Capitol Commons Center

P.O. Box 30479
Lansing, Michigan 48909

Dear Mr. Priest:

The Centers for Medicare & Medicaid Services (CMS) approves an amendment to Michigan's 1915(b)(4) for the Healthy Kids Dental Program to open enrollment into the final three counties: Wayne, Oakland and Kent for children ages 13-20. This amendment also modifies administrative requirements to allow Michigan Department of Health and Human Service to separate out and report the administrative costs to CMS. The CMS has assigned this waiver amendment control number MI-15.R03.01. The effective date of this amendment is October 1, 2016.

The CMS approves the state's request to utilize the §1915(b)(4) authority of the Social Security Act to contract for the provision of services.

The CMS has based this decision on evidence the state submitted that demonstrates the information contained in the 1915(b) waiver amendment is consistent with the purposes of the Medicaid program, as well as other assurances that the state will meet all applicable statutory and regulatory requirements in the operation of this 1915(b) waiver program.

If you have any questions, please contact Keri Toback at (312) 353-1754 or Keri.Toback@cms.hhs.gov.

Sincerely,

/s/

Ruth A. Hughes
Associate Regional Administrator
Division of Medicaid and Children's Health Operations

Program History.

For renewal waivers, please provide a brief history of the program(s) authorized under the waiver. Include implementation date and major milestones (phase-in timeframe; new populations added; major new features of existing program; new programs added).

In 1997-98, the Michigan Department of Community Health (now the Michigan Department of Health and Human Services), which administers Michigan's Medicaid and MICHild programs convened a Task Force to evaluate long standing problems in Medicaid's dental program. The Task Force proposed budgetary increases, new administrative options, and a new delivery system. With political support from a broad array of stakeholders, primarily the Michigan Primary Care Association, University of Michigan Dental School and Michigan Dental Association, the state legislature appropriated \$10.9 million for FY 2000 to expand access to oral health services for Medicaid beneficiaries, focusing on rural areas. Approximately half the appropriation was used to create a new Medicaid managed care dental service delivery model, called Healthy Kids Dental (HKD).

Healthy Kids Dental functions similar to commercial dental insurance. In establishing HKD as a demonstration within specific counties, the MDCH contracted with a dental insurance carrier, Delta Dental Plan of Michigan - a nonprofit service corporation that administers group dental benefits for more than 3 million people - to administer the Medicaid dental benefit in accordance with its own standard procedures, claim form, and payment levels and mechanisms. HKD enrollees receive a member identification card that looks very similar to that given to commercial enrollees and may use any Delta network dentist. In May 2000, the state converted the traditional dental coverage of all Medicaid-enrolled children in 22 of Michigan's 83 counties to HKD.

Since the inception of the program, Michigan has expanded the service area covered by the HKD program on several occasions.

October 2000 - added 15 counties to the original 22 (total number of counties served by HKD increased to 37)

May 2006 - added 22 counties (total number of counties served by HKD increased to 59)

July 2008 - added 2 urban counties (total number of counties served by HKD increased to 61)

February 2012 - added 4 counties (total number of counties served by HKD increased to 65)

October 2012 - added 10 counties (total number of counties served by HKD increased to 75)

October 2013 - added 3 counties (total number of counties served by HKD increased to 78)

October 2014 - added 2 counties (total number of counties served by HKD increased to 80)

October 2015 - added 3 counties for children aged 0-12 (total number of counties served by HKD increased to 83)

With the addition of 3 counties in October 2015 for children aged 0-12, all 83 Michigan counties are served by HKD.

In 2009, Healthy Kids Dental contract was included in the Contracts Management module of new Medicaid Management Information System (CHAMPS). This facilitates tracking the number of children with both commercial and Healthy Kids Dental insurance. In 2010, the submission and monitoring of encounter data was also incorporated into CHAMPS. This enables the Department to produce regular and ad hoc reports on the types and number of dental services provided to Medicaid beneficiaries.

In 2010, administration of the Healthy Kids Dental waiver program transferred to the Managed Care Plan Division to allow Michigan to take advantage of economies of scale in the management of the contract. The transfer also allows Michigan to better monitor the contract by learning from best practices developed through the monitoring of the Medicaid Health Plans.

