different purposes and settings, leading to variance in units/person as well as cost/unit and cost/person. There has been difficulty identifying activities and costs associated with "residential" supports – i.e., those units and costs to meet a basic living arrangement need. Thus, the state has found it difficult to identify the aggregated costs of residential supports/services.

PURPOSE OF THIS DOCUMENT

To provide a description of the various ways CLS as a non-licensed in-home support and daytime activity is used and to be reported with the 15-minute code (H2015).

SERVICE DEFINITION

Coverage for community living supports includes assisting, prompting, reminding, cueing, observing, guiding and training in activities of daily living and other activities that increase or maintain and individual's self-sufficiency such as meal preparation and laundry. Coverage also includes staff assistance, support or training with money management, non-medical care, socialization, participation in community activities, attending medical appointments, and transportation for community activities (excluding medical appointments) as well as reminding, observing or monitoring of medication

Community Living Supports in Non-Licensed In-Home Settings: H2015 (15 minute)

administration. CLS coverage also includes staff assistance with preserving the health and safety of the individual in order that he/she may reside in the most integrated, independent community setting.

CLS as Primarily an In-Home Support in Non-licensed Living Arrangements

This is when CLS qualified staff provide CLS supports to persons living in non-licensed homes. This includes apartments, condominiums, houses, where the consumer and their "room" mates (if they have any) lease/rent the residence, and also includes when the consumer lives with their family or others where someone else may be responsible for the house/rent payment. The key is that the residence is **not** a licensed setting. As of 10/1/16, H2015 is never provided in a general AFC or licensed/certified AFC. This CLS is not limited to just the staff time spent in the residence. As part of the overall goal of community inclusion, the CLS staff will also accompany the consumer to community activities (shopping, recreation, church etc.). However, the preponderance of staff time is intended to assist the consumer to live within their own home (i.e., a non-licensed living arrangement).

CLS in non-licensed living arrangements is often provided in conjunction with personal care, also known as Home Help which is a State Plan benefit. This benefit is managed by county MDHHS staff, and more recently with the advent of the MiHealth Link pilots for persons with dual coverage (Medicaid and Medicare) the Personal Care/Home help benefit is managed by the Integrated Care Organizations (ICO), i.e. Health Plans.

NOTE: There is an additional, and limited use for what is now seen as supportive housing, rather than CLS, such as an apartment program where there is a residential manager who will have intermittent contact with the residents to see how they are doing. Some CMHSPs have also used H2015 to report med drop services.

Community Living Supports in Non-Licensed In-Home Settings: H2015 (15 minute)

Reporting Rules

In 2004, the CLS for these non-licensed residential settings was limited to procedure code H2015 (15-minute code), but subsequently H0043 (per diem) was added. As of FY2021 use of H0043 was discontinued to increase transparency in resource requirements and unit cost variations across providers. Shared living arrangements provide an efficiency as compared to persons living by themselves.

The TT modifier was discontinued 10/1/2020 for use with H2015, replaced with the following modifiers:

- UN - 2 patients served
- UP - 3 patients served
- UQ - 4 patients served
- UR - 5 patients served
- US - 6 or more patients served

Home Help

Persons in non-licensed residential settings are eligible for **Home Help** from the local MDHHS office. To be eligible for Home Help (HH) a person must be eligible for Medicaid and require physical assistance with at least one activity of daily living. This is a form of personal care. The distinction between CLS and HH personal care is that CLS has a teaching, guiding, prompting component that HH does not have – sometimes described as “doing with vs doing for.” The hours of Home Help a person gets should be deducted from the hours needed for supports to derive the CLS level of need.

The following was copied from the Medicaid Manual as of August 2020:

“CLS services may not supplant services otherwise available to the beneficiary through a local educational agency under the Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973 or state plan services, e.g., Personal Care (assistance with ADLs in a certified specialized residential setting) and Home Help or Expanded Home Help (assistance in the individual’s own, unlicensed home with meal preparation, laundry, routine household care and maintenance, activities of daily living and shopping). If such assistance appears to be needed, the beneficiary must request Home Help and, if necessary, Expanded Home Help from MDHHS. CLS may be used for those activities while the beneficiary awaits determination by MDHHS of the amount, scope

Effective 10-1-2016– revised January 2021

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements,
CLS in Non-Licensed In-Home Setting (H2105)

Community Living Supports in Non-Licensed In-Home Settings: H2015 (15 minute)

and duration of Home Help or Expanded Home Help. If the beneficiary requests it, the PIHP case manager or supports coordinator must assist him/her in requesting Home Help or in filling out and sending a request for Fair Hearing when the beneficiary believes that the MDHHS authorization of amount, scope and duration of Home Help does not appear to reflect the beneficiary's needs based on the findings of the MDHHS assessment."

Additionally, individuals enrolled in MiHealthLink can receive personal care through the Integrated Care Organization (ICO). The hours of MIHealthLink personal care that a person gets should be deducted from the hours needed for supports to derive the CLS level of need.

Needs Assessment

Through the person-centered planning and IPOS development the person is assessed for this CLS service. This assessment should occur at least annually. For transitional placements, this should be done every quarter.

The assessment should result in an identification of the level of need (average/typical hours/day) for this service. Such assessment should be done consistent with Utilization Management guidelines. The assessment should also take into account the hours being provided through Home Help or MIHealthLink.

Note - the hours are also assumed to be an average over time (e.g., one week) as there will be daily fluctuations in the actual time.

For persons in shared living arrangements the needs should be assessed separately for each individual. The assessment of need and delivery of services is overseen by a variety of monitoring activities, including case management visits, Medicaid verification, quality monitoring and other on-site monitoring. If the needs appear to have changed or the home is providing a level that is not consistent with the assessment/plan, then a re-assessment is warranted.

It is critical that in the determination of the units of CLS/H2015 to be authorized, that the CMHSP/PIHP/purchasing entity apply a consistent assessment process and use a consistent utilization management guide to determine hours.

Community Living Supports in Non-Licensed In-Home Settings: H2015 (15 minute)

Use of UN, UP, UQ, UR and US modifiers

When the CLS aide is typically providing CLS to two or more consumers in the same unlicensed setting, the following modifiers should be used.

- UN - 2 patients served
- UP - 3 patients served
- UQ - 4 patients served
- UR - 5 patients served
- US - 6 or more patients served

If the other roommate(s) is/are gone for a day or so, the preponderance rule should be used to determine the modifier reported. For example, if during the course of daily activities one roommate runs to the store with staff for a gallon of milk while two roommates stay home with a second staff person, the modifier would not be changed. However, if a consumer is hospitalized or on a leave of absence, it would be appropriate to change the modifier.

