1.0 General Report Overview

Effective October 1, 2017, the Michigan Department of Health and Human Services (MDHHS) has modified the functionality of the Financial Status Report (FSR) bundle. The modification to the FSR bundle is designed to increase reporting efficiency for the Community Mental Health Services Programs (CMHSPs) and the Prepaid Inpatient Health Plans (PIHPs). The FSR bundle will now allow FSR reporting specific to the needs of the reporting board. There are three FSR report types; CMHSP (Non-Medicaid reporting), PIHP (Medicaid/Affiliate CMHSP reporting) and Stand Alone (Detroit-Wayne, Oakland, Macomb). The selected FSR will only display the applicable report tabs, columns and rows.

Please note that the report tabs, columns and rows that are not applicable are hidden or relabeled to condense the FSR bundle. Additionally, the financial reporting instructions for each form within the FSR bundle have not been modified. All column, row, cell and formula references remain intact and should only be considered if applicable to the selected FSR.

The Financial Status Report (FSR) – Health Home Services is a report of all activity for the Prepaid Inpatient Health Plan (PIHP) for the provision of Health Home Services. Section 2703 of the Affordable Care Act allows State Medicaid programs to develop Health Home services for Medicaid beneficiaries with chronic conditions. The FSR – Health Home Services summarizes the revenues and expenditures of the PIHP related to the provision of Health Home Services.

Health Home services are authorized through a Medicaid State Plan Option that provides a comprehensive system of care coordination for Medicaid individuals with chronic conditions. Health home providers integrate and coordinate all primary, acute, behavioral health and long-term services and supports to treat the “whole-person” across the lifespan. The health home services include:

- Comprehensive care management;
- Care coordination;
- Health promotion;
- Comprehensive transitional care/follow-up;
- Patient and family support; and
- Referrals to community and social support services

Michigan designates Community Mental Health Service Programs (CMHSPs) as health homes that serve as the central point for directing patient-centered care, accountable for reducing avoidable health care costs (specifically preventing hospital admissions/readmissions and avoidable emergency room visits), providing timely post-discharge follow-up, and improving patient outcomes by addressing whole-person health care needs through provision of comprehensive, integrated behavioral health (mental

health and substance use disorder), medical, care coordination and management services.

Medicaid eligible adults with Serious Mental Illness (SMI) residing in an eligible county qualify for the provision of benefits described in the Health Home State Plan Amendment. Prepaid Inpatient Health Plans (PIHPs) and Medicaid Health Plans (MHPs) operating in an eligible county shall establish a care coordination agreement to assure service coordination and continuity of care for persons receiving services from both organizations, including persons with SMI who qualify for MHP Complex Case Management services.

The Health Homes Behavioral Health (HHBH) benefit is managed on a full risk basis by the PIHP. PIHPs shall develop and establish contracts with CMHSPs to ensure that the terms of the agreements between PIHPs and MHPs shall extend to CMHSPs as applicable, particularly those terms for ensuring sharing of information and collaborating on mutually shared beneficiaries.

A comparison will be made between revenue and expense to determine whether there is an overall surplus or deficit in funding. When a surplus in funding exists the unspent Health Home Services funds become local funds in the following FY. When an overall deficit exists, the PIHP must report what funding will be used to cover the costs above the capitation received.

The FSR – Health Home Services will be utilized by the Michigan Department of Health and Human Services (MDHHS) as a tool to monitor the fiscal operations of the PIHP. In addition, this report will provide the basis for the annual contract reconciliation of the MDHHS/PIHP Health Home Services.

The PIHP/CMHSP shall comply with Generally Accepted Accounting Principles, along with any other federal and state regulations as defined in the PIHP Contract. All revenue and expenditures are required to be reported on an accrual basis of accounting. As such, the revenue and expenditure amounts reported must include all earned reimbursements and/or obligations regardless of whether they have been billed or collected. Additionally, any adjustments for uncollectible amounts or write-offs should be included. The FSR – Health Home Services must reconcile to the PIHP's general ledger.