In 2016 Michigan expands the age range to include ages 13-20 for children who reside in Wayne, Oakland and Kent counties who will be served by HKD. Now all 83 Michigan counties are served by HKD.

☒ **HKD**
 - b. ☐ **1915(b)(2)** - A locality will act as a central broker (agent, facilitator, negotiator) in assisting eligible individuals in choosing among PCCMs or competing MCOs/PIHPs/PAHPs in order to provide enrollees with more information about the range of health care options open to them.
 -- Specify Program Instance(s) applicable to this authority
☐ **HKD**
 - c. ☐ **1915(b)(3)** - The State will share cost savings resulting from the use of more cost-effective medical care with enrollees by providing them with additional services. The savings must be expended for the benefit of the Medicaid beneficiary enrolled in the waiver. Note: this can only be requested in conjunction with section 1915(b)(1) or (b)(4) authority.
 -- Specify Program Instance(s) applicable to this authority
☐ **HKD**
 - d. ☒ **1915(b)(4)** - The State requires enrollees to obtain services only from specified providers who undertake to provide such services and meet reimbursement, quality, and utilization standards which are consistent with access, quality, and efficient and economic provision of covered care and services. 1. **Delivery Systems.** The State will be using the following systems to deliver services:

- a. ☐ **MCO:** Risk-comprehensive contracts are fully-capitated and require that the contractor be an MCO

or HIO. Comprehensive means that the contractor is at risk for inpatient hospital services and any other mandatory State plan service in section 1905(a), or any three or more mandatory services in that section. References in this preprint to MCOs generally apply to these risk-comprehensive entities.

C. Choice of MCOs, PIHPs, PAHPs, and PCCMs (1 of 3)

1. Assurances.

- ☒ The State assures CMS that it complies with section 1932(a)(3) of the Act and 42 CFR 438.52, which require that a State that mandates Medicaid beneficiaries to enroll in an MCO, PIHP, PAHP, or PCCM must give those beneficiaries a choice of at least two entities.
- ☒ The State seeks a waiver of section 1932(a)(3) of the Act, which requires States to offer a choice of more than one PIHP or PAHP per 42 CFR 438.52. Please describe how the State will ensure this lack of choice of PIHP or PAHP is not detrimental to beneficiaries' ability to access services.

Based on the county of residence and beneficiary age, eligible beneficiaries are automatically enrolled with the dental Contractor. The State of Michigan has a single dental Contractor operating a robust network of dentists throughout the state that includes 75-80% of licensed dental providers in Michigan. Beneficiaries enrolled with the Contractor receive a member packet that describes the dental plan including a list of participating dentists in their geographical area. Beneficiaries have freedom of choice among the participating dentists in the network. The Contractor has customer service staff to assist beneficiaries with locating and choosing a dentist.

2. Details. The State will provide enrollees with the following choices (please replicate for each program in waiver):

Program: "Healthy Kids Dental."

- ☐ Two or more MCOs
- ☐ Two or more primary care providers within one PCCM system.
- ☐ A PCCM or one or more MCOs
- ☐ Two or more PIHPs.
- ☐ Two or more PAHPs.

3. Rural Exception.

- ☐ The State seeks an exception for rural area residents under section 1932(a)(3)(B) of the Act and 42 CFR 438.52 (b), and assures CMS that it will meet the requirements in that regulation, including choice of physicians or case managers, and ability to go out of network in specified circumstances. The State will use the rural exception in the following areas ("rural area" must be defined as any area other than an "urban area" as defined in 42 CFR 412.62 (f)(1)(ii)):

4. 1915(b)(4) Selective Contracting.

2. Details on MCO/PIHP/PAHP enrollees with special health care needs.

Please describe the enrollment limits and how each is determined:

- d. ☐ **Treatment Plans.** For enrollees with special health care needs who need a course of treatment or regular

care monitoring, the State requires the MCO/PIHP/PAHP to produce a treatment plan. If so, the treatment plan meets the following requirements:

1. ☐ Developed by enrollees' primary care provider with enrollee participation, and in consultation with any specialists' care for the enrollee.
2. ☐ Approved by the MCO/PIHP/PAHP in a timely manner (if approval required by plan).
3. ☐ In accord with any applicable State quality assurance and utilization review standards.