Place of Service Code

ONLY use place of service 12 (home/private residence) when using H2015 as an in-home support in the person's non-licensed residence. It is not expected that the CLS "residential" worker change location codes as they accompany the consumers out into the community. Use the preponderance rule.

BH-TEDS: living arrangement

Field A052

Codes 23, 33, 72

23 = living in a private residence (i.e., not licensed) that is not owned by the PIHP/CMHSP; living alone, or with spouse, or with non-relative room-mates

33= living in a private residence (i.e., not licensed) that is owned by the PIHP/CMHSP; living alone, or with spouse, or with non-relative room-mates

72=living with natural or adoptive family members

Community Living Supports in Non-Licensed In-Home Settings: H2015 (15 minute)

Relationship to Daytime Activities

For the purposes of this document, daytime activities is defined as activities that would take the place of work or school (one or more days from Monday-Friday related to skill building, supported employment, club house, drop-in center, etc.). Community inclusion is defined as primarily evening and weekend activities, for example community outings that occur after work or school while accompanied by the in-home residential worker.

This topic is confusing as the same code, i.e., H2015, gets used for two different purposes. As noted earlier, there is a need to be able to identify how much of H2015 is used for residential services/supports. This is being accomplished using place of service codes.

When the consumer is getting CLS/H2015 as both a residential support and as a day-time activity, these activities will adhere to the following.

- 1) Services will be done by two different provider entities/staff and the encounters must have either a different Billing Provider NPI or Billing Provider Name.
- 2) Services will use different place of service codes.
- 3) The IPOS should also be very clear as to the intent and goals for each of these activities, and the amount/scope to be provided for each.

Relationship to Overnight Health and Safety Supports (OHSS)

HAB Waiver:

For consumers with the Habilitation Supports Waiver (i.e., HSW or HAB Waiver), CLS/H2015 must be reported during the consumer's usual wake hours and OHSS/T2027 must be reported during the consumer's usual sleep hours. The use of OHSS/T2027 must comply with the usage requirements as specified previously in this document or the code chart. The medical necessity for the use of OHSS must be documented in the consumer's IPOS, with the focus of returning the consumer to bed.

Providers do not have to switch between OHSS/T2027 and CLS/H2015 during the night to report when the consumer is asleep versus when they are awake and receiving face-to-face services from the staff. OHSS/T2027 may be reported during the entirety of the consumer's usual sleep hours.

**Community Living Supports in Non-Licensed In-Home Settings:
H2015 (15 minute)**

Non-HAB Waiver:

For consumers that are not enrolled in the Habilitation Supports Waiver (i.e., HSW or HAB Waiver), providers may report CLS/H2015 during both the consumer's usual wake hours and during the consumer's usual sleep hours. The medical necessity for CLS/H2015 services during overnight hours must be documented in the consumer's IPOS. **Use modifier UJ with H2015 for CLS provided during consumer sleep hours at night.** Providers are responsible to evaluate and ensure less intrusive and cost-effective services have been reviewed (i.e. specialty supplies and equipment: Personal Emergency Response System [PERS], electronic devices, assistive tech, etc.) that preserve health and safety, and allow an individual to remain in the most integrated independent community living setting, prior to authorizing this type of CLS staff assistance.

Community Living Support (H2015) for Daytime Activity Reporting

BACKGROUND:

Many of the CMH system consumers are in need of constructive day-time activity. Approximately 20% of Medicaid costs are involved with day-time activity. These activities fall into the following service categories:

- Psycho-social Rehabilitation/Clubhouse (state plan: H2030)
- Skill Building Assistance (H2014)
- Supported Employment (H2023)
- Community Living Services (H2015)
- Peer operated drop-in programs (H0023 or N/A aggregate costs for drops-ins are reported in cost reports only and outside of the encounter system)

For persons with an intellectual or developmental disability who are enrolled in the Habilitation Supports Waiver (HSW)

- Out of home non-vocational (H2014HK)
- Pre-vocational (T2015HK – an hour code)
- Supported Employment (H2023HK)
- Community Living Services (H2015HK)

STATEMENT OF THE ISSUES:

There are several issues that have arisen with respect to the reporting of these services:

1. BHDDA plans to phase out reporting CLS (H2015) as a daytime activity if the person is also getting a per diem CLS (i.e., H2016)
2. HSW codes and use is challenging – the non-vocational has a 4-hour condition and uses the same code as skill-building; the pre-vocational code is an hour code which is difficult to use.
3. Transportation costs associated with these services has been reported in a variety of ways leading to inconsistency in cost per unit for the various services.

Community Living Support (H2015) for Daytime Activity Reporting

H2015 REPORTING CHANGES FOR FY17

As of 10/1/16, DHHS will no longer allow use of H2015 to report added staffing due to emergency needs of consumers in licensed/certified settings. These temporary added costs must be incorporated in the per Community Living Support diems.

For FY17 MDHHS will allow continued use of H2015 as a day-time CLS activity for persons also getting a per diem CLS (H2016). This decision will be re-validated in the context of the 1115 waiver. This will likely be disallowed in the future and an alternative be developed to address these situations. For FY17, there are conditions attached to this use of H2015 as a CLS day-time activity:

- The staff persons providing this activity cannot be the same as staff providing the CLS residential services.
- The IPOS must delineate goals specific to these day-time CLS activities
- The place of service code is not one reflecting living arrangement – primarily it will be code 99, “*in the community*”.

H2014HK REPORTING OF HSW NON-VOCATIONAL SERVICES:

Reminder that there are time constraints attached to use of H2014HK:

- Assistance with self-help, socialization and adaptive skills
- Outside of the home
- Services must be furnished FOUR OR MORE hours per day on a regularly scheduled basis for one or more days per week, unless provided as an adjunct to other HSW day activities included in the participants plan of service.

Community Living Support (H2015) for Daytime Activity Reporting

OTHER USES OF CLS - H2015 and T2037/2038

1. H2015 - as used to provide staff support costs for regular/ongoing day-time community activities provided by a "day" program provider agency: Non-facility based community activities

Code: H2015 reported in 15-minute increments

Use of UN, UP, UQ, UR, and US modifiers

When the CLS aide is typically providing CLS to two or more consumers at the same time in the community setting (i.e., group activities) the corresponding U modifier should be used.

Place of Service Code : DHHS hopes to get a new one for “community”, in the meantime use 99

Assessment of Need

The use (amount, scope, duration, frequency) of CLS/H2015 as a day-time activity should be based on a consistent needs assessment process, and application of Utilization Management guidelines.

Pricing H2015 : Cost includes staff salary and fringes (staff time includes indirect time by the CLS worker – e.g., required training, planning meetings, supervision, travel time), provider agency overhead/supervision/administration, staff and consumer transportation for community inclusion activities, staff and consumer out of pocket expenses for community outings (net of consumer personal allowance contribution).

