

Dear Vendor,

In previous communications the Michigan WIC Program informed Vendors that monitoring visits and inventory audits would be temporarily suspended due to the COVID-19 shelter-in-place mandate by the State of Michigan.

Given the Governor's most recent Executive Order (No. 2020-110) issued June 1, 2020, in which the state's stay-at-home order was lifted, please note that we will resume normal business activities, including unannounced monitoring visits and scheduled inventory audits.

Please direct any questions or concerns to: MDHHS-WICVendor@michigan.gov.

We thank you for your continued partnership and appreciate all your efforts during this difficult time.

Sincerely,

Kim Keilen, Manager
Vendor Relations & Program Integrity Section
WIC Division, MDHHS