Please describe:

- e. ☐ **Direct access to specialists.** If treatment plan or regular care monitoring is in place, the MCO/PIHP/PAHP has a mechanism in place to allow enrollees to directly access specialists as appropriate for enrollee's condition and identified needs.

For each activity, the state must provide the following information:

Section C: Monitoring Results

Renewal Waiver Request

Section 1915(b) of the Act and 42 CFR 431.55 require that the State must document and maintain data regarding the effect of the waiver on the accessibility and quality of services as well as the anticipated impact of the project on the State's Medicaid program. In Section B of this waiver preprint, the State describes how it will assure these requirements are met. For an initial waiver request, the State provides assurance in this Section C that it will report on the results of its monitoring plan when it submits its waiver renewal request. For a renewal request, the State provides evidence that waiver requirements were met for the most recent waiver period. Please use Section D to provide evidence of cost-effectiveness.

CMS uses a multi-pronged effort to monitor waiver programs, including rate and contract review, site visits, reviews of External Quality Review reports on MCOs/PIHPs, and reviews of Independent Assessments. CMS will use the results of these activities and reports along with this Section to evaluate whether the Program Impact, Access, and Quality requirements of the waiver were met.

This is a renewal request.

- ☐ **This is the first time the State is using this waiver format to renew an existing waiver.** The State provides below the results of the monitoring activities conducted during the previous waiver period.
- ☒ **The State has used this format previously** The State provides below the results of the monitoring activities conducted during the previous waiver period.

For each of the monitoring activities checked in Section B of the previous waiver request, the State should:

- **Confirm** it was conducted as described in Section B of the previous waiver preprint. If it was not done as described, please explain why.
- **Summarize the results** or findings of each activity. CMS may request detailed results as appropriate.
- **Identify problems** found, if any.
- **Describe plan/provider-level corrective action**, if any, that was taken. The State need not identify the provider/plan by name, but must provide the rest of the required information.
- **Describe system-level program changes**, if any, made as a result of monitoring findings.

The Monitoring Activities were conducted as described:

☒ **Yes** ☐ **No**

If No, please explain:

Provide the results of the monitoring activities:

The Quality Improvement and Program Development section of the Managed Care Plan Division chooses quality measures and sets standards based on specific targets and past performance.

The annual Compliance Review examines the dental Contractor's policies and procedures to assure compliance with Medicaid regulations, quality measures and standards, and program integrity. The Compliance Review Tool is provided to the Contractor and the results are reviewed by the State.

The Contractor has successfully demonstrated compliance with all monitoring activities. When discrepancies have been found throughout the waiver period, the Contractor has cooperated fully with corrective action requests by the State and

made the required changes.

A. Assurances

a. [Required] Through the submission of this waiver, the State assures CMS:

- The fiscal staff in the Medicaid agency has reviewed these calculations for accuracy and attests to their correctness.
- The State assures CMS that the actual waiver costs will be less than or equal to or the State's waiver cost projection.
- Capitated rates will be set following the requirements of 42 CFR 438.6(c) and will be submitted to the CMS Regional Office for approval.
- Capitated 1915(b)(3) services will be set in an actuarially sound manner based only on approved 1915(b)(3) services and their administration subject to CMS RO prior approval.
- The State will monitor, on a regular basis, the cost-effectiveness of the waiver (for example, the State may compare the PMPM Actual Waiver Cost from the CMS 64 to the approved Waiver Cost Projections). If changes are needed, the State will submit a prospective amendment modifying the Waiver Cost Projections.
- The State will submit quarterly actual member month enrollment statistics by MEG in conjunction with the State's submitted CMS-64 forms.