Transportation: If the transportation to H2015 community activities is done by a separate transportation company, then that cost is to be rolled into the H2015 service row in the UNCs, and will also be shown in a new informational row on UNCs: "Transport for Day-time/H2015 CLS". Transportation encounters should NOT be reported separately.

2. H2015 - as used to provide staff support costs for regular/ongoing day-time community activities provided by a "day" program provider agency: Facility based community activities

Code: H2015 reported in 15-minute increments

Effective 10-1-2016 – revised June 2021

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements, CLS for Daytime Activity Reporting (H2015)

Community Living Support (H2015) for Daytime Activity Reporting

Use of UN, UP, UQ, UR, and US modifiers

When the CLS aide is typically providing CLS to two or more consumers at the same time in the community setting (i.e., group activities) the corresponding U modifier should be used.

Place of Service Code: 99

Pricing: This is primarily a staffing cost but may include facility costs if the CLS activity is being provided at a community facility. This community facility-based activity usually occurs when the consumer has goals for their day-time activity that are NOT vocational oriented (e.g., older adults, medically fragile, adult daily living skills). Cost includes staff costs (including supervisory staff), facility (lease/mortgage, utilities, maintenance), equipment, travel, consumer transportation to the site when provided by the CLS provider agency (and for administrative efficiency bundled into the rate to the CLS agency), contract services, supplies and materials, and provider administration

Transportation: If the transportation to the facility is done by a separate transportation company, then that cost will be included in the H2015 service row, and also reported as an added new informational row on UNCs: "Transport for CLS". Encounters not to be reported.

3. H2015 - as used to provide staff support by CMH staff - generally an intermittent activity

This use of H2015 that occurs at a CMH program/clinic generally falls into several alternatives:

- a) CLS as provided by peers who are not yet certified
- b) Provision of some specialized CLS activity -- often done in a group at the CMH site
- c) Outreach activities

Use of UN, UP, UQ, UR, and US modifiers

When the CLS aide is typically providing CLS to two or more consumers at the same time in the community setting (i.e., group activities) the corresponding U modifier should be used.

Code: H2015 reported in 15-minute increments

Effective 10-1-2016– revised June 2021

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements, CLS for Daytime Activity Reporting (H2015)

Community Living Support (H2015) for Daytime Activity Reporting

Place of Service Code:

Codes expect to see in most instances:

11- office, when done at the CMH site

04 - homeless shelters - when CLS staff reach out to these shelters to assist persons

New code - in the community

12 - home

Locations EXCLUDED:

- Location 14 -- licensed residential
- Location 33 - general AFC
- Nursing homes (31,32)

This is primarily a staffing cost but may include facility costs if the CLS activity is being provided at a CMH office. Cost includes staff costs (including supervisory staff), facility (lease/mortgage, utilities, maintenance), equipment, travel, supplies and materials , and provider administration

~~4. Therapeutic Camping (also can be respite): T2037, T2038~~

~~For Medicaid use, these camps must meet licensure/certification requirements and the services should address goals in the IPOS (either CLS oriented goals or respite goals)~~

~~Codes: per day/session code~~

~~Pricing—the camp customary rate~~

ASSOCIATED TRANSPORTATION COSTS

This is described in more detail in the Transportation document.

As of October 1, transportation associated with any of these various day-time services listed above in the background section will NOT be reported using transportation codes. CMH provider may continue to use those transport codes for billing/payment, but they should NOT be reported on to the state.

The costs for transportation will be either incorporated into the service encounter (usually when it is provided by the day-time activity provider) OR it will be shown as a

Effective 10-1-2016— revised June 2021

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements, CLS for Daytime Activity Reporting (H2015)

Community Living Support (H2015) for Daytime Activity Reporting

cost in the various end of year reports (layered into the appropriate service row, but with a footnote row showing the transport cost).

Crisis Intervention and Pre-Admission Screening Assessment

About this document:

- This document is intended to be a training document that addresses coding, documentation and encounter reporting guidelines related to Inpatient Pre-Admission Screening Assessments and Crisis Intervention Services. This training proposes to emphasize the difference between Crisis Intervention which is to be considered treatment/intervention and the Pre-Admission Inpatient Screening Assessment which is not treatment but rather as assessment to determine whether alternative services are appropriate and available.

Medicaid Provider Manual 5.6.B.4 Crisis Services

Crisis Interventions are unscheduled activities conducted for the purpose of resolving a crisis situation requiring immediate attention. Activities include crisis response, crisis line, assessment, referral, and direct therapy. The standard for whether or not a crisis exists is a "prudent layperson" standard. That means that a prudent layperson would be able to determine from the beneficiary's symptoms that crisis services are necessary. Crisis means a situation in which an individual is experiencing the signs and symptoms of a serious behavioral health disorder, and one of the following applies:

- The individual can reasonably be expected within the near future to physically injure himself or another individual, either intentionally or unintentionally;
- The individual is unable to provide himself food, clothing, or shelter, or to attend to basic physical activities such as eating, toileting, bathing, grooming, dressing, or ambulating, and this inability may lead in the near future to harm to the individual or to another individual; or
- The individual's judgment is so impaired that he is unable to understand the need for treatment and, in the opinion of the behavioral health professional, his continued behavior as a result of the behavioral health disorder can reasonably be expected in the near future to result in physical harm to the individual or to another individual.

If the beneficiary developed a crisis plan, the plan is followed with permission from the beneficiary.

Medicaid Provider Manual Section 8 Inpatient Psychiatric Hospital Admissions

The PIHP is responsible to manage and pay for Medicaid mental health services in community-based psychiatric inpatient units for all Medicaid beneficiaries who reside within the service area covered by the PIHP. The PIHP may delegate these responsibilities to CMHSPs, MCPNs (Wayne County) or contracted providers.¹ This means that the PIHP is responsible for timely screening and authorization/certification of requests for admission, notice and provision of several opinions, and continuing stay for inpatient services, defined as follows:

Screening means the PIHP/delegated entity has been notified of the beneficiary's needs and has been provided enough information to make a determination of the most appropriate services. The screening may be provided on-site, face-to-face by PIHP/delegated entity personnel, or over the telephone.

Authorization/certification means that the PIHP/delegated entity has screened the beneficiary and has approved the services requested. Telephone screening must be followed-up by the written certification.

PIHP responsibilities include:

- Pre-admission screening to determine whether alternative services are appropriate and available.
- Severity of Illness and Intensity of Service clinical criteria will be used for such prescreening.
- Inpatient pre-screening services must be available 24-hours-a-day, seven-days-a-week.
- Provision of notice regarding rights to a second opinion in the case of denials.
- Coordination with substance abuse treatment providers, when appropriate.
- Provision of, or referral to and linkage with, alternative services, when appropriate.
- Communication with the treating and/or referring provider.
- Communication with the primary care physician or health plan.
- Planning in conjunction with hospital personnel for the beneficiary's after-care services.