The PIHPs with affiliate CMHSPs for the provision of the Health Home Services will report summary level revenue and expenditure information in separate columns for each contract. The amounts reported by the PIHP should reconcile to the FSR – All Non-Medicaid – Section IC – PIHP to Affiliate Health Home Services Contracts for each affiliate CMHSP.

Report headers are shaded in light green.

Cells requiring data entry are shaded in yellow.

Cells that are formula driven and should not have data entered are shaded peach or light turquoise. The cells shaded in light turquoise represent sub-totals or totals.

Select cells have conditional formatting applied so that if an erroneous entry is made the cell will turn orange.

Worksheet protection has been enabled.

Precision as displayed functionality has been enabled. As such, Excel will utilize the displayed value instead of the stored value when it recalculates formulas.

The term “Submission Type” on the worksheet refers to the reporting period, i.e., Projection, Interim, and Final.

The following numbering / sequencing have been utilized in the FSR – Health Homes

100	Title row for revenue
101-189	Detail rows for reporting revenue.
190	Total row for revenue
200	Title row for expenditures
201-289	Detail rows for reporting expenditures.
290	Total row for expenditures
295	Sub-total row identifying net surplus (deficit) prior to any redirection
300	Title row for redirection of funds (TO) and FROM
301-389	Detail rows for reporting redirection. May include sub-totals.
390	Total row for redirection of funds (TO) and FROM
400	Total row identifying the variance between revenues and expenditures.

Column A: Column A is to be used by the reporting Regional Authority or PIHP for the revenues, expenditures, redirection of funds, sub-totals and totals.

Column B through H: Columns B through H will be used by the PIHP to report summary level information of their contracts with affiliate CMHSPs for the provision of the Health Home Benefit. The amounts reported by the PIHP should reconcile to the revenues, expenditures, redirection of funds, sub-totals and totals of the affiliate CMHSPs.

Column I: Column I is formula driven and represents the total revenues, expenditures and redirections entered in columns B through H.

Row Layout: For the most part, all rows contain an alpha reference, a numeric reference, a description and then the amount associated to the listed elements. The alpha reference refers to the Health Home Benefit. The number reference refers to the character of the line (revenue, expenditures, etc.). The description could be a label (revenue, expenditure, etc.) or a more detailed description of the item. The redirection rows include at the end of the description a reference to the partner row.

For example – AG 332 (FROM) Local Funds M301.4 the “M” refers to Local Fund, the 301.4 indicates that this row represents a redirection to another row the “AG 332” indicates that the partner row (FROM row) is in Section AG row 332.

REDIRECTS – (TO) FROM – Each PIHP/CMHSP is expected to maintain a balanced budget. However, it is acknowledged that funding and expenditures, by category may not

always be equal. The "Redirected Funds (To) From" sections will be the mechanism in which the PIHP/CMHSP will identify how any funding surplus or deficit was resolved by category. The "redirects" will identify how surplus funds are used by other programs or how deficits were covered by other funding sources. In either case, the funding source must be a legitimate source of funding for the program the funding is being redirected to cover.

Every "TO" redirection will have an offsetting "FROM" transaction. The converse is also true, for every "FROM" redirection there will be a "TO" transaction. The "TO" and "From" amounts will be equal; thus, all redirections will sum to zero. Following is an example:

AG 331 FROM General Fund – Redirected to Unfunded Health Home Services costs – B 301.4 $10

This line is within the General fund section and indicates that $10 is being received "FROM" the GF section to fund Health Home Services expenditures that exceed Health Home Services funding.

B 301.4 (TO) Health Home Services – Redirected for Unfunded Health Home Services (AG 331) ($10)

This line is within the FSR - All Non-Medicaid – General Fund Section and indicates that $10 is being redirected "(TO)" the FSR – Health Home to fund the PIHP share of a funding deficit.

Redirection amounts are entered in the FROM redirects and automatically linked to the TO redirects as the opposite or converse amount.