- ☒ **date of payment.**
- ☐ **date of service within date of payment. The State understands the additional reporting requirements in the CMS-64 and has used the cost effectiveness spreadsheets designed specifically for reporting by date of service within day of payment. The State will submit an initial test upon the first renewal and then an initial and final test (for the preceding 4 years) upon the second renewal and thereafter.**

Section D: Cost-Effectiveness

Part I: State Completion Section

B. Expedited or Comprehensive Test

To provide information on the waiver program to determine whether the waiver will be subject to the Expedited or Comprehensive cost effectiveness test. *Note: All waivers, even those eligible for the Expedited test, are subject to further review at the discretion of CMS and OMB.*

- b.** ☐ The State provides additional services under 1915(b)(3) authority.
- c.** ☐ The State makes enhanced payments to contractors or providers.
- d.** ☒ The State uses a sole-source procurement process to procure State Plan services under this waiver.
- e.** ☐ The State uses a sole-source procurement process to procure State Plan services under this waiver. *Note: do not mark this box if this is a waiver for transportation services and dental pre-paid ambulatory health plans (PAHPs) that has overlapping populations with another waiver meeting one of these three criteria. For transportation and dental waivers alone, States do not need to consider an overlapping population with another waiver containing additional services, enhanced payments, or sole source procurement as a trigger for the comprehensive waiver test. However, if the transportation services or dental PAHP waiver meets the criteria in a, b, or c for additional services, enhanced payments, or sole source procurement then the State should mark the appropriate box and process the waiver using the Comprehensive Test.*

If you marked any of the above, you must complete the entire preprint and your renewal waiver is subject to the Comprehensive Test. If you did not mark any of the above, your renewal waiver (not conversion or initial waiver) is subject to the Expedited Test:

- Do not complete **Appendix D3**
- Your waiver will not be reviewed by OMB *at the discretion of CMS and OMB.*

The following questions are to be completed in conjunction with the Worksheet Appendices. All narrative explanations should be included in the preprint. Where further clarification was needed, we have included additional information in the preprint.

Section D: Cost-Effectiveness**Part I: State Completion Section****D. PCCM portion of the waiver only: Reimbursement of PCCM Providers**

Under this waiver, providers are reimbursed on a fee-for-service basis. PCCMs are reimbursed for patient management in the following manner (please check and describe):

- a. ☐ **Management fees are expected to be paid under this waiver.**
The management fees were calculated as follows.
 - 1. ☐ Year 1: \$ per member per month fee.
 - 2. ☐ Year 2: \$ per member per month fee.
 - 3. ☐ Year 3: \$ per member per month fee.
 - 4. ☐ Year 4: \$ per member per month fee.
- b. ☐ **Enhanced fee for primary care services.**
Please explain which services will be affected by enhanced fees and how the amount of the enhancement was determined.
- c. ☐ **Bonus payments from savings generated under the program are paid to case managers who control beneficiary utilization.** Under **D.I.H.d.**, please describe the criteria the State will use for awarding the incentive payments, the method for calculating incentives/bonuses, and the monitoring the State will have in place to ensure that total payments to the providers do not exceed the Waiver Cost Projections (Appendix D5). Bonus payments and incentives for reducing utilization are limited to savings of State Plan service costs under the waiver. Please also describe how the State will ensure that utilization is not adversely affected due to incentives inherent in the bonus payments. The costs associated with any bonus arrangements must be accounted for in Appendix D3. Actual Waiver Cost.
- d. ☐ **Other reimbursement method/amount.**
\$
Please explain the State's rationale for determining this method or amount.

Section D: Cost-Effectiveness

Part I: State Completion Section**E. Member Months**

Please mark all that apply.

- a. ☒ [Required] Population in the base year and R1 and R2 data is the population under the waiver.
- b. ☐ For a renewal waiver, because of the timing of the waiver renewal submittal, the State did not have a complete R2 to submit. Please ensure that the formulas correctly calculated the annualized trend rates. *Note: it is no longer acceptable to estimate enrollment or cost data for R2 of the previous waiver period.*
- c. ☒ [Required] Explain the reason for any increase or decrease in member months projections from the base year or over time:
An expansion to additional counties is occurring on October 1, 2015, which will add about 266,000 lives. This expansion will be to Kent, Oakland, and Wayne counties for children aged 12 and under. Thus, the prospective quarters included in the waiver renewal time period reflect the current membership plus the new enrollment as of October 1, 2015. Additionally, these three counties will expand to include children aged 13 and over on October 1, 2016. This expansion will add about 375,000 lives. Enrollment is assumed to increase by 1% annualized trend in future time periods.
- d. ☐ [Required] Explain any other variance in eligible member months from BY/R1 to P2:
- e. ☒ [Required] Specify whether the BY/R1/R2 is a State fiscal year (SFY), Federal fiscal year (FFY), or other period:
R1/R2 are neither a SFY or FFY. R1 is the calendar year from 01/01/2014 to 12/31/2014 and R2 is the eight month period from 01/01/2015 to 08/31/2015.