¹ This language was added to the paragraph and is not part of the Medicaid Provider Manual description in Section

Crisis Intervention and Pre-Admission Screening Assessment

- In most instances, the beneficiary will receive services in a community-based psychiatric unit in the PIHP service area where he resides. There may be instances when a PIHP is responsible for a resident that they have placed into a community program in another county or state. In these cases, the responsible PIHP or delegated entity, i.e., the one managing the case, is responsible for authorizing admission and/or continuing stay.
- If a beneficiary experiences psychiatric crisis in another PIHP region, the PIHP in that county/region should provide crisis intervention/services as needed and contact the PIHP for the county of the beneficiary's residence for disposition.

Training and Discussion Points

A **Crisis Intervention** service can be and often is, provided without the follow-up transaction of an Inpatient Pre-Admission Screening (Assessment). The Crisis Intervention *service/treatment* that the person receives may fully address and currently resolve the crisis situation the person is experiencing. In this instance the provider of the Crisis Intervention service will document the HCPCS Code of H2011 and will also report all face-to-face time spent (*actively providing treatment*) on an encounter reporting claim (any non-face to face time should be incorporated into the indirect cost of the service). There may be multiple Crisis Intervention services in the same day.

- However, when the provider determines that a Crisis Intervention service/treatment is not going to resolve or fully address the symptoms and signs the person is experiencing, he may decide that an Inpatient Pre-Admission Screening Assessment is necessary to determine whether alternative services are appropriate and available. Thus in this instance, that Crisis Intervention service/treatment (H2011) now ends and Inpatient Pre-Admission Screening Assessment (T1023) starts.
- The T1023 assessment encounter ends at the time the disposition decision is made.
- The provider will also report all face to face time on an encounter reporting claim (any non-face to face time should be incorporated into the indirect cost of the service).

The time post T1023 that is spent face to face only (*actively providing treatment*) with the consumer (working on a diversion plan, etc.), will be considered H2011.

Crisis Intervention and Pre-Admission Screening Assessment

Service Description	HCPCS Code	Reporting Unit	Reporting Technique	Coverage	Reporting and Costing Considerations
Crisis Intervention	H2011	15 Minute	Line Professional	State Plan	Face to Face; Incorporate all phone time is an indirect cost
Screening for Inpatient Program	T1023	Encounter	Line Professional	State Plan	Incorporate all phone time is an indirect cost

Psychiatric Inpatient in a Local Hospital

Background on Reporting of This Service

- Unlike health care where inpatient services constitute 50% of use/costs, in the CMH system use of community hospitals is less than 10%.
- This service needs to be reported to distinguish Institutes for Mental Disease (IMD, PT68) from Community Inpatient (PT73). Why --This has been necessary in order to apply the "in lieu" of language to PT68 as a place/service for use of Medicaid funding (started in 2004). PLUS, there is a recent issue with PT68 not initially covered by HMP. With the 2016 federal managed care rules allowing some Medicaid/HMP use of PT68, this need to distinguish between PT68 and PT73 continues to be important.
- The original intent of the data was about "utilization" – i.e., this is such an important service for persons with mental illness and it is a high risk/high cost service and one that we manage carefully from crisis to screening to admission to discharge, especially for active CMH consumers.
- The DCH reporting rule from 2004 was to report all episodes where CMH was actively involved in the admission for an existing consumer. For others-the reporting of episodes was more tied to CMH role re authorized/approved admission, PLUS the ability to get information about the length of stay - especially challenging for Medicare-covered persons.
- In 2013 with the addition of including financial information on encounters, some CMHSPs/PIHPs went to reporting encounters only if they paid something for the episode. Thus a number of MME episodes are not reported – i.e., when Medicare payment covered the cost of the stay.
- Cost per day as reported across PIHPs shows we have inconsistency on how COB use/costs is being reported.

Psychiatric Inpatient in a Local Hospital

Reasons for FY17 Changes

- Based on the FY14 MUNC, the range for an inpatient day is \$372-\$975. A small part of this variance is due to market forces with respect to per diems as negotiated by CMHSPs/PIHPs. But the larger factors include a) how Coordination of Benefit is handled/reported, b) how accruals are reported, and c) how physician costs are paid.
- PIHPs with lower average per diems have included episodes (days used and cases) with a COB (including days with zero-paid by PIHP/CMHSP), whereas PIHPs with the higher average cost per day have included COB costs but not all of the days.
- Some PIHPs have made estimates for use (days/cases) for accruals – others have not.
- Most hospitals have agreed to a bundled per diem; some require the physician cost (can be 10-15% of the cost) to be paid/reported separately.
- FY17 reporting, instructions will address these sources of variance in how this service is reported.

Services Being Reported

Psychiatric inpatient admissions result from a crisis service (H2011 if face-face) and inpatient admission screening (T1023 if conducted face-face) disposition that the person does meet criteria (severity/intensity) for an inpatient admission. In most instances the PIHP/CMHSP or their agent authorizes the admission and will indicate a) the need for continued stay reviews, and b) payer of last resort responsibilities.

There will be a few crisis interventions that result in a referral to a hospital but without an authorization i.e., for persons with third party insurance, including Medicare-only, who do not meet the CMHSP general fund (GF) priority population criteria.

The CMHSP/PIHP system has responsibility to authorize and pay for psychiatric inpatient services provided in either a full-array community hospital (PT73) or free standing psychiatric hospitals (PT68) for persons with a) Medicaid - including dual eligible -MME, b) Healthy Michigan , c) MiChild, d) GF priority populations (un-insured and under-insured). Note: The 2016 managed care rules limit the use of Medicaid/HMP funds for adults (age 21-64) in PT68 facilities to stays of less than 16 days.

The free-standing psychiatric hospitals (PT68) meet the definition of an IMD facility. The federal Medicaid rules previously precluded the use of Medicaid funds for IMDs for

Psychiatric Inpatient in a Local Hospital

persons with mental illness between the ages of 21-64. However, Michigan received direction/permission from CMS in 2004 that these services could be purchased by PIHPs with Medicaid funding under the “in lieu” of rules – i.e., as a service substitution for the state plan benefit provided in community hospitals - under a set of CMS prescribed requirements (separate reporting, average price of IMD per diem to be less than per diem in full community hospital). Based on CMS’s Medicaid Managed Care Rule effective July 6th Medicaid/HMP funds can now be used for IMD stays 15 days and under for adults ages 21-64. This 15 day limitation does not apply to children or persons over age 64. (See 6-16-2017 Renwick memo for information on paying for services when an IMD length of stay exceeds 15 days in a given month).

DCH, now DHHS, is the keeper of the lists as to which facilities are PT68.

