INTEGRATIVE INFORMATION

ImageTrend Patient Registry integrates information across the entire medical community, allowing data to flow from the ambulance to the hospital to state and national registries. Hospitals have secure access to their own patient registry information.

Working with the medical community, ImageTrend has kept its focus on simplifying and streamlining data collection, so that a wealth of data can quickly and easily be collected and made available for in-depth analysis at all levels.

PLEASE READ THIS PRIVACY STATEMENT CAREFULLY

By accepting this Data Privacy Statement, you agree to keep the information contained within this site private and confidential. Any reporting or exporting of data must comply with industry standards and best practices for data privacy and adhering to all applicable federal and state data privacy requirements. It is the responsibility of the user to ensure all applicable requirements are adhered to.

The State has taken steps to ensure that all information contained within this site is secure to protect against unauthorized access and use. All information is protected by our security measures, which are periodically reviewed. Information is protected through the use of passwords, strictly controlled server access, physical security of the hosting site, and 128-bit SSL encryption.

Although the State can assure the security and privacy of the data that has been submitted, we have no control over how individual users may handle their own data, either before or after they have submitted data. In order to protect the security and privacy of your records before or after you have submitted data, we recommend adopting the following procedures/practices:

- 1) Do not send incident records via email. Email does not offer the same level of security as submitting data via the internet to the ImageTrend Trauma Bridge because it is not encrypted.
- 2) Only assign user names and passwords to individuals who have responsibility for the ImageTrend Trauma Bridge.
- 3) Regularly change passwords.

ImageTrend - University

The screenshot shows the ImageTrend Michigan Patient Registry dashboard. At the top, there is a navigation bar with links for Facilities, Data Exchange, Report Writer, and a 'More' dropdown menu. The 'More' menu is highlighted with a red arrow labeled '1) Click Here'. Below the navigation bar, there are tabs for Staff, Users, and Setup. The main content area is titled 'My Dashboard' and contains several widgets: 'Admits to Review' (a table with columns for Validity Date, Medical Record Number, Registry #, Patient Type, and Status), 'Most Recent Messages' (a section with 'No recent messages!' and a 'View All Messages' link), 'Support Contacts' (listing ImageTrend Inc. with phone and email), 'Quick Links' (a table with columns for Link and Actions, containing 'Facility Messaging', 'Add Incident', and 'Michigan Trauma System'), 'Code Conversion' (with radio buttons for ICD-9 to ICD-10 and ICD-10 to ICD-9, and a search field), and 'Sticky Note' (a yellow sticky note). A footer at the bottom indicates 'Michigan Patient Registry © 2016 ImageTrend, Inc. | This page was rendered in 1.19 seconds'.

The screenshot shows the ImageTrend University website. The top navigation bar includes a search field and 'All Files' with a search icon. A 'Contents' sidebar on the left lists various topics, with a red arrow labeled 'Select Area' pointing to the 'Introduction to Patient Registry' item. The main content area displays the article 'INTRODUCTION TO PATIENT REGISTRY'. The article text states: 'Patient Registry is a multi-disciplined registry system that collects and analyzes information on the incident, severity, causes and outcomes of trauma, stroke, STEMI, etc. to evaluate factors and the health system's response. The system seamlessly integrate pre-hospital EMS incidents to the hospital and registry, ensuring patient centric data aggregation and allowing for quick and easy patient care data entry. The goal of the Patient Registry is to gather information more efficiently in order to better analyze treatment methods to reduce morbidity and mortality.' Below the text is a small screenshot of the ImageTrend software interface showing a funnel chart and various data points. Underneath, there is a 'Getting Started Tasks' section with links for 'Logging In', 'Retrieving a Forgotten Username or Password', 'Selecting your Facility', and 'Personalizing your Dashboard'. At the bottom, there are 'Contact Us' and 'Copyright' dropdown menus.