Appendix D1 – Member Months**Section D: Cost-Effectiveness****Part I: State Completion Section****F. Appendix D2.S - Services in Actual Waiver Cost**

For Conversion or Renewal Waivers:

- a. ☐ [Required] Explain if different services are included in the Actual Waiver Cost from the previous period in Appendix D3 than for the upcoming waiver period in Appendix D5.
Explain the differences here and how the adjustments were made on Appendix D5:

- b. ☒ [Required] Explain the exclusion of any services from the cost-effectiveness analysis.
For States with multiple waivers serving a single beneficiary, please document how all costs for waiver covered individuals taken into account.

The only services included in this waiver are dental services. All other services are included in the 1915(b) (4) Comprehensive Health Care Program waiver.

G. Appendix D2.A - Administration in Actual Waiver Cost

[Required] The State allocated administrative costs between the Fee-for-service and managed care program depending upon the program structure. *Note: initial programs will enter only FFS costs in the BY. Renewal and Conversion waivers will enter all waiver and FFS administrative costs in the R1 and R2 or BY.*

The allocation method for either initial or renewal waivers is explained below:

- ☐ The State allocates the administrative costs to the managed care program based upon the number of waiver enrollees as a percentage of total Medicaid enrollees *Note: this is appropriate for MCO/PCCM programs.*
- ☒ The State allocates administrative costs based upon the program cost as a percentage of the total Medicaid budget. It would not be appropriate to allocate the administrative cost of a mental health program based upon the percentage of enrollees enrolled. *Note: this is appropriate for statewide PIHP/PAHP programs.*

- ☐ The State is requesting a 1915(b)(3) waiver in **Section A.I.A.1.c** and will be providing non-state plan medical services. The State will be spending a portion of its waiver savings for additional services under the waiver.
- ☐ **The State is including voluntary populations in the waiver.**
Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

- ☒ **Capitated portion of the waiver only -- Reinsurance or Stop/Loss Coverage:** Please note how the State will be providing or requiring reinsurance or stop/loss coverage as required under the regulation. States may require MCOs/PIHPs/PAHPs to purchase reinsurance. Similarly, States may provide stop-loss coverage to MCOs/PIHPs/PAHPs when MCOs/PIHPs/PAHPs exceed certain payment thresholds for individual enrollees. Stop loss provisions usually set limits on maximum days of coverage or number of services for which the MCO/PIHP/PAHP will be responsible. If the State plans to provide stop/loss coverage, a description is required. The State must document the probability of incurring costs in excess of the stop/loss level and the frequency of such occurrence based on FFS experience. The expenses per capita (also known as the stoploss premium amount) should be deducted from the capitation year projected costs. In the initial application, the effect should be neutral. In the renewal report, the actual reinsurance cost and claims cost should be reported in Actual Waiver Cost.

Basis and Method:

1. ☒ **The State does not provide stop/loss protection for MCOs/PIHPs/PAHPs, but requires MCOs/PIHPs/PAHPs to purchase reinsurance coverage privately. No adjustment was**

necessary.

2. ☐ **The State provides stop/loss protection**

Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

- ☐ **Incentive/bonus/enhanced Payments for both Capitated and fee-for-service Programs:**

1. ☐ **[For the capitated portion of the waiver] the total payments under a capitated contract include any incentives the State provides in addition to capitated payments under the waiver program.**
The costs associated with any bonus arrangements must be accounted for in the capitated costs (Column D of Appendix D3 Actual Waiver Cost). Regular State Plan service capitated adjustments would apply.

Document

- i. Document the criteria for awarding the incentive payments.
- ii. Document the method for calculating incentives/bonuses, and
- iii. Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs do not exceed the Waiver Cost Projection.