These are per diem codes. In general, the preferred cost reporting is as a bundled per diem, including the physician costs.

The services include the costs of admission in the per diem, i.e., excludes any emergency costs as incurred by the admitting hospital as a separate charge.

In some instances, the hospital will not bundle in the physician cost into the per diem. These are separately reported.

The hospital, in conjunction with the purchaser - as dictated by the contract terms - is responsible for providing the supports needed for the certification and court hearings related to involuntary commitment.

These services do not include other primary or acute health care services that the person might need during their psychiatric inpatient episode. In most instances, these costs are NOT the responsibility of the PIHPs/CMHSPs. With a limited scope, there may be ancillary services that are covered by the PIHP/CMHSP scope, such as electroconvulsive therapy (ECT). These are to be reported separately.

Reporting Encounters (that get rolled up into UNCs based on fund source): Effective 10/1/16

Encounters should be reported for all episodes where there is an amount paid by the PIHP/CMHSP. Encounters where there is \$0 paid by the PIHP/CMHSP for the entire inpatient episode do not need to be reported to DHHS. This is a shift from past practice where the emphasis was “utilization”.

Psychiatric Inpatient in a Local Hospital

- These inpatient services use revenue codes (see later)
- Encounter reporting is required to distinguish between episodes at a community hospital (PT73) and those at free-standing psychiatric hospitals (also known as IMDs) (PT68)
- PT68 is used to report all use at these free-standing facilities - regardless of age of the consumer.
- Financial Reporting Subgroup is comfortable with Milliman and MDHHS using the Hospital NPI reported with the **Billing Provider Name** in the Encounter (Loop 2010AA, Segment NM1, Element NM109).
 - Example: **NM1*85*2*ABC HOSPITAL* ** * *XX*1234567890~**
- For FY17, the PIHP will continue to report the Hospital Type (i.e., 22, 68 or 73) as reported in the first two digits of the **Service Facility Location Name** in the Encounter (Loop 2310E, Segment REF, Element REF02). However, the legacy Hospital ID that is currently reported along with the Hospital ID Type will no longer be required or used.
 - Example 1: **REF*LU*22~**
 - **Example 2: REF*LU*73xxxxxxx** Where xxxxxxxx is still the Hospital ID used or any combination of 7 characters such as: 0000000. This is an option that allows for no/little changes being made to your system.
- If a payment is made for inpatient services, the days of an inpatient episode to be reported INCLUDE both those days when a third party, is the payer as well as the days when the PIHP is the payer. The days to be reported EXCLUDE the day of discharge, or any day where the person is not in the psychiatric inpatient unit as of 11:59pm
- In most instances the inpatient episode is submitted in its entirety with one encounter, from admit date to discharge date.
- In a few instances the episode may be split into more than one encounter. This usually occurs for long episodes, and the hospital desires payment.
- It is also permissible, but not necessary, that episodes crossing 9/30 are reported as two encounters. Milliman currently prorates such episodes between the two fiscal years.
- Medicare COB for these services has several facets -- deductibles (changes each January), co-pays (which change at certain length of stay) as well as for re-admissions within a short time. Medicare currently has a 190 day lifetime

Psychiatric Inpatient in a Local Hospital

inpatient coverage care limit. It is expected that CMHSP/PIHP staff who are involved with adjudicating claims are very familiar with each of these issues.

- PIHPs involved with the MiHealth link pilots are reporting their Medicaid costs through the usual PIHP reporting (including showing the Medicare cost in the encounter financial loops), as well as submitting encounters to the ICOs for the Medicare share of the cost.

Revenues codes

These services use REVENUE codes to identify different types of services under the psychiatric inpatient umbrella. The characteristics that distinguish revenue codes include a) includes/excludes physician costs and b) ward size.

All Inclusive Rate (includes physician cost)		
Flat fee charge incurred on either a daily basis or total stay basis for services rendered. Charge may cover room and board plus ancillary services or room and board only.		
All-Inclusive Room and Board/Plus Ancillary	ALL INCL R&B/ANC with Physician costs	0100
Per Diem Excludes the Physician Cost		
All-Inclusive Room and Board/Plus Ancillary (no physician cost)	ALL INCL R&B/ANC excludes Physician costs	0114, 0124, 0134, 0154

Psychiatric Inpatient in a Local Hospital

Reporting Costs Incurred

Encounters minimally must include the payment made by the PIHP/CMHSP. For persons with a coordination of benefit (COB), it is expected that all the financial loops will be populated to show the other revenues used to support the episode. BHDDA will be working with the PIHPs so that all are reporting COBs by 10/1/2017.

Inpatient Reporting and Current Cost Reports

Reporting Costs Incurred But Not Reported

PIHPs/CMHSPs are on an accrual basis, thus as they close out the books for the year they will likely have a residual IBNR/Accrual. This is booked as a financial liability for that service year. This should be accounted for separately between PT68 and PT73. This amount is reported separately in the UNC reports and is already included in the Medicaid hospital report, as well as in FSR expenses.

Adjusting Prior Year

Subsequent adjustments to prior year accruals is **not** included as a service cost in the current year, i.e., not included in UNC rows for PT68/PT73. This is to be shown as a “write off” or “prior year adjustment” as a reconciling item between costs reported in UNC and FSR.

Hospital Reimbursement Adjustment (HRA)

Up to FY16, the PIHPs were used as a vehicle to provide Medicaid reimbursement adjustments to hospitals where there has been a use by Medicaid eligibles. The payment is independent of the purchase of services via the per diems by the PIHPs/CMHSPs.

To assist in this process, the PIHPs annually populate a Medicaid and HMP use (per diems and expenses, HMP excludes use of PT68) report. This is used by MDHHS to determine each hospital's share of the HRA payment in a subsequent year (2-year lag).

During the year, MDHHS distributes a monthly HRA report that is used by the PIHPs to make quarterly payments to some of the PT68 and PT73 hospitals.

BHDDA will develop a plan to transition HRA payments to be compliant with CMS Managed Care Final Rule requirements related to pass-through payments.

Psychiatric Inpatient in a Local Hospital

Summary of Changes to Utilization and Net Costs Reports

Currently there are just two rows in the various UNC reports - one for PT68 facilities and one for PT73 facilities.

For FY16 there will be added rows under each provider type:

- a) Use where there is no COB - on average this would reflect the full per diem negotiated by the PIHP
- b) Use when there is COB (typically Medicare) and the PIHP/CMHSP made some or a partial payment for the episode. This would show much lower cost/unit.
- c) Use when the physician cost is reported separately.
- d) Accruals – estimated accrual for each of PT68 and PT73: There can be a significant lag in processing these claims. Thus the end of year FSRs will likely include an estimated accrual for costs incurred but not reported (IBNR). IBNR estimates will also be reported in the Utilization and Net Costs Reports and Sub-element Cost Report. The actual encounters for these IBNR episodes will not be reported to DHHS until the claim has been reported by the hospital and adjudicated by the payer (PIHP/CMHSP or their agent).