2. ☐ **For the fee-for-service portion of the waiver, all fee-for-service must be accounted for in the fee-for-service incentive costs (Column G of Appendix D3 Actual Waiver Cost).).** For PCCM providers, the amount listed should match information provided in D.I.D Reimbursement of Providers. Any adjustments applied would need to meet the special criteria for fee-for-service incentives if the State elects to provide incentive payments in addition to management fees under the waiver program (See D.I.I.e and D.I.J.e)

Document:

- i. Document the criteria for awarding the incentive payments.
- ii. Document the method for calculating incentives/bonuses, and
- iii. Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs/PCCMs do not exceed the Waiver Cost Projection.

J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (1 of 5)

- a. State Plan Services Trend Adjustment** – the State must trend the data forward to reflect cost and utilization increases. The R1 and R2 (BY for conversion) data already include the actual Medicaid cost changes for the population enrolled in the program. This adjustment reflects the expected cost and utilization increases in the managed care program from R2 (BY for conversion) to the end of the waiver (P2). Trend adjustments may be service-specific and expressed as percentage factors. Some states calculate utilization and cost separately, while other states calculate a single trend rate. The State must document the method used and how utilization and cost increases are not duplicative if they are calculated separately. **. This adjustment must be mutually exclusive of programmatic/policy/pricing changes and CANNOT be taken twice. The State must document how it ensures there is no duplication with programmatic/policy/pricing changes.**

1. ☒ [Required, if the State's BY or R2 is more than 3 months prior to the beginning of P1] The State is using actual State cost increases to trend past data to the current time period (i.e., trending from 1999 to present).

The actual trend rate used is:

Please document how that trend was calculated:

1.67% is the total trend used to go from R2 to P1. This is a blend of a 0.3% reduction to the historical experience due to the newly eligible population of children aged twelve and under that are lower cost, the known capitation rate changes effective 10/1/15, and the assumed inflationary increase for 10/1/16.

2. ☒ [Required, to trend BY/R2 to P1 and P2 in the future] When cost increases are unknown and in the future, the State is using a predictive trend of either State historical cost increases or national or regional factors that are predictive of future costs (same requirement as capitated ratesetting regulations) (i.e., trending from present into the future).

- i. ☒ State historical cost increases.

Please indicate the years on which the rates are based: base years. In addition, please indicate the mathematical method used (multiple regression, linear regression, chi-square, least squares, exponential smoothing, etc.). Finally, please note and explain if the State's cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

Using R2 as the historical basis, as established by the Appendix D workbook template, P1 costs were projected based on the certified capitation rates for State Fiscal Year (SFY) 2016, which encompasses the first 9 months of P1 and an additional 4.0% rate increase at October 1, 2016. Incorporated in the rate increase at October 1, 2015 is a 1.0% appropriation for payment of the ACA Health Insurer Assessment Fee. For P1, the composite rate increase from R2 is split between a program adjustment (the known October 1, 2015 rate increase) and state plan inflation (the assumed October 1, 2016 rate increase).

For P2, an additional 4.0% rate increase is assumed to be effective October 1, 2017, thereby creating a composite 4.0% rate increase from P1 to P2. There is also a 5.9% population expansion program adjustment applied to P2. This is due to the age group that is included in the October 1, 2016 expansion being a historically higher cost population. Additionally, a trend of 3.5% is being applied to administrative costs.

- ii. ☐ National or regional factors that are predictive of this waiver's future costs.

Please indicate the services and indicators used. In addition, please indicate how this factor was determined to be predictive of this waiver's future costs. Finally, please note and explain if the State's cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

3. ☐ **The State estimated the PMPM cost changes in units of service, technology and/or practice patterns that would occur in the waiver separate from cost increase.**

Utilization adjustments made were service-specific and expressed as percentage factors. The State has documented how utilization and cost increases were not duplicated. This adjustment reflects the changes in utilization between R2 and P1 and between years P1 and P2.