NOTE: Adjustments to hospital accruals from prior years is NOT reported as a service cost (as it was for a previous year - UNCS represent current year use), but reported as a reconciling item and FSR adjusting item.

For the PIHPs involved with the MIHealth Link MME pilots, MUNC reporting will only include the Medicaid share of these episodes. EDIT will be discussing whether MIHealth Link pilots should report the MIHealth Link expenses on the sub-element cost reports.

Coordination of Benefits

Copays are an issue as there is variation across PIHPs in how Medicaid/Medicare inpatient stays are reported as well as other inpatient stays for which there is a third-party payer. In addition, the PIHP/CMHSP typically does not receive the hospital claims for those inpatient days for which the PIHP does not have financial responsibility, even if for an active CMH consumer.

An added complication exists for MI Health Link where the PIHP is responsible for all inpatient days. It was noted that PIHPs involved in MI Health Link will be reporting encounters for Medicaid/Medicare inpatient days differently than the other PIHPs. The

Psychiatric Inpatient in a Local Hospital

837 will have the gross cost as well as the Medicaid cost for inpatient. However, the amount paid by the PIHP is still the Medicaid net.

For FY17 reporting, the PIHP/CMHSP will **report all days** of the consumer's inpatient stay including those stays for which the PIHP/CMHSP covers only a portion of the cost of the stay (as in the case of a Medicare deductible).

For FY16 UNC's (MUNC, HMPUNC, GFUNC, SECR) there will be added rows for both provider types to distinguish between various levels of payment responsibility:

- **a row for inpatient costs and units for which the PIHP/CMHSP makes 100% payment for the inpatient episode**
- **a second row for which the PIHP/CMHSP makes partial payment for an inpatient episode**

Physician Costs

Some hospitals do not bundle the physician cost into the per diem. These costs can be a significant percentage of the cost of the episode and thus result in a per diem variance.

For FY16 UNC's (MUNC, HMPUNC, GFUNC, SECR) there will be added rows for both provider types to distinguish between costs with bundled per diems and those with the physician services excluded:

- **A third row for which the PIHP/CMHSP makes 100% payment for an inpatient encounter where the physician cost is NOT included**
- **A 4th row for which the PIHP/CMHSP makes a partial payment for an inpatient encounter/episode where the physician costs are NOT included**

Claims that lag

Psychiatric inpatient claims are adjudicated in a less timely manner than are other claims. As a result, some claims are not processed by the end of the year for reporting on the UNC's.

For FY16 UNC reporting there will be two added rows to report IBNR/Accruals for services in the reporting year but for which there has not been an adjudicated claim at the time the report is compiled. One row for each of PT68 and for PT73 will be added to include the reporting of the accrued cost in the UNC's

Psychiatric Inpatient in a Local Hospital

Given the above discussion, the proposed inpatient rows on the FY2016 would appear as follows on the MUNC. Similar rows will be added to the Healthy Michigan UNC as well as the General Fund cost template and the sub-element cost report.

Service Description	HCPCS Code	Modifier	Revenue Code	Description	Reporting units	Unique Cases Served	State Plan Services Units	State Plan Services Total Costs
Local Psychiatric Hospital/IMD		PT68	0100	All-inclusive room and board plus ancillaries and physician	Day			
PIHP has 100% Medicaid payment for the encounter and physician costs are included in the per diem								
PIHP has partial Medicaid payment for the encounter and physician costs are included in the per diem								
Local Psychiatric Hospital/IMD		PT68	0114,0124, 0134,0154	All-inclusive room and board plus ancillaries				
PIHP has 100% Medicaid payment for the encounter and physician costs ARE NOT included in the per diem								
PIHP has partial Medicaid payment for the encounter and physician costs ARE NOT included in the per diem								
Local Psychiatric Hospital/Acute Community		PT73	0100	All-inclusive room and board plus ancillaries and physician	Day			
PIHP has 100% Medicaid payment for the encounter and physician costs are included in the per diem								
PIHP has partial Medicaid payment for the encounter and physician costs are included in the per diem								
Local Psychiatric Hospital/Acute Community		PT73	0114,0124, 0134,0154	All-inclusive room and board plus ancillaries	Day			
PIHP has 100% Medicaid payment for the encounter and physician costs ARE NOT included in the per diem								
PIHP has partial Medicaid payment for the encounter and physician costs ARE NOT included in the per diem								
Cost estimates of current year IBNR/Accrual								
Local Psychiatric Hospital/IMD		PT68	0100, 0114,0124, 0134,0154	All-inclusive room and board plus ancillaries	Day			
Local Psychiatric Hospital/Acute Community		PT73	0100,0114, 0124,0134, 0154	All-inclusive room and board plus ancillaries	Day

Transportation Costs for Daytime Activities

Background

With the advent of encounter reporting using HCPC codes in FY04 and with the advent of B3 waiver authority for alternative services, the direction from EDIT/DCH for reporting transportation was that it was not a service that should be reported via encounters, and thus costs should be layered onto the service cost for which the person is being transported.

Over the years, there has been inconsistency with respect to following that instruction. This results in inconsistency for reporting cost per unit for those services, with some PIHPs/CMHSPs including the transportation costs, and some excluding those costs and reporting them separately. For some of the day-time activity services the cost of transportation can be significant, thus skewing the cost/unit.

Scope of Transportation as a Medicaid Cost

There have also been questions as to which transportation costs can be charged to Medicaid (and now HMP). The EDIT work group notes that there is inconsistency across CMHSPs in interpretation of the following passage from the Medicaid manual. The highlighted sentence could be interpreted to mean either that Medicaid covers any necessary transportation (with a limitation/condition related to medical office visits and role of DHS and MHPs) OR it could be interpreted to mean that Medicaid coverage is limited to only “day program” transportation costs.

Medicaid Policy Manual 3.27 on TRANSPORTATION:

Current Language

3.27 TRANSPORTATION

PIHPs are responsible for transportation to and from the beneficiary’s place of residence when provided so a beneficiary may participate in a state plan, HSW or additional/B3 service at an approved day program site or in a clubhouse psychosocial rehabilitation program. MHPs are responsible for assuring their enrollees’ transportation to the primary health care services provided by the MHPs, and to (non-mental health) specialists and out-of-state medical providers. MDHHS is responsible for assuring transportation to medical appointments for Medicaid beneficiaries not enrolled in MHPs; and to dental,

Effective 10-1-2016–revised August 2020

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements,
Transportation Costs for Daytime Activities

Transportation Costs for Daytime Activities

substance abuse, and mental health services (except those noted above and in the HSW program described in the Habilitation Supports Waiver for Persons with Developmental Disabilities Section of this chapter) for all Medicaid beneficiaries. (Refer to the local MDHHS office or MHP for additional information, and to the Ambulance Chapter of this manual for information on medical emergency transportation.)