- i. **Please indicate the years on which the utilization rate was based (if calculated separately only).**
- ii. **Please document how the utilization did not duplicate separate cost increase trends.**

J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (2 of 5)

- b. **State Plan Services Programmatic/Policy/Pricing Change Adjustment:** This adjustment should account for any programmatic changes that are not cost neutral and that affect the Waiver Cost Projection. For example, changes in rates, changes brought about by legal action, or changes brought about by legislation. For example, Federal mandates, changes in hospital payment from per diem rates to Diagnostic Related Group (DRG) rates or changes in the benefit coverage of the FFS program. **This adjustment must be mutually exclusive of trend and CANNOT be taken twice. The State must document how it ensures there is no duplication with trend.** If the State is changing one of the aspects noted above in the FFS State Plan then the State needs to estimate the impact of that adjustment. *Note: FFP on rates cannot be claimed until CMS approves the SPA per the 1/2/01 SMD letter. Prior approval of capitation rates is contingent upon approval of the SPA.* The R2 data was adjusted for changes that will occur after the R2 (BY for conversion) and during P1 and P2 that affect the overall Medicaid program.

Others:

- Additional State Plan Services (+)
- Reductions in State Plan Services (-)
- Legislative or Court Mandated Changes to the Program Structure or fee
- Graduate Medical Education (GME) Changes - This adjustment accounts for **changes** in any GME payments in the program. 42 CFR 438.6(c)(5) specifies that States can include or exclude GME payments from the capitation rates. However, GME payments must be included in cost-effectiveness calculations.
- Copayment Changes - This adjustment accounts for changes from R2 to P1 in any copayments that are collected under the FFS program, but not collected in the MCO/PIHP/PAHP capitated program. States must ensure that these copayments are included in the Waiver Cost Projection if not to be collected in the capitated program. If the State is changing the copayments in the FFS program then the State needs to estimate the impact of that adjustment.

1. ☐ The State has chosen not to make an adjustment because there were no programmatic or policy changes in the FFS program after the MMIS claims tape was created. In addition, the State anticipates no programmatic or policy changes during the waiver period.

J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (3 of 5)

- c. **Administrative Cost Adjustment:** This adjustment accounts for changes in the managed care program. The administrative expense factor in the renewal is based on the administrative costs for the eligible population participating in the waiver for managed care. Examples of these costs include per claim claims processing costs, additional per record PRO review costs, and additional Surveillance and Utilization Review System (SURS) costs; as well as actuarial contracts, consulting, encounter data processing, independent assessments, EQRO reviews, etc. *Note: one-time administration costs should not be built into the cost-effectiveness test on a long-term basis. States should use all relevant Medicaid administration claiming rules for administration costs they attribute to the managed care program.* If the State is changing the administration in the fee-for-service program then the State needs to estimate the impact of that adjustment.

1. ☐ No adjustment was necessary and no change is anticipated.
2. ☒ An administrative adjustment was made.

- iii. ☐ [Required, when State Plan services were purchased through a sole source procurement with a governmental entity. No other State administrative adjustment is allowed.] If cost increase trends are unknown and in the future, the State must use the lower of: Actual State administration costs trended forward at the State historical administration trend rate or Actual State administration costs trended forward at the State Plan services trend rate. Please document both trend rates and indicate which trend rate was used.

- A. Actual State Administration costs trended forward at the State historical administration trend rate.

Please indicate the years on which the rates are based: base years

In addition, please indicate the mathematical method used (multiple regression, linear regression, chi-square, least squares, exponential smoothing, etc.). Finally, please note and explain if the State's cost increase calculation includes more factors than a price increase.

- d. **1915(b)(3) Adjustment:** The State must document the amount of State Plan Savings that will be used to provide additional 1915(b)(3) services in **Section D.I.H.a** above. The Base Year already includes the actual trend for the State Plan services in the program. This adjustment reflects the expected trend in the 1915(b)(3) services between the Base Year and P1 of the waiver and the trend between the beginning of the program (P1) and the end of the program (P2). Trend adjustments may be service-specific and expressed as percentage factors.

1. ☐ [Required, if the State's BY is more than 3 months prior to the beginning of P1 to trend BY to P1]
The State is using the actual State historical trend to project past data to the current time period (i.e., trending from 1999 to present).
The actual documented trend is:

Please provide documentation.
2. ☐ [Required, when the State's BY is trended to P2. No other 1915(b)(3) adjustment is allowed] If trends are unknown and in the future (i.e., trending from present into the future), the State must use the lower of State historical 1915(b)(3) trend or State's trend for State Plan Services. Please document both trend rates and indicate which trend rate was used.