PIHP's payment for transportation should be authorized only after it is determined that it is not otherwise available (e.g., MDHHS, MHP, volunteer, family member), and for the least expensive available means suitable to the beneficiary's need.

The Work group has proposed the following rewrite of the highlighted passage:

Proposed rewrite

PIHPs are responsible for transportation to and from the beneficiary's place of residence when provided so a beneficiary may participate in a PIHP-covered state plan, HSW or additional/B3 service within the consumer's community or for transportation associated with inpatient or crisis residential. *Further*, PIHP's payment for transportation should be authorized only after it is determined that it is not otherwise available (e.g., DHS, MHP, volunteer, family member), and for the least expensive available means suitable to the beneficiary's need.

Current Status

BHDDA management is reviewing this clarification, however, consideration is being given to the budget impact of this revision. In addition, further understanding is needed as to what responsibility local DHS offices do currently have for non-day treatment and PSR transportation costs. There is also request for clarification transportation coverage for consumers in the Dual Eligible Project (MHL)

Reporting Of Transportation Costs

The 2004 instructions and code manual indicate that transportation costs are to be layered onto the service costs. This is usually accomplished by adding costs on to the relevant rows in the various UNC reports. Also payments to the service provider may have included a bundling of both service and transportation costs with the two costs added together into the overall rate.

The Code Manual states: 'Do not report transportation as a separate Habilitation Supports Waiver service, or when provided to transport the beneficiary to skill-building, clubhouse, supported employment, or community living activities. Other transportation

Transportation Costs for Daytime Activities

costs should be included in the cost of the service to which the beneficiary is being transported (e.g., supported employment, skill building, and community living supports).

The challenge is that transportation is arranged and paid for in a wide variety of ways. In reviewing the cost reports, half of the PIHPs use the individual transportation codes such as A0080, A0090, T2003 etc.

Issues with Consistency

Most CMHSPs/PIHPs have been following DHHS instructions to roll the cost into the cost of the service and include the transportation cost in the service row in the MUNC or other cost report. Essentially transportation was NOT seen as a service - it was an indirect cost. As noted, however, some PIHPs/CMHSPs report transportation as separate encounters/costs.

These two approaches to handling transportation costs can create dissonance between encounter cost/unit vs MUNC cost/unit within a PIHP/CMHSP. In addition, across agencies, the cost per unit of service (e.g., supported employment) for places where transport is reported separately will always be lower -- transport can be 25-30% of the cost of day services - especially in rural areas.

Solution: Starting with FY16 Reports

A state-wide approach for encounter reporting for transport for each service would be very inefficient and a value-subtracted activity. However, transportation costs that are currently being layered into service rows for skill-building, supported employment, clubhouse and community living support for daytime activity will now be reported in new rows at the bottom of the MUNC and HMPUNC (which will not be rolled up into total MUNC spend). Thus, the service row will include both the service costs and the transportation costs. The new rows at the bottom of the MUNC and HMPUNC will be for information only. It should be noted that PIHPs/CMHSPs who pay a bundled rate to the service provider will not be required to break these costs out for reporting on the MUNC or other cost reports.

In addition, transportation encounters for these day-time activities should NOT be included in the FY16 end of year "UNC" and sub-element reports. As noted above, these costs should be layered on to the appropriate service. It is recognized that for FY16, the allocation of these costs to each day-time service may be an estimate.

Transportation Costs for Daytime Activities

Starting as of 10/1/16 for FY17

For FY17, Medicaid-covered transportation encounters associated with the identified day-time activities, are NOT to be submitted to DHHS

Transportation Costs for Daytime Activities

Illustration of Reporting on Utilization and Net Cost Reports:

Service Description	HCPCS Code	Modifier	Revenue Code	Description	Reporting units	Unique Cases Served	Service Units	Total Costs
Skill-Building (total costs including transportation)	H2014			Skills training and development	15 Minutes	962	644,459	2,525,717
Community Living Support	H2015			Comprehensive Community Support Services	15 Minutes	2,143	1,843,406	11,386,087
Supported Employment Services	H2023			Supported employment	15 Minutes	691	217,265	2,420,221
Clubhouse Psychosocial Rehabilitation Programs	H2030			Mental Health Clubhouse	15 Minutes	342	334,846	2,032,661
Informational Rows that will show below the total expenditure lines								
Transportation Costs for Skill Building included in the service row above	Transportation for H2014							250,123
Transportation Costs for Community Living Support included in the service row above	Transportation for H2015							1,496,123
Transportation Costs for Supported Employment included in the service row above	Transportation for H2023							252,123
Transportation Costs for Clubhouse and Psychosocial Rehabilitation included in the service row above	Transportation for H2030							214,123

Same-Time Services Reporting

Background

In general, in health care reporting only one service can be reported for a given time period. While there may be other staff present, the service reported is the one that is primary as experienced by the consumer. While CMHSPs and/or providers may, for internal financial purposes, track the time/cost of additional staff or services during the primary service, not all information is reported to the state.

There are some exceptions to the general rule of reporting one service for a given time period.

Per Diem and Day Service Codes

When services can be reported as ancillary to a per diem

The per diem codes used by the CMH system (inpatient, MH/DD ~~residential~~ community living support and personal care, respite, IOP, MH crisis residential) are inclusive of all services in the service code description. However, the CMH system is to report those other services that the consumer may receive during the day that are not included in the per diem bundle.

This rule also applies to SUD residential services (H0010, H0012, H0018 & H0019) and H0014 which is a non-residential day. As with CMH system per diem services, the additional services provided must not replace those services that are part of the SUD residential bundle. Examples of additional services that can be provided are Methadone services (H0020) and associated counseling from the Methadone clinic.

Two per diems cannot be reported on the same day

Per diem codes have a day in/day out rule as the person transfers between services that are both reported as a per diem. Examples are inpatient, ~~residential~~ personal care and community living support (T1020/H2016), detox (H0010/H0012), and SUD residential (H0018HF, H0019). The rule is that the 'day out' (i.e., discharge day) is not reported.

Same-Time Services Reporting

A residential per diem code cannot be reported on same day as an inpatient per diem code.

Services with the same description that are provided as both per diem services as well as some other unit measure cannot be reported on the same day.

- Cannot report H0045 or S5151 per diem **respite** with 15 minute **respite** (S5150, T1005).
- Cannot report **SUD treatment program** as both H2035 (hour) and H2036 (day) on the same day.
- Cannot report **CLS** H2016 (per diem) with **CLS** H2015 (15 minute) previously used for emergency staffing as both are Community Living Support and in the same location.
(See-documents on community living support for exceptions for the use of these two codes). The Department is reviewing the simultaneous use of these two codes on the same day for possible future changes.

When services can be reported on the same day as a 'day' code

Some service codes are reported as a day. These day codes can only be reported once on any given day. These are typically bundled services and any services that are part of the bundle cannot be reported separately.

- Partial Hospitalization (0912) is a bundled day service. Other services can be provided on this day as long as they are provided by a different provider and outside of the hours during which the partial hospitalization is occurring.
- Sub-acute detoxification ASAM Level I.D. (H0014) is an ambulatory, non-residential detox service and can be reported on the same day as other services. For example, admissions for outpatient treatment as a step down from H0014 can be reported on the same day.
- Other services can be provided outside of the time that intensive SUD outpatient (H0015) is provided. However, the other services cannot substitute for those services that are part of the H0015 requirement.

Same-Time Services Reporting

- Other services can be provided outside of the time that SUD treatment program and care coordination (H2036) is provided.

Other ambulatory/outpatient services that can be reported at same time

1. Treatment Planning (H0032) can be reported by an independent facilitator and all professional staff for the same session. In addition, it can be reported by multiple staff at same time that the case manager/supports coordinator also reports that time using their own code: T1016, T1017, H0039, H0036, ~~H2022~~, or H2021. It should be noted that only one staff person can attend an IPOS in the behavioral health case management role. In their role providing services and supports planning, Adult Peer Specialists and Recovery Coaches will report H0032 with their appropriate, respective modifiers. Youth Peer Support Specialists will report H0038 with the TJ modifier and Parent Support Partners S5111 with the HM modifier.
2. Only one encounter per consumer can be reported for Behavior Treatment Committee (H2000) regardless of how many staff are present. This service does not require face-to-face with consumer to be reported.
3. Family Training – Home Care Training (S5111) can be provided when the symptom bearer is not present at the same time as another service being provided to the symptom bearer. However, under certain circumstances, to be clinically sound, Family Training must be provided with the parent and child present. For example, if a parent is being trained by a PT on a treatment regimen or use of equipment specified in the plan, the beneficiary may need to be present during the training to effectively train the parent.
4. ABA Family Guidance Services 97156 and 97157, when the child not present, are allowed to be provided at the same time as another face-to-face service to the child by other qualified providers.
5. Parent peers can report Parent-to-parent support (S5111 – HM) at same time other services are being provided to the child. Also, the PIHP/CMHSP can report Parent Management Training Oregon S5111 HA if a provider is face-to-face with

Same-Time Services Reporting

the parent while another provider is working separately with the child (consumer).

6. The child is not present during Resource Parent Training (S5111 ST). Therefore, a parent of a child can attend Resource Parent Training at the same time as their child is receiving Trauma-focused CBT therapy.
7. ABA Behavior Identification Assessment (97151) can be reported at the same time as ABA Adaptive Behavior Treatment (97153 and 97154), ABA Exposure Adaptive Behavior Treatment (0373T), as well as potentially 97157 and 97158. **IF** there are two separate qualified providers. Note: the last two codes (97157 & 97158) cannot be the same provider billing the same time for different services.
*It should not typically overlap with 0362T, 97155, and 97156.
8. ABA Family Behavior Treatment Guidance with the family (97156 and 97157) and ABA Behavior Identification Assessment (97151) can be reported at the same time as Autism Adaptive Behavioral Treatment (97153-97154 or 0373T) face-to-face with the child. Clinical Observation and Direction can only be reported concurrently with ABA Family Treatment Guidance **IF** there are two separate qualified providers.

Reasoning:

97156 and 97157 can be provided without the child present.

97153-97154 ABA Treatment can be provided to the child while the family is receiving Guidance.

97155 Clinical Observation of the child receiving ABA can be done at this time also. Obviously, the same provider would not be able to provide Clinical Observation and Family Guidance services at the same time.

9. For ABA, Targeted Case Management and Supports Coordination can be provided at the same time as a beneficiary is receiving a direct ABA covered service; except for when an ABA provider is already conducting clinical observation & direction of the beneficiary and behavior technician; Case management should never overlap with 97155. Must document what case manager is doing and why – monitoring of the IPOS. Frequency of monitoring be reasonable and reflect the needs of the beneficiary.

Effective 10-1-2016 – revised March 2021

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements, Same-Time Services Reporting

Same-Time Services Reporting

10. ABA Behavioral follow-up assessment (0362T) and Autism Adaptive Behavioral Treatment (97153-97154 and 0373T) can be reported as the same time.
11. Face-to-face interactive Case Management monitoring (T1016/T1017) can be reported at the same time as in-home service such as community living support and personal care, and certain day-time activity services (clubhouse, supported employment, prevocational service, skill building, community activities). Professionals and specialty providers will report treatment plan monitoring (H0032-TS) at the same time that the consumer is receiving the service for which they are being monitored in the above settings.

The consumer must be present and have at least 15 minutes of interaction with the case manager/supports coordinator for the monitoring activity and the service being monitored to be reported at same time.

12. Face-to Face monitoring by home-based staff (H0036) and ACT (H0039) team members can be reported at the same time as day-time activity services. The consumer must be present and have at least 15 minutes of interaction with the home-based staff or ACT team member for the monitoring activity and the service being monitored to be reported at same time.
13. Supports Intensity Scale (SIS) Assessment. Per the Michigan SIS Implementation manual Community Living Support aides may bill concurrently if they are providing a CLS service at the same time as the SIS assessment. Case management/Supports Coordination may **not** be billed concurrently. These staff should account for their time as indirect/pre-planning activity, but they cannot report a CM/SC Service during the same time as attending the SIS assessment.

Specific scenarios in which two services cannot be reported together (Compiled in response to questions from PIHPs and CMHSPs)

- Case managers and supports coordinators cannot report their time spent accompanying a consumer to a medical visit as this activity is not part of the case management function. The CM/SC's time should be accounted for as indirect time.

Effective 10-1-2016 – revised March 2021

On the web at: <http://www.michigan.gov/bhdda> Reporting Requirements,
Same-Time Services Reporting

Same-Time Services Reporting

- Case managers and supports coordinators cannot report their time spent accompanying a consumer to a psychological evaluation or medication review as this activity is not part of the case management function. The CM/SC's time should be accounted for as indirect time.
- CMHSPs cannot report encounters for services such as home-based, mental health therapy, case management that are provided at the same time the consumer is attending Individualized Educational Plan (IEP).
- CLS aides **cannot** report Community Living Support services during a person-centered planning meeting unless they are providing Community Living Support during this time. Community Living Support service does not include the function of service and supports planning. The aide's time should be accounted for as indirect time.

Revised: September 2020