2. Please provide documentation.

B. State Plan Service trend

Please indicate the State Plan Service trend rate from Section D.I.I.a. above

- e. **Incentives (not in capitated payment) Trend Adjustment:** If the State marked **Section D.I.H.d**, then this adjustment reports trend for that factor. Trend is limited to the rate for State Plan services.

1. List the State Plan trend rate by MEG from Section D.I.I.a

2. List the Incentive trend rate by MEG if different from Section D.I.I.a

3. Explain any differences:

Section D: Cost-Effectiveness**Part I: State Completion Section****J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (5 of 5)**

- p. **Other adjustments** including but not limited to federal government changes.

■

- If the federal government changes policy affecting Medicaid reimbursement, the State must adjust P1 and P2 to reflect all changes.
- Once the State's FFS institutional excess UPL is phased out, CMS will no longer match excess institutional UPL payments.

■

- Excess payments addressed through transition periods should not be included in the 1915(b) cost effectiveness process. Any State with excess payments should exclude the excess

amount and only include the supplemental amount under 100% of the institutional UPL in the cost effectiveness process.

- For all other payments made under the UPL, including supplemental payments, the costs should be included in the cost effectiveness calculations. This would apply to PCCM enrollees and to PAHP, PIHP or MCO enrollees if the institutional services were provided as FFS wrap around. The recipient of the supplemental payment does not matter for the purposes of this analysis.
- **Pharmacy Rebate Factor Adjustment (Conversion Waivers Only) ***: Rebates that States receive from drug manufacturers should be deducted from Base Year costs if pharmacy services are included in the capitated base. If the base year costs are not reduced by the rebate factor, an inflated BY would result. Pharmacy rebates should also be deducted from FFS costs if pharmacy services are impacted by the waiver but not capitated.

Basis and Method:

1. ☐ Determine the percentage of Medicaid pharmacy costs that the rebates represent and adjust the base year costs by this percentage. States may want to make separate adjustments for prescription versus over the counter drugs and for different rebate percentages by population. States may assume that the rebates for the targeted population occur in the same proportion as the rebates for the total Medicaid population **which includes accounting for Part D dual eligibles**. Please account for this adjustment in **Appendix D5**.
2. ☐ The State has not made this adjustment because pharmacy is not an included capitation service and the capitated contractor's providers do not prescribe drugs that are paid for by the State in FFS **or Part D for the dual eligibles**.
3. ☐ Other

Please describe:

1. ☐ No adjustment was made.
2. ☐ This adjustment was made. This adjustment must be mathematically accounted for in Appendix D5.

1. Please explain caseload changes contributing to the overall annualized rate of change in Appendix D7 Column I. This response should be consistent with or the same as the answer given by the State in Section D.I.E.c & d:

An expansion to additional counties is occurring on October 1, 2015, which will add about 266,000 lives. This expansion will be to Kent, Oakland, and Wayne counties for children aged 12 and under. Thus, the prospective quarters included in the waiver renewal time period reflect the current membership plus the new enrollment as of October 1, 2015. Additionally, these three counties will expand to include children aged 13 and over on October 1, 2016. This expansion will add about 375,000 lives. Enrollment is assumed to increase by 1% annualized trend in future time periods.

2. Please explain unit cost changes contributing to the overall annualized rate of change in Appendix D7 Column I. This response should be consistent with or the same as the answer given by the State in the State's explanation of cost increase given in Section D.I.I and D.I.J:

Using R2 as the historical basis, as established by the Appendix D workbook template, P1 costs were projected based on the certified capitation rates for State Fiscal Year (SFY) 2016, which encompasses the first 9 months of P1 and an additional 4.0% rate increase at October 1, 2016. Incorporated in the rate increase at October 1, 2015 is a 1.0% appropriation for payment of the ACA Health Insurer Assessment Fee. There is also a 5.9% population expansion program adjustment applied to P2. This is due to the age group that is included in the October 1, 2016 expansion being a historically higher cost population.
